

Building a future-proof industry.

A summary of bematrix's
obtained **certificates** for our
sustainability efforts!

BUILDING A FUTURE-PROOF INDUSTRY

Certified expertise.

Eventsost

Eventsost is a recognised leader in sustainable event certification. We proudly received the Eventsost Sustainable Resource Certificate in **2021** and renewed it in **2024**.

This certificate reflects our efforts in reducing material consumption at events, minimising waste, conserving energy, lowering CO₂ emissions, reducing noise during stand assembly, and promoting a circular economy.

Climate Neutral Now

The UNFCCC secretariat launched the Climate Neutral Now initiative to encourage and support organisations to act now in order to achieve a climate neutral world by 2050. It is a tool to promote additional voluntary action on climate and to provide recognition for it.

For our carbon reduction efforts in **2021** and **2022**, we received a Climate Neutral Now certification from the UNFCCC secretariat. This initiative has been phased-down by the UN in 2023.

[Certificate →](#)

ClimatePartner

In **2024**, we took a bold step forward by certifying our 12 most popular ECO+ frames, representing over 90% of our total frame production, by ClimatePartner, an organisation that verifies climate action efforts.

[Certificate →](#)

ISO 9001:2015

By being ISO 9001 certified, we can guarantee our clients that we excel in **quality management** on product and service level. Ensuring continuous improvement of our operations.

[Certificate →](#)

ISO 14001:2015

Achieving the ISO 14001 certification means we meet all **environmental regulations and laws** while improving our environmental performance daily throughout the whole organisation.

[Certificate →](#)

ISO 20121:2024

The ISO 20121:2024 certification reflects our dedication to sustainability on all three dimensions: **economic**, **environmental** and **social**. We are particularly proud to achieve this certification as one of the firsts in Belgium

[Certificate →](#)

Independent certifications validate our commitment to sustainability. They serve as proof of the **progress** we're making and the **standards** we hold ourselves to every day.

About bematrix

bematrix is a Belgian company that designs, manufactures, sells and rents modular frame systems for the event industry.

Our mission is to be the leading system for easy and sustainable event building.

Our modular frame system is based on reusable aluminium frames that can be easily assembled and finished with our fabric or panels, offering a sustainable and flexible alternative to traditional stand construction. Our aluminium frame system empowers event builders and exhibitors with endless creative possibilities. From exhibition stands and congress walls to indoor and outdoor events and pop-ups. Besides the b2b frame system and its accessories, we also offer electric, extreme and outdoor solutions.

Key figures 2024

Key Figure	Value
59 countries	Sold the frame system
1334 employees in Belgium, 217 in other countries	of our B2B clients open to sharing
2 production sites (one in Ronse, one in Herentals)	40+ million turnover
3 ISO certifications (ISO 9001/2015, ISO 14001/2015, ISO 20401/2024)	Global rental network (12 service centres across Europe, the UK & US)
