

DEVELOPMENT OF OUR ACTIVITIES

7th November 2023, in Chamboeuf,

Dear Customer, Dear Partner,

Since 1952, Chabanne is a French manufacturer of **wire parts, strip parts and springs**, from small to large series, for all kind of activities. Our unique know-how is the result of an adventure that comes from a collective mindset and family.

Always driven by our values of quality and innovation, our company continues to develop in order to offer a complete offer that meets **your needs for efficiency and operational simplification**.

- With the takeover of « Société Nouvelle MediaGroup (SNMG) » whose skills have been recognized for more than 20 years, we have an **additional expertise in thermoplastic injection, for technical and appearance parts**. This new factory based in Fontaines (71) has 16 presses that goes from 50 to 750 tonnes that can manufacture your parts from a few grams to several kilos.
- Our integrated Design Office offers a support from the expression of your idea to its industrialization. Your benefit is a single contact that will help you realize your project from A to Z.
- **The Chabanne group is your partner for design, manufacturing and assembly of wire parts.**

Find all of our 100% french activities on the attached brochure or on our website : chabanne-industrie.com.
