

Empowering organizations to make their IT ecosystem more efficient, inclusive, and responsible.

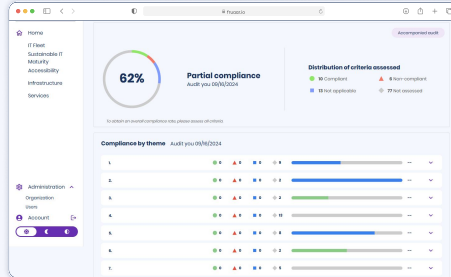

Manage your entire Digital Responsibility strategy

One platform – 3 challenges

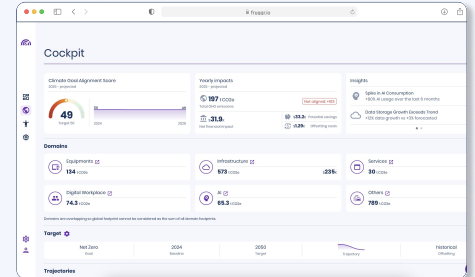

AI GOVERNANCE

ACCESSIBILITY COMPLIANCE

IT ESG COCKPIT

Your challenges

Drive your AI Transformation Responsibly

- Exploding AI costs
- Tightening regulations & compliance

Reduce the cost of accessibility compliance

- Over 95% of websites fail basic AI/IT tests
- Growing legal risks (WCAG, EAA...)

Monitor your IT costs & footprint

- IT costs increase by 13% yearly
- Complex digital policies to manage

Our solutions

- AI registry** to map and govern all your systems
- Policy assessment** to ensure ethical, compliant AI at scale.

- Centralized compliance** tracking across all your assets
- Smart recommendations** to fix issues faster

- Full visibility on your KPIs** to plan your ESG strategy
- Recommendations engine** to act where it matters most

Average results

- Up to **90% reduction** on costs and carbon emissions
- Compliance reports** made easy

- Accessibility audits** reduced from 5 days to 3 hours
- 82% of project team** fix issues upstream with seamless user experience

- Up to **23% lower carbon footprint**
- Over **10% savings** on cloud and infrastructure costs

Keep control of your IT strategy and deliver measurable results

Gain full visibility on
your IT's financial &
environmental
impact

Drive compliance
(AI, AIIV, ESG) and
simplify reporting

Optimize
performance and
reduce unnecessary
expenses

Engage teams in a
responsible digital
transformation
