inda BOX

BY **TERĒGA**
SOLUTIONS

secure by design
bringing your existing equipment online

IndaBOX® makes your industrial equipment smart

Highly secure unit for real-time collection of industrial data directly from your PLCs

io-base
value-added data

IndaBOX® guarantees **reliable, continuous, maintenance-free, operation.** The components are in tropicalised units, which gives them greater service life and operation, irrespective of the climatic conditions.

The **compact design** - provides space-saving mounting as well as easyconnection to your equipment. **IndaBOX®** ensures **secure communication,** by transmitting the **data unidirectionally.**

TECHNICAL CHARACTERISTIC

- Dimensions: width 80 mm - height 96 mm - depth 105 mm - weight 0,36 kg

- Power supply: **12-24 VDC**

- Power: **20 W**

- Mounting: on **DIN rail**

- Protection class: IP 20

- Industrial protocols: ModbusTCP, EthIP, S7, OPCUA, ftp

- Internet protocols: API (POSî), MQTT

- Authentication: Open ID (m2m).
