## WHY CHOOSE BIOSCOUT

### IMPROVE TIMING.

Apply chemicals at the right  
by knowing disease risk  
time to maximise your yield.

### SPRAY LESS.

Be confident in your spray  
application by having  
evidence of disease.

### ACTIONABLE INSIGHTS.

Know exactly what diseases  
are present and rapidly  
evaluate control measures.

### PEACE OF MIND.

Reduce the stress of disease  
management with a next-gen  
decision making tool.

Join us on our  
world-first disease  
management journey

**Agricultural Disease Detection.**  
Track Fungal Disease Anywhere.  
Take Action.

## IMAGINE IF....

.... you could see evidence of a disease up to three weeks before you see it on your crop.

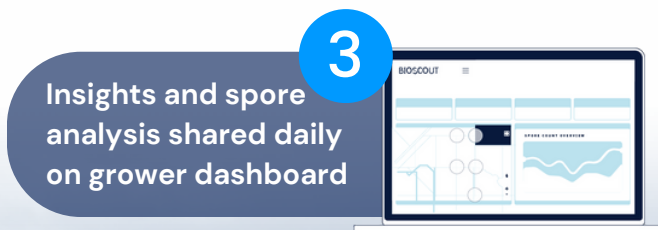

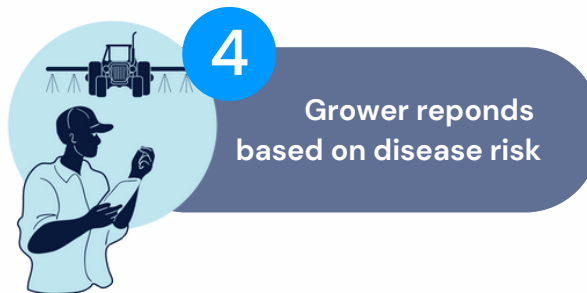

## OUR SOLUTION

Our technology detects airborne diseases in real-time, providing essential information for better management decisions on your phone or computer dashboard.

## BENEFITS

- Autonomously detect disease type and thresholds
- Locate disease hotspots
- Spray application times based on real-time diseases being present or not
- Complementary inbuilt weather station

## HOW IT WORKS

## DISEASE TARGETS
