THE NEW YORKER

THE GREAT CASH-FOR-CARBON HUSTLE

Offsetting has been hailed as a fix for runaway emissions and climate change—but the market's largest firm sold millions of credits for carbon reductions that weren't real.

**LACK OF
STANDARDIZATION**

**DATA
INTEGRITY**

Caused by Major Infrastructure Deficiencies

Introducing  Carbonable

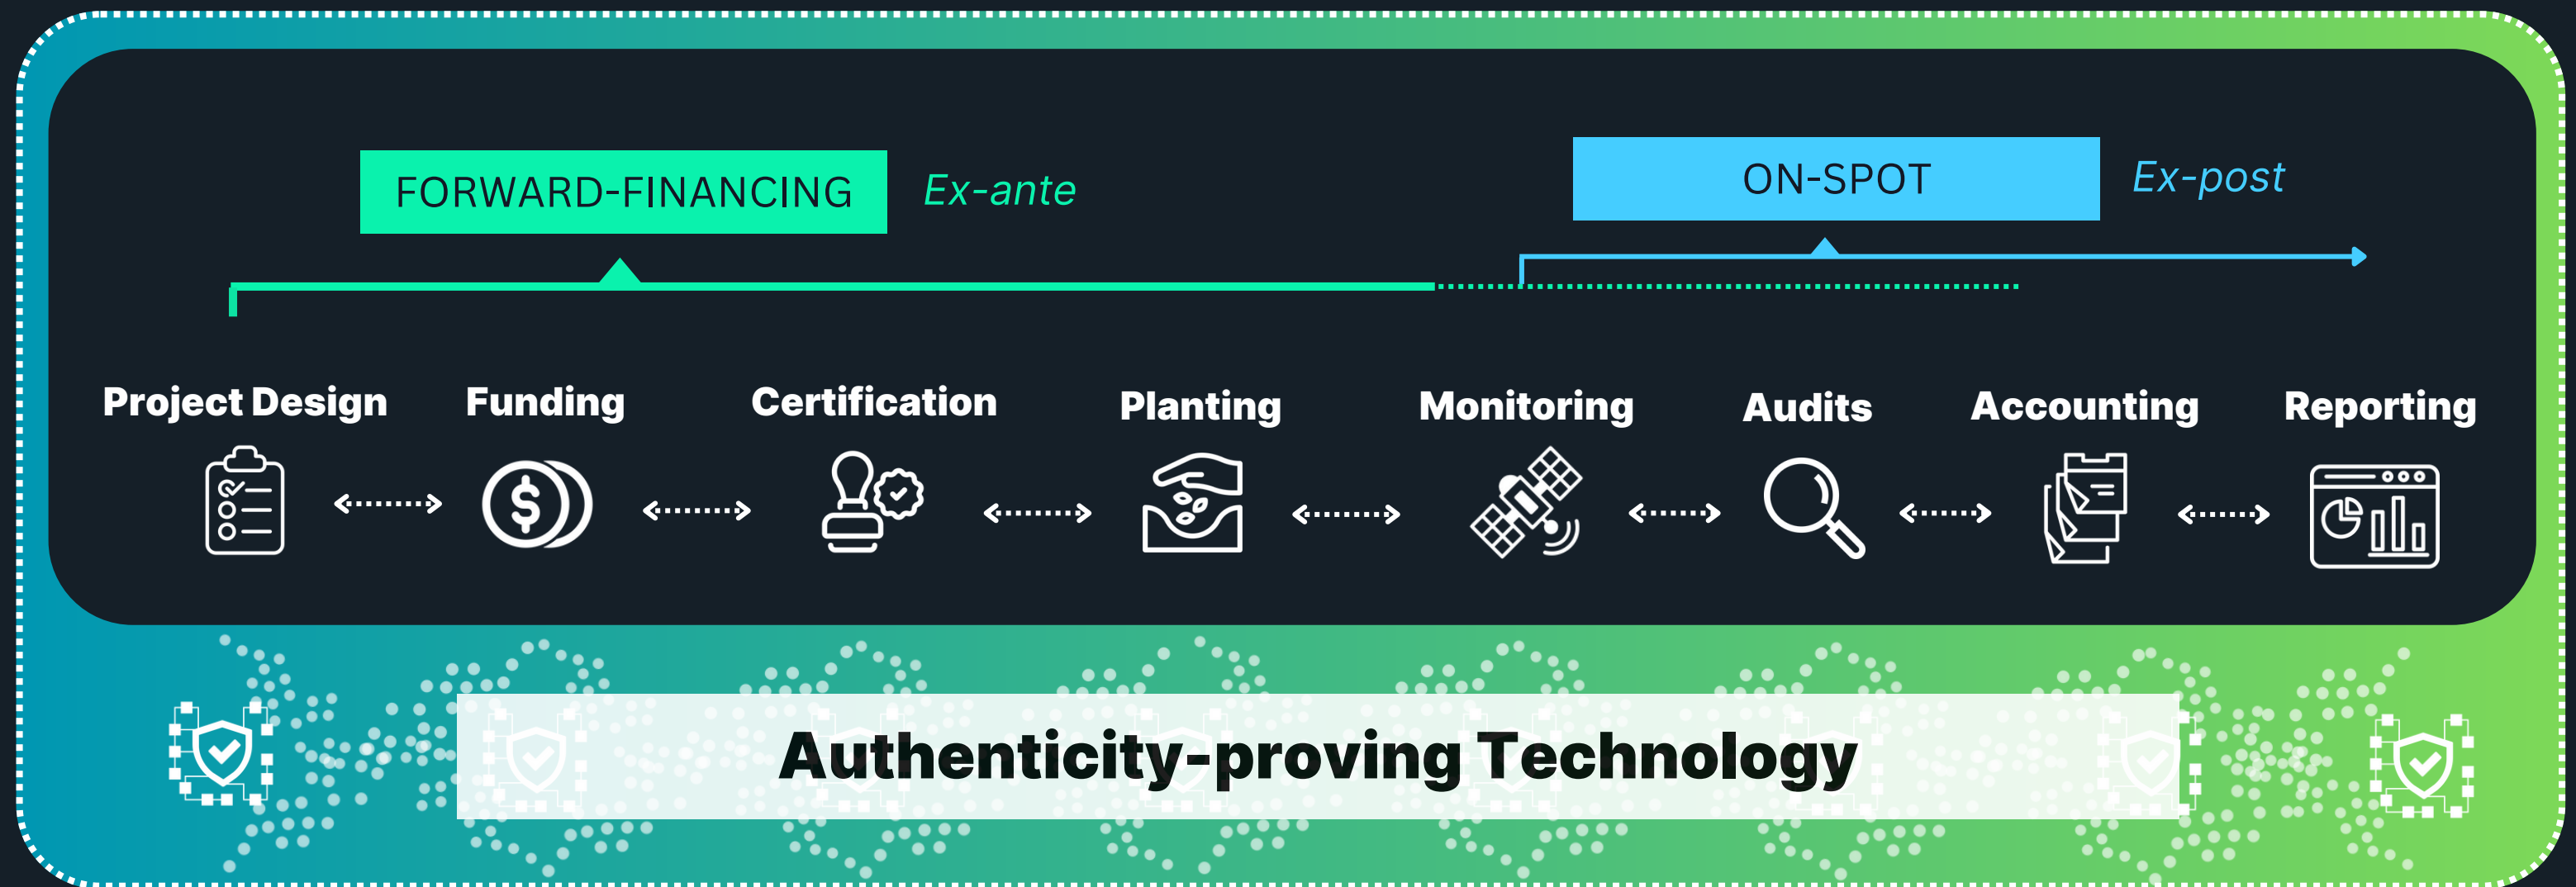

Pivoting from Environmental Pledges to Proven Action

The technology to scale and secure environmental
action through integrity

Three Core Guiding Principles:
Data. Execution. Integrity.

