boomi

Boomi Corporate Overview

Boomi, the intelligent integration and automation leader, helps organizations around the world connect applications, data, and people to accelerate digital transformation.

The Complete Platform for Digital Transformation

The Boomi platform helps organizations modernize and automate critical processes to achieve business outcomes faster. You get the benefit of a single, independent platform that can connect all your systems and handle all your data flows, regardless of your technology. With the Boomi platform, you can eliminate the time and expense of multiple tools, provide consistent user experiences, and get the flexibility to run your operations as you choose.

Platform services include:

Integration. Connect applications, data, and things faster with pre-built integrations and the guidance of over 200 million crowdsourced integrations powered by machine learning.

API Management. Create and configure APIs, expose real-time integrations, control and govern data access, and support the entire lifecycle of APIs in any environment effortlessly.

B2B/EDI Management. Modernize your trading partner network with cloud-native integration with your business-to-business/electronic data interchange (B2B/EDI) ecosystem while ensuring security, compliance, and end-to-end visibility.

Master Data Hub. Get a comprehensive 360° view of any data domain to drive faster, more confident decision-making.

Flow. Build applications and automate workflows with low-code technology to make digital experiences happen quickly, securely, and at scale.

Event Streams. Create high-performance, event-driven integrations with guaranteed delivery and ordering, at scale and in real time.

Boomi AI. Harness the power of generative AI to integrate and automate faster, so you can democratize innovation and accelerate business outcomes that change the future.

An Unparalleled Community and Library of Connectors

Why Boomi?

- **AI-powered integration and automation.** Overcome IT complexity, digital fragmentation, and application sprawl. Connect everything, everywhere, with AI-powered integration and automation.

- **Cloud-native agility and scalability.** Business landscapes change. With Boomi, you can rapidly and effortlessly scale and adapt, ensuring you're always ready for the next opportunity or challenge.

- **Trustworthy and secure.** Advanced security features, reporting, governance, DevOps practices-testing, version management, and CI/CD. FedRAMP-authorized for enterprise-grade security and reliability.

- **Future-proof.** Boomi solutions help you future-proof your organization and stay ahead of the rapid pace of change.

Connect Everyone to Everything, Anywhere

Boomi aims to make the world a better place by connecting everyone to everything, anywhere. The pioneer of cloud-based integration platform as a service (iPaaS) and now a category-leading, global software as a service (SaaS) company, Boomi has the most extensive customer base among integration platform vendors and a worldwide network of ~800 partners. Approximately 20,000 organizations worldwide turn to the award-winning Boomi platform to discover, manage, and orchestrate data, all while connecting applications, processes, and people for better, faster outcomes.
