

QAnswer®

| CREATE AI ASSISTANTS ON YOUR DATA | AT YOUR PREMISES |

About QAnswer

QAnswer is a software that allows construction of Question Answering (QA) AI Assistants on top of proprietary datasets like documents, websites and data. It enables you to make your datasets accessible via natural language.

Just upload your datasets and get started with your Virtual Assistant in a snap.

Our Mission

We believe in transferring latest GenAI advancements from research to industries.

Our client-centric approach, tailor our capabilities to meet the unique needs and objectives of each organization.

Our Unique Value

- ✓ Top-notch Security
- ✓ Versatile Solution
- ✓ Realtime Insights
- ✓ Search or Chatlike Support
- ✓ Data Transparency
- ✓ Provides Answer Sources

No Code Chatbot

Easily create chatbots in just a few steps. Zero coding skills required.

On-Premises or SaaS hosting

Highly flexible and can be deployed either on-premises or in cloud.

In-house LLM Technology

Backed by in-house LLM, we ensure high security and data transparency.

Empowered by Speech-to-text

Seamless interaction enhanced by advanced voice-to-text feature.

Adaptable & Easy to Setup

Effortless integration within existing systems. Versatile for any environment.

Multilingual & Natural Language

Leveraged by linguistic diversity and innate language understanding.