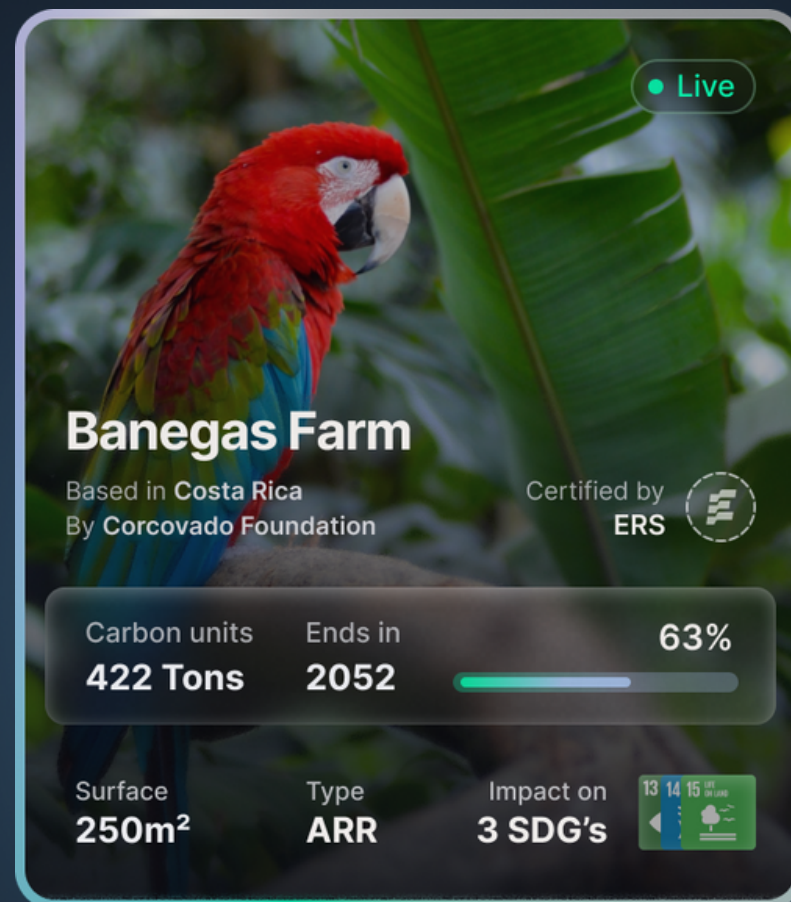

Establishing the **Trust Layer** for Eco-Contributions in the Entire Supply Chain

**Our Bedrock for Action:
A Pioneering Technology**

Authenticity-Proving Tech built on Smart-Contracts & Cryptography

- Generating proof of action
- Guaranteeing data integrity
- Immutable, Transparent, Traceable

Showcase Proof, not Promises.

Carbonable ProSuite

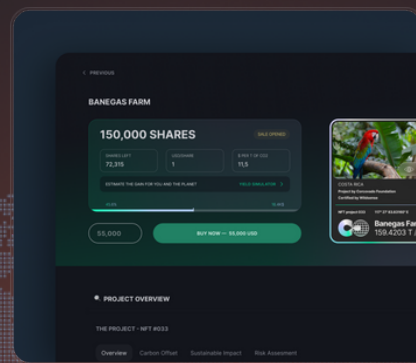

The all-in-one Platform for **funding, managing,** and **reporting** environmental contributions

Leveraging Carbonable's proprietary technology

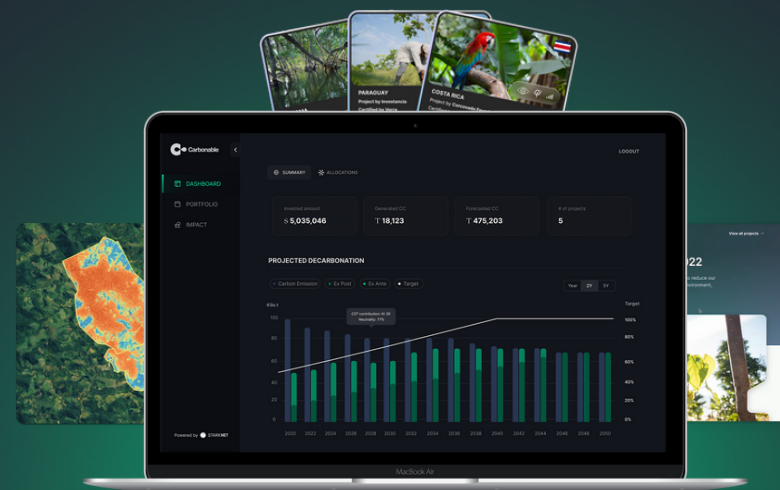

Streamline, elevate and secure your contribution process, from strategic planning to execution

