BIO FILTER
MODULAR INTERNAL FILTER

NEW generation + Ecological Efficient

100% BIODEGRADABLE AND COMPOSTABLE *

REDUCED CARBON FOOTPRINT · EMPREINTE ECOLOGIQUE RÉDUITE

LOW CONSUMPTION · FAIBLE CONSOMMATION · ECO

Internal filters of modular cartridges, developed to be more efficient and environmentally friendly. This new innovative system allows easy maintenance and replacement, making it possible to reuse the biodegradable cover by composting process.

COARSE FOAM x2

MECHANICAL FILTRATION

Works as a pre-filter, retaining the existing waste water. For better efficiency, clean it with water from the aquarium once a month.

Recommended replacement
EVERY 3-5 MONTHS

BACT LIFE x2

BIOLOGICAL FILTRATION

Creates ecosystem between fish and plants. Consumes amonium/ammonia and nitrites. Provides more space for nitrifying bacteria.

Recommended replacement
EVERY 5 MONTHS

PURE WATER x2

CHEMICAL FILTRATION

Helps keep water crystal clear. Prevents and eliminates colours, odours, chlorine, chloramines and toxic metals.
NOTE: in the case of fish treatment, this filter media must be removed.

Recommended replacement
EVERY MONTH

ANTI ALGAE x2

CHEMICAL FILTRATION

Very effective filtration to fight and reduce unwanted algae. It absorbs phosphates, nitrates and ammonia. NOTE: in the case of fish treatment, this filter media must be removed.

Recommended replacement
EVERY 2 MONTHS

CLEANWATER x2

CHEMICAL FILTRATION

Ultrafiltration which keeps the aquarium glass and surface clean for longer, helping to create ideal conditions for fish. Reduces organic material, absorbs and retains phosphates, nitrates, nitrites and ammonia. Good results after two weeks.
NOTE: in the case of fish treatment, this filter media must be removed.

Recommended replacement
EVERY MONTH

CHEMICAL FILTRATION

Ultrafiltration which keeps the aquarium glass and surface clean for longer, helping to create ideal conditions for fish. Reduces organic material, absorbs and retains phosphates, nitrates, nitrites and ammonia. Good results after two weeks.
NOTE: in the case of fish treatment, this filter media must be removed.

Recommended replacement
EVERY MONTH

21831 - Cleanwater

5 607329 218311

The thin coating of the filter media acts as a MECHANICAL FILTER for fine particles, which must be removed after use and composted*.

This EASY LED universal model adjusts easily to aquariums with glass of a thickness not exceeding 6 mm. The fixing bracket has a flexible device that allows the positioning of the lighting up to a 90-degree angle, which allows easy access to the inside of the aquarium. LED technology guarantees the high quality of the light emitted, due to its high power, and the low voltage makes it safer. It also allows very low power consumption and ensures a longer life for the lightning. All these advantages offer the fish and plants numerous benefits for their growth and well-being.

IOS DEVICES | ANDROID ADVICES

ORI is a Smart Controller, with WiFi technology, developed to manage in a simple and
efficient way the equipment of your aquarium/terrarium, with our APP "ORI":
• LED lighting systems, including RGBW - Aquariums
• UV lighting systems - Terrariums
• Management of the useful life of the filter media of Aquatlantis filtration systems.
• Instant display of aquarium temperature.
• Instant display of terrarium temperature and humidity.
• Day / month history

ON/OFF

2,1x1x35,5cm | 22gr

Dimmer- 21712

5 607329 217123

**sensitive
touch**

It adopts capacitive touch technique; the switch-
ing and dimming function can be performed by
touch; it works with 12-24V LED lighting products
with direct drive, such as LED cabinet light, LED
rigid bar, LED strip and LED panel light. It can be
used as a touch ON/OFF switch. During the
dimming process, it does not flicker.

Specification

-Working temperature: -20°C - 60°C
-Working power: DC12-24V
-Max output current: 6A

EASY LED CONTROL 1plus is a device which allows the EASY LED and EASY LED UNIVERSAL lighting to have more autonomy, allowing the operation to be programmed. The controller is connected to the power supply and programmed with the times for the lighting to switch on and off. At the scheduled time, the light unit will turn on and off gradually, simulating the effect of the sunrise and the sunset. It also includes a light intensity regulator (0% to 100%).

Input / Output : 12 VDC to 24 VDC, Ø2.1 DC Socket
Max Current: 5A

STORM FUNCTION **NO**

IN CONNECTION **1**
OUT CONNECTION **2**

001 **11147**

The EASY LED CONTROL 2plus is a device that allows controlling the functioning of diverse light units (up to four). The controller is connected with the lighting power and scheduled with the time to turn on and off. At the scheduled time, the light units will turn on and off very gradually, simulating the sunrise and sunset. The controller allows the lights turned twice daily. It also includes a light intensity regulator (0% to 100%). If there is power failure, the device safeguards the existing settings.

Input/Output: 12VDC to 24VDC, Ø2.1 DC Socket
Input: Max 5A - Output CH1:Max 2.5A / Output CH2:Max 2.5A

LUMINUS APP
IOS DEVICES | ANDROID ADVICES
Through the Luminus App, the user has access to the Storm function, which simulates a storm environment in the aquarium.

The Luminus - Smart LED Controller allows you to program the operating time of LED light units, controlling all parameters independently and as desired by the user.

With two independent channels (max. 5A per channel) with four light intervals each, allowing creating the daylight with sunrise and sunset effect, turning the light units on and off gradually (between 10 and 90 minutes). It is also possible to create the night mood in the aquarium, by adjusting the light intensity (10 to 100%). Compatible with all Tecatlantis products.

Input/Output: 12VDC to 24VDC, Ø2.1 DC Socket
CH1: INPUT/OUTPUT max. 5A; CH2: INPUT/OUTPUT max. 5A
