across all customer
channels

valantic supports its customers in building agile, sustainable and efficient supply chains in all areas of the supply chain

With Ivalua, valantic offers an end-to-end eProcurement environment for all industries

- ✓ Software development
- ✓ Private Cloud Hosting
- ✓ Quality control
- ✓ Ensuring availability
- ✓ Technical Innovation driver

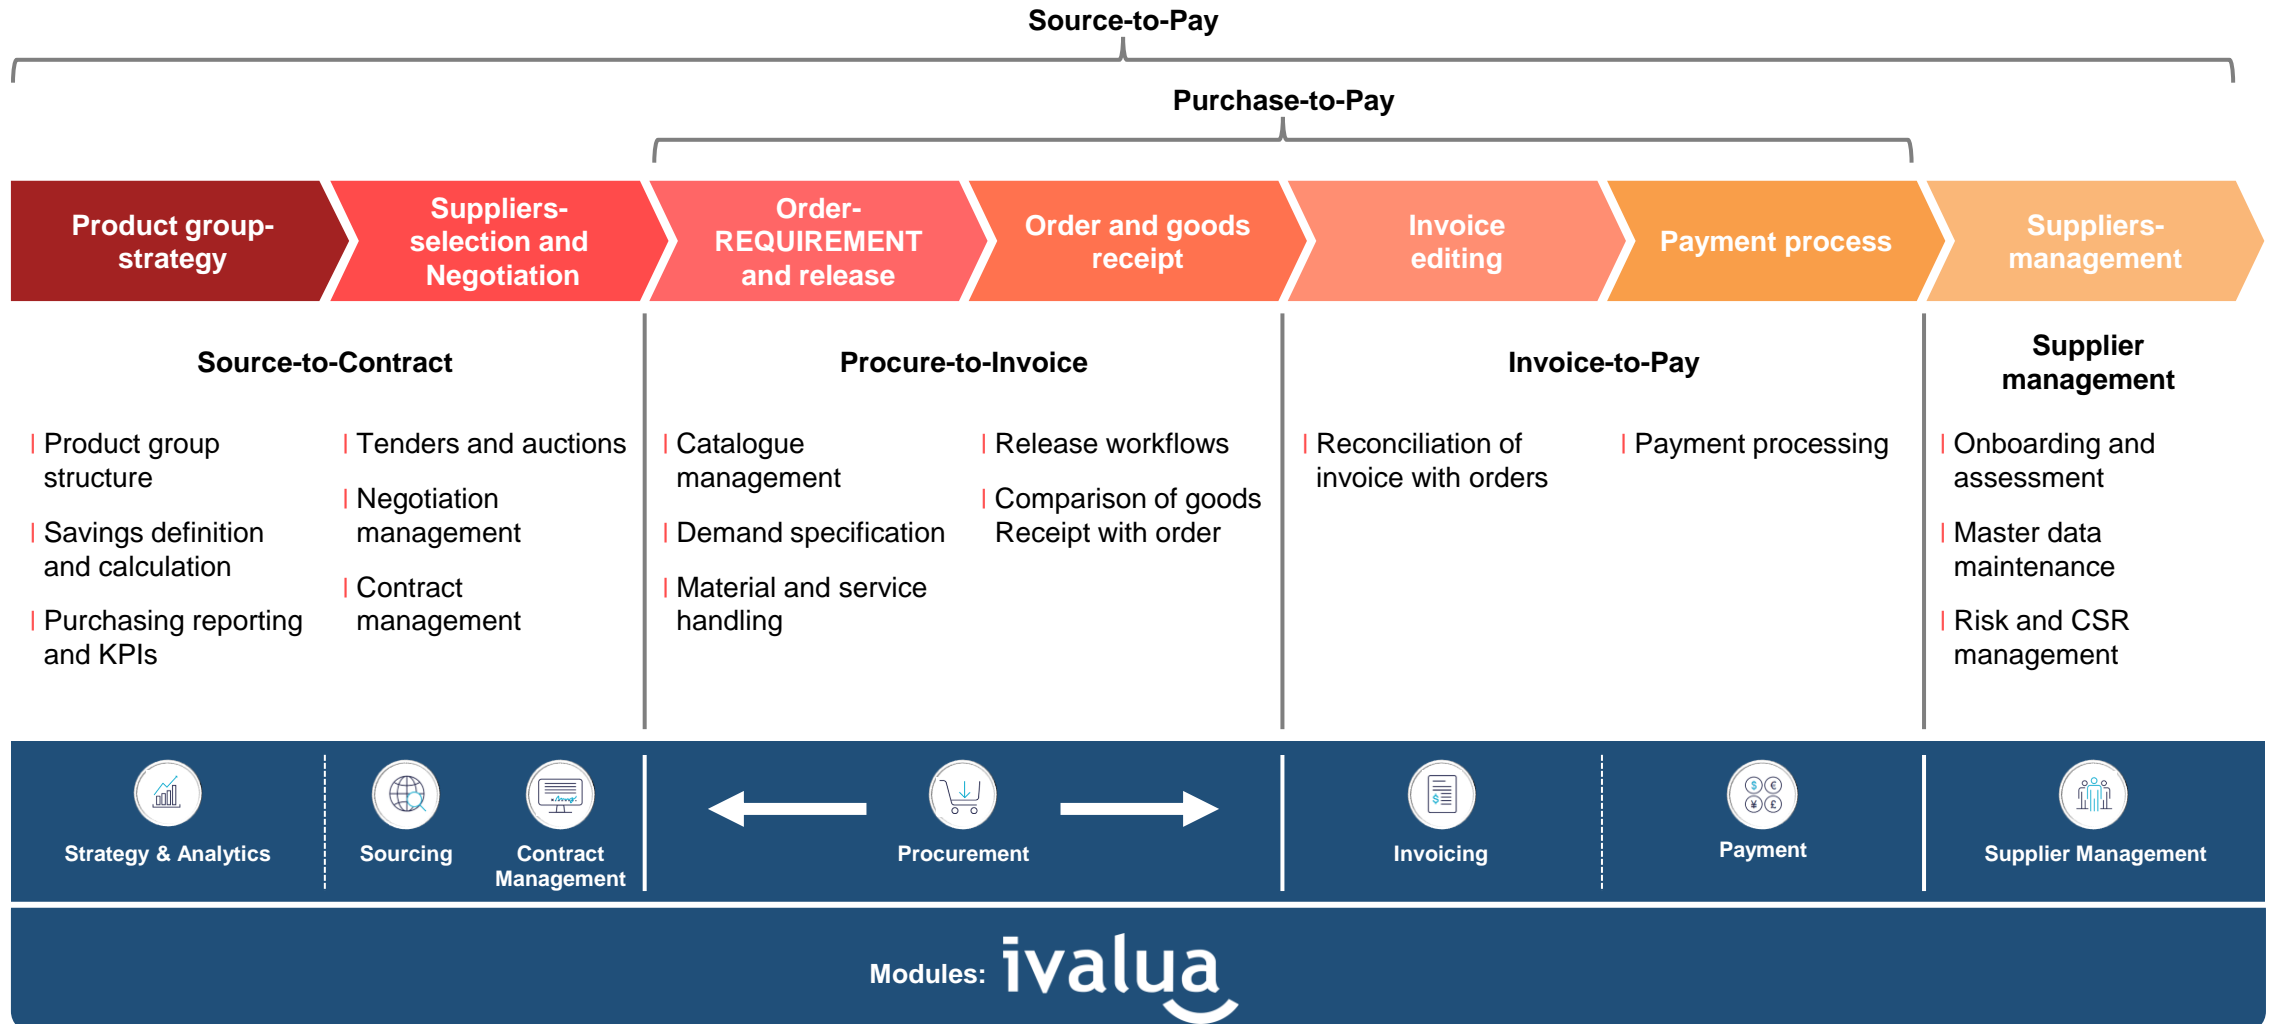

- ✓ Process consulting
- ✓ Best practice for your industry
- ✓ Project management
- ✓ Implementation
- ✓ Roll-out and trainings
- ✓ Change management
- ✓ Hypercare

Ivalua offers modules for the entire range of source-to-pay:

- | **Fast payback** with unrivalled flexibility through **rapid supplier qualification**, **customisable user** interfaces and **rapid implementation**.
- | **A uniform platform** (user interface, data, workflows) based on one code and one database enables **maximum automation** and **optimal evaluability** across the entire S2P process.
- | Ivalua offers a **private cloud-based** solution that meets the **highest security requirements** thanks to its unique multi-instance architecture.

We support you in your transformation towards a complete digitalisation of the procurement process (S2P)

Specifically, four service packages are addressed in order to provide support within the framework of the Ivalua transformation

