OUR 3 FIRST FEATURES

BATTERY DIAGNOSIS **SOFTWARE** FOR GIGAFACTORIES & MOBILITY

1 SELF-DISCHARGE QUICK CALCULATION

2 ACCURATE SOC ESTIMATION

3 STATE OF HEALTH DIAGNOSITC

About Us

Entroview, a battery management startup, uses entropy-based technology to enhance battery production and utilization.

We provide real-time assessments of SOC, SOH and Quality, ensuring safety and extended lifespan.

entroview

Smart battery
To improve battery intelligence from producers to users to reduce waste and improve lifetime

Data platform
Entroview will be the data platform throughout battery lifecycles

Physics
Based on entropy research with degradation analysis in one cycle