 Carbonable Funder

A gateway to tailored and trusted environmental project funding

 Carbonable Manager

A unified platform to streamline environmental contributions

 Carbonable Prover

The Technological Trust Layer for all your Eco-Contributions

1

Giving Access to Tailored & Trusted Funding

Tech-powered Sourcing & Ratings

Margins Transparency & Cost-efficiency

Financial Decision-Making Tool

Risk Diversification

Incompressible Yearly Emissions (t) Define a starting year of investment

Investment Strategy Split: 59% - Forward | 41% - Purchase

Features	Brokers <small>Buy</small>	Carbonable <small>Buy</small>	Carbonable <small>Fund</small>	Carbonable <small>Tailored</small>
Everything your need to take your carbon investment to the next level.	Buy your carbon credit OTC with a broker	Buy premium carbon credit generated by Carbonable projects	Invest in nature regeneration projects which generate premium carbon credit overtime	Build the best strategy that fits your need between funding and buying
Total cost: 2024	\$ 2.97M	\$ 2.67M	\$ 255K	\$ 1.25M
Average yearly cost: 2024	\$ 148.55K	\$ 133.69K	\$ 12.75K	\$ 62.34K
Total cost: 2023	/	\$ 2.5M	\$ 255K	\$ 1.17M
Average yearly cost: 2023	/	\$ 124.83K	\$ 12.75K	\$ 58.7K

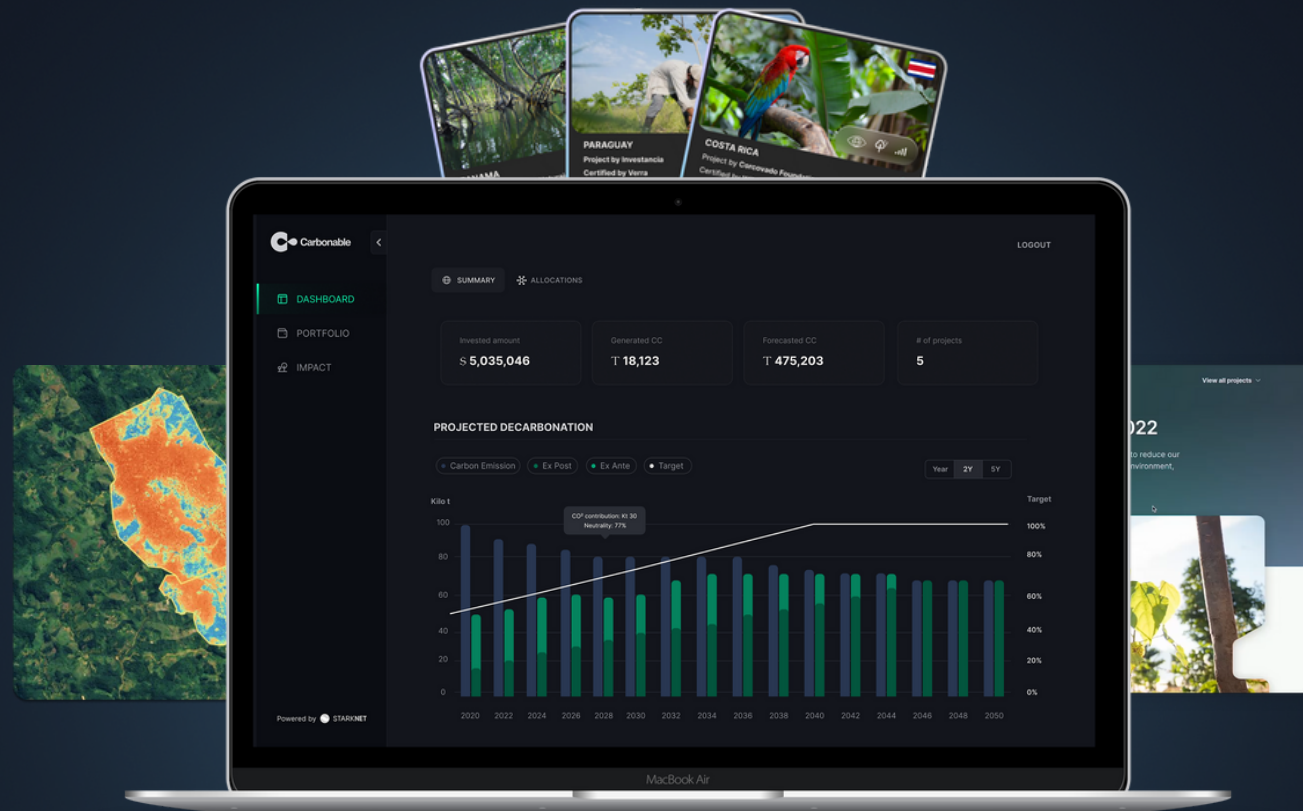

Save up to \$72.66K on your project by starting today.

