TINAMU

AUTOMATED
No pilot needed

INDOORS
Even without GPS

FLEXIBLE
Flying sensor node

VIDEO

WE REVOLUTIONIZE INDUSTRIAL MONITORING

3. Remote Location
Data is collected by flying sensor nodes.

1. Dashboard
Live data access from everywhere.

2. Cloud Analytics
Cloud processing of collected data.

Automated drones as a 24/7 sensor network

- **Efficiency**
  Less expensive workflows

- **Consistency**
  Consistent asset data

- **Safety**
  No hazard exposure
