

# AXIOMA

Biologicals

Designing biosolutions  
**For a sustainable agriculture**

**#BIOSTIMULANTS #BIOCONTROL**

OUR VISION AND MISSION

Since its creation in 2012, Axioma Biologicals has been working to create groundbreaking solutions for agriculture in order to **limit climate stresses impacts on crops**.

We are convinced that biologicals are part of the solution for **a more efficient and sustainable agriculture**. Axioma Biologicals is one of the global players most committed to this transition process.

Our mission is to help solve the equation **"Agriculture, Food and Climate"** by offering **sustainable and reliable biosolutions**, ensuring farmers to **keep high production yield despite climate stresses**.

UNIQUE BIOSOLUTIONS

 <p>COMBINATION OF PLANT EXTRACTS</p>	 <p>NO NPK</p>	 <p>SUITABLE FOR ORGANIC AGRICULTURE</p>	 <p>SCIENTIFIC &amp; AGRONOMIC APPROACH</p>

DESIGN AND MANUFACTURED BY AXIOMA BIOLOGICALS

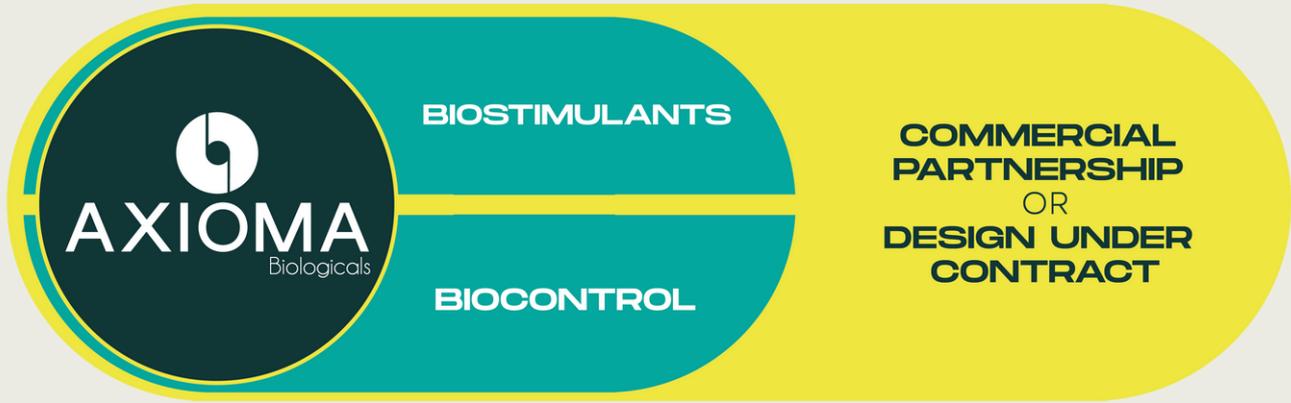

**Laboratoire et site de production**  
3,500 m<sup>2</sup> | 5,000,000 L/an | Plus de 350 actifs biosourcés

OUR MECHANISM OF ACTION

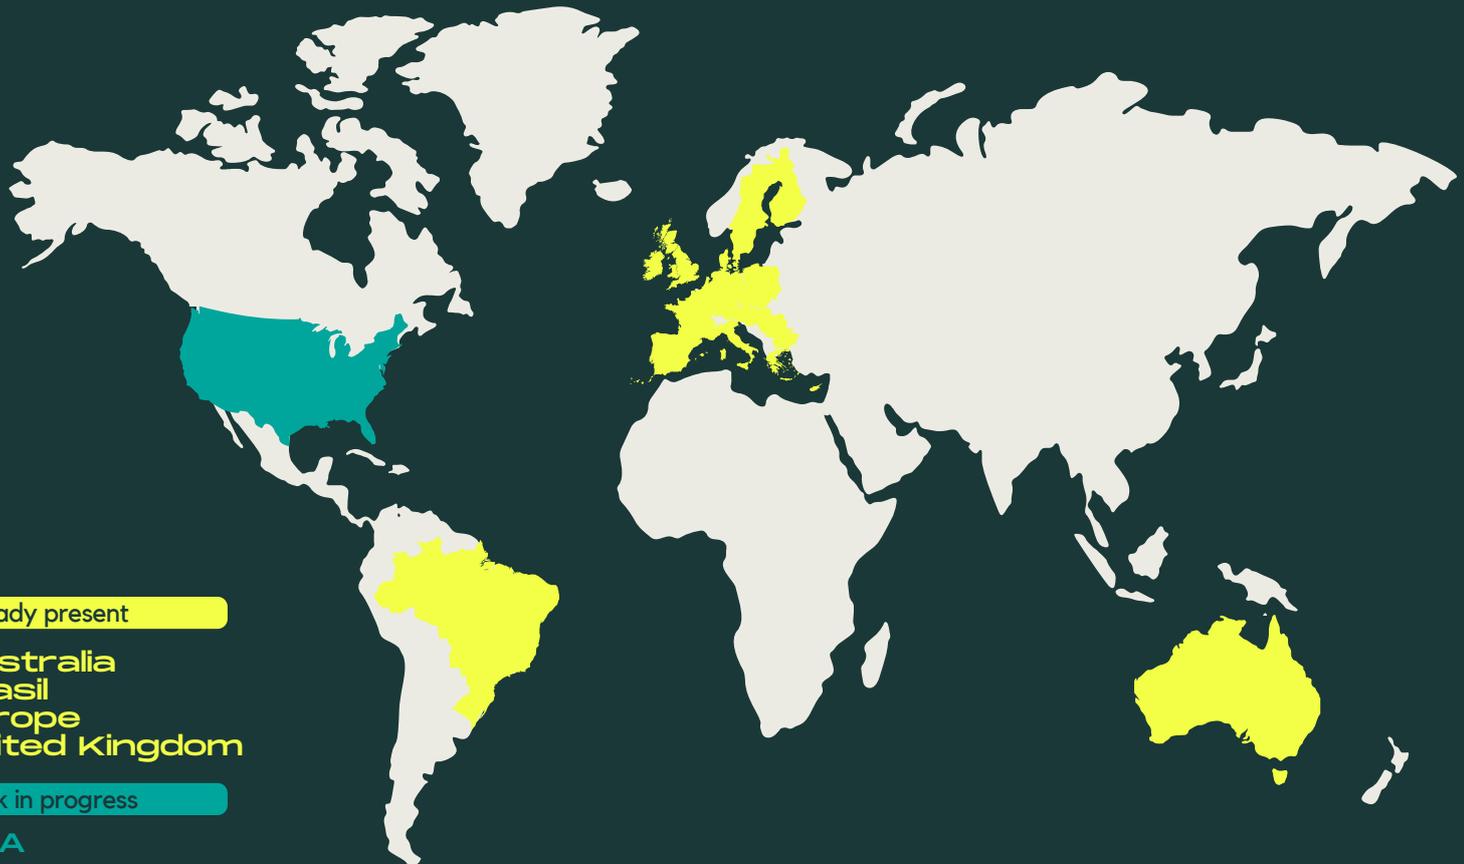

## OUR RANGE OF SERVICES

- We provide **in-house biosolutions** based on our market knowledge and scientific know-how.
- We **design biosolutions on-demand** (targeted crop(s), geographical footprint, type of stress).

## WE GO GLOBAL

## THEY ALREADY TRUST US

And more...