 Carbonable Manager

3.0 ERP: Streamlining contributions from A to Z

-  Unified Portfolio Management
-  Dynamically aggregating key data
-  Seamlessly Plan, Manage, Monitor, Report
-  Accounting & Auditability

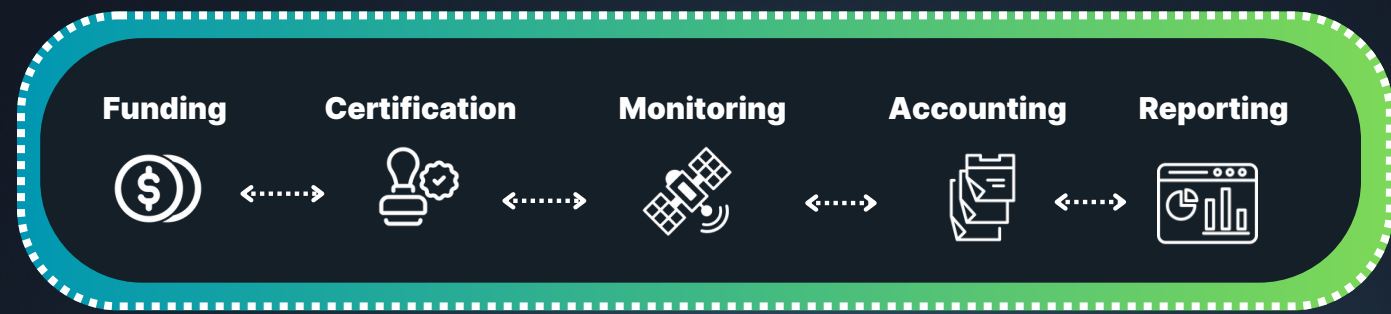

3

The Trust Layer for all your Eco-Contributions

- From ~~Mistrust~~ to Proven Data and Action
- Provider agnostic: cover the entire value chain
- Time stamp for Transparency & Traceability
- Auditable for incoming regulations (CSRD)

Carbon Removal

Trusted by **Industry Leaders.** Our Greatest **Advocates.**

"Carbonable emerged as an ideal partner thanks to its agility in aligning international projects with our eco-social goals, its transparent pricing for quality projects, its state-of-the-art monitoring and reporting tools, as well as its all-in-one contribution management platform."

Alexandre Panel - Green Mission Manager

Pierre Fabre

Hanabi Consulting

"Carbonable is the game-changer in carbon contribution management. As a Beta user of their platform, we've experienced how it streamlines the execution of our contribution goals. With all critical features integrated, the management process is effortless. Further, by ensuring every carbon credit's origin, journey, and impact are visible and verifiable, Carbonable guarantees accountability and compliance - both indispensable in our sustainability journey."

Fabien Donadey
Co-CEO, Hanabi Consulting

argent

"At Argent, we see transparency and traceability as the foundations that solidify the integrity of carbon removal. Carbonable's application of Digital Ledger Technology, coupled with Satellite Imagery and Artificial Intelligence, is instrumental in achieving this. They provide an essential audit trail, confirming that carbon sequestration activities genuinely contribute to atmospheric carbon reduction, thus fostering stakeholder trust."

Itamar Lesuisse
Chief Executive Officer - Argent

klub

"Carbonable's reports provide a consolidated view of inputs from all stakeholders in our carbon removal initiatives. The use of both quantitative and qualitative data offers a level of trustworthiness and tangibility that was previously missing. It enables us to confidently exhibit the environmental, biodiversity, and livelihood impacts of our investments, while reinforcing accountability and trust to our internal and external audiences."

Martin Rosenbaum
Co-Founder and Chief Investment Officer, Klub

Beyond Customers, **Crafting Partnerships**

-  Innovation in our DNA : we're here to solve most strategic challenges
-  We're constantly building new features and addressing new use-cases for our partners
-  We count on a dedicated team of engineers, analysts and problem solvers

Carbonable

Unified. Seamless. Reliable.

From environmental pledges to proven action
