

ARUSPIDE

BODEGAS

Where wine becomes Art

Our History: The Origin

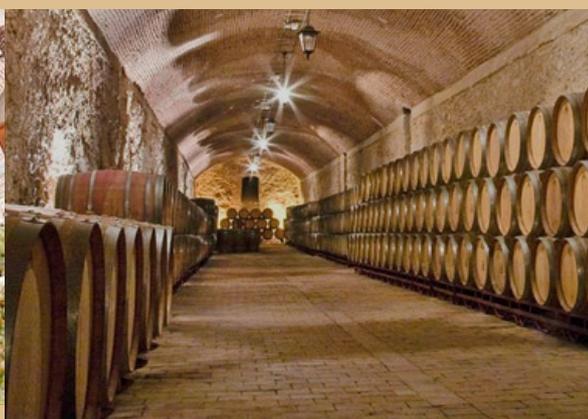

Bodegas Arúspide was born from the meeting of tradition and passion, in the heart of Valdepeñas — a place where wine is not only produced, but truly lived.

Each bottle we craft bears witness to an ancestral legacy, passed down with care, respect, and a deep love for the land.

Since 1999, we have walked the path that harmonizes between heritage and innovation, embracing modern techniques without ever compromising the authenticity that defines our character.

Our wines are the result of unwavering respect for nature and a relentless pursuit of excellence in every harvest.

We are past, present and future - a bridge between tradition and modernity.

Our Territory: Tierra de Castilla

Tierra de Castilla

It is synonymous with excellence.

Here, **Cencibel (Tempranillo)** and **Airén** reach their highest potential, reflecting the purest essence of our terroir.

Our Varieties: A Mosaic of Flavors

At the heart of our reds lies **Cencibel** — the very soul of our winemaking identity, rooted deeply in our land. Yet, in our pursuit of new expressions of the terroir, we have welcomed **Syrah, Merlot, Graciano, Garnacha,** and **Petit Verdot** varieties into our vineyards. These grapes have found a home here, embracing the essence of our soils and climate, and contribute to the richness, depth, and complexity that define our wines.

For our whites, **Airén** embodies the purest connection between the vineyard and the glass, carrying the spirit of our land into every sip. Alongside it, varieties such as **Viognier, Chardonnay,** and **Sauvignon Blanc** integrate naturally, adding freshness, aromatic depth, and a versatility that enrich our white wine collection.

Our Philosophy

3 Commitments:

1. To the Land:

We believe that good wine is born from respect for the earth and its natural cycles.

Nearly all our production is organic, crafted with minimal intervention and constant care to maintain a sustainable balance in the vineyard.

This dedication to nature has also inspired us to create wines with **no added sulfites** — offering a pure, honest, and vibrant expression of both the fruit and the environment that nurtures it.

2. To Tradition:

We honor the heart of our winemaking heritage by crafting **classic wines** from **native grape varieties**.

Each wine tells the story of its origin — the identity of the grape, the character of the soil, and the passion of those who cultivate it. Our purpose is to keep that authenticity alive, bringing consumers closer to the true essence of our vineyard.

3. To Innovation:

In an ever-evolving world of wine, we embrace innovation without compromising our essence.

We were pioneers in creating **partially fermented musts**, a category that marked a turning point, by offering a fresh, aromatic, and low-alcohol experience that appeals to contemporary palates.

We also reinterpret traditional winemaking techniques, such as **Orange wines** or **carbonic maceration**, reaffirming our commitment to innovation, sustainability, and connection with the new generations of wine enthusiasts.

Global Presence and Mission

We bring our essence to more than 20 countries.

Our mission is to connect, inspire and accompany moments that deserve to be remembered in every corner of the world.

Our Wine Collection

Premium Wines

AUTOR
de ArÚspide

THE ANCESTRAL RHYTHM OF OUR LAND

Our highest oenological expression: classic wines from the **Tierra de Castilla**, interpreted by our winemaker **José Manuel Corrales**.

Crafted with minimal intervention and innovative techniques, these wines are perfect for lovers of traditional, premium wines, elegantly aged in French oak barrels.

Tempranillo and Chardonnay.

PURA Savia

NATURE SETS ITS OWN PACE

A tribute to the authenticity of the vineyard. Each wine is born in harmony with the land, free from artifice, allowing nature to set its own rhythm.

These are living, sincere wines, deeply connected to their origin.

Cencibel with no added sulfites, Petit Verdot, and Airén Orange.

Organic Wines

ardales

THE ESSENCE OF ORGANIC EXCELLENCE

An evolution from organic to sophistication.
Wines with enhanced structure and complexity, perfect for those seeking sustainable wines without sacrificing elegance.

**Graciano-Merlot and Verdejo
