Corporate Social Responsibility

We develop and provide socially beneficial and safe goods and services through innovation, and strive for sustainable economic growth and the resolution of social issues. For creating our innovation, we make appropriate use of intellectual property and personal information while protecting them in a proper manner.

We understand and respect for internationally agreed human rights and avoids discrimination or any other forms of violation of human rights. We prohibit forced labor and child labor and conducts business that respects the human rights of all persons

We realize that environmental protection is the common challenges facing humanity and proactively initiate measures in acknowledgment of environmental issues and their importance to a corporation's operation and persistence.

We are actively engaged in community involvement activities and contribute to community development as a good corporate citizen.
