ABOUT US

ADDEV Materials is a designer and manufacturer of customized sustainable materials solutions for industrial performance. We provide you a perfect combination of expertise in advanced materials, converting excellence and market & application knowledge.

▶ OUR STRATEGIC ACTIVITIES:

ADDEd Value on MATERIALS

▶ EXPERT DISTRIBUTION

▶ CUSTOM PACKAGING OF CHEMICALS & CONSUMABLES

▶ CONVERTING OF ADHESIVES & TAPES

▶ CONVERTING OF TECHNICAL FILMS, FIBERS & ELECTRICAL INSULATIVES

▶ SPECIALTY MANUFACTURING

▶ OUR MATERIALS:

CHEMICALS & CONSUMABLES

ADHESIVES & TAPES

FILMS & FIBERS

▶ OUR STRATEGIC ACTIVITIES:

ADDEV Materials is composed of 3 strategic activities to address our main strategic markets.

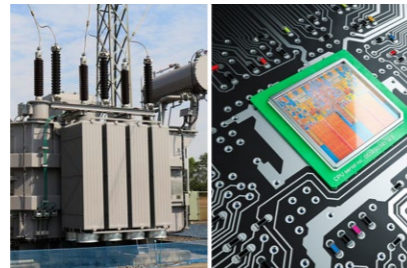

CHEMICALS & CONSUMABLES AEROSPACE & DEFENSE

ADHESIVES & TAPES MOBILITY, INDUSTRY & HEALTHCARE

FILMS & FIBERS POWER & ELECTRONICS

HUMAN ADDED VALUE

The human added value of our teams enhances our materials solutions. This makes us stand out and drives performance for our customers.

▶ PRODUCT RANGE

CHEMICALS & CONSUMABLES

Surface treatment
Adhesives & Sealants
Paints & Coatings
Solvents & Cleaners
Oils & Lubricants

ADHESIVES & TAPES

Adhesives
Sealants
Tapes
Foams

▶ APPLICATIONS

As technical experts, we will determine, with you, the solution that best suits your applications and manufacturing processes. Among our proposals :

Electrical Insulation
Thermal management
EMI shielding

Bonding
Gasketing & Sealing
Surface protection & Masking

Corrosion Inhibiting
Surface preparation & Cleaning
Painting

▶ ADDEVTECH

CREATE TOGETHER THE SOLUTION TO MEET THE INDUSTRIAL CHALLENGES OF OUR CUSTOMERS

From ideation to proof of concept with prototypes, up to industrialization phase, ADDEV TECH Fab Lab gathers our best technical experts to co-develop with you the most suitable sustainable materials solutions for your industrial challenges.

By ensuring a continuous technological watch, our experts will help you answering your technical challenges, and designing low impact materials solutions, by finding the most sustainable materials, processes, and logistics.

With ADDEV TECH you also benefit from our internal laboratory capacities and clean room installation to test and learn, in an agile mode.

We develop with you the solutions of the future

We support Industry towards sustainable solutions

From agility to scalability. We are the link to the industrialisation

▶ ACTING FOR TRANSITION

CONVERTING INDUSTRIAL CHALLENGES INTO SUSTAINABLE MATERIALS SOLUTIONS

Because ADDEV Materials is convinced that the Company is part of the solution, we work on a daily basis for a more responsible industry.

As a signatory of the United Nations Global Compact and Ecovadis certified for 10 years, ADDEV Materials is a pioneer and supports its clients in their ecological and energy transition. We offer sustainable materials solutions using alternative materials, a network of local facilities reducing logistic impact, and customized technical expertise reducing waste.

ADDEV Materials aims to consume better, offering more added value with less resources.

▶ DIGITAL

ONLINE SOLUTIONS AS GROWTH DRIVER

From product selection, to ordering and after sales service, ADDEV Materials provide a 100% online experience that ensures greater flexibility, agility and responsiveness for our customers and partners.

We facilitate your purchasing journey and provide you with the best quality service with clever digital solutions :

1

Range width

As a partner of worldclass manufacturers, we offer one of the broadest ranges of high-performance materials on the market.

2

Technical recommendation

With our technical expertise, we help you to select the best solution, according to your needs and manufacturing processes.

3

Material processing

Thanks to our different technologies we optimize the properties of materials by providing new functions to meet the most demanding specifications.

4

Custom converting & packaging

Thanks to our numerous custom cutting and packaging technologies, we deliver our materials in the most sustainable accomplished form, ready to use, according to your processes.

5

International & Multilocal

With an international presence, we provide a real local service, using our extensive locations (subsidiaries, offices and agents).

6

Dedicated services

Outsourcing of your logistics services, repackaging and delivery on line, transport of hazardous materials... We offer you the service you need.