Hypercare and Support

"Getting the system up and running"

- Supervision & coordination of support service and bug fixing
 - Collection of requirements and support for FAQs
 - Development of alternative solutions based on the requirements
 - Coordination of bug-fixing with Ivalua
 - Bugfixing of minor bugs after consultation
- Hotline for users & employees

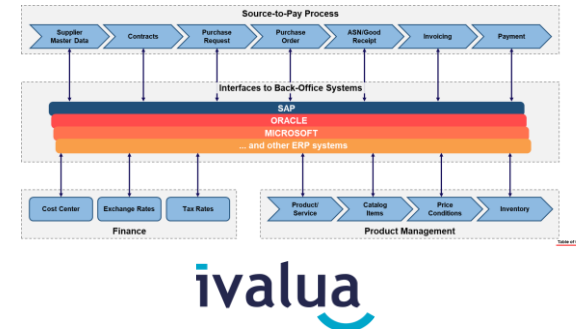

Personnel Support

"Tackling with expertise"

- Manage your supplier portfolio to strengthen your supplier base.
- Integration of Risk management in the core processes
- Development of a suitable organizational structure:
 - Empowering employees to exploit new potential
 - Definition of roles and responsibilities
 - Creating a sense of urgency throughout the organization
- Automation of risk management

Ivalua Implementation

„Digitalization on Demand“

- Implementation of necessary and supplementary modules and 3rd party SW
- Advice on specific issues incl. feasibility assessment
- Integration into the ERP system and execution of UAT/Testing

Mentoring and Training

"Train (Key) Users"

- Mentoring & coaching management and key users
- Accompaniment during certification from L1 to L3
- (Short) training for other employees
 - Preparation of training materials
 - User training by valantic and/or key users
