intuiface

The Audience Engagement Platform

Intuiface is a no-code platform dedicated to the delivery of rich interactive digital signage that connect audiences to place.

intuiface

The Audience Engagement Platform

In-Venue

From stand-alone kiosks to multi-screen displays. For any audience, in any place.

In a Webpage

Make your interactive content available for audiences wherever they may be.

As a Mobile App

Create Progressive Web Apps that audiences can take with them.

Interactivity across the spectrum

Touch

Sensors

RFID/NFC

Computer Vision

Gestures

Voice Activation

QR Codes

AI

Internet of Things

Object Recognition

Text to Speech

Web Triggers
(Including **IFTTT** & **zapier**)

Create modern interactive experiences

Deliver complex, modern, deeply interactive apps with total design freedom and native code-like performance at 20% of the custom coding cost using **Intuiface Composer**.

Connect with any cloud-hosted service

Visually integrate with your choice of API-driven platforms, cloud services, and IoT devices in seconds, using **Intuiface API Explorer**.

Manage the content displayed on screen

Define, store, and manage the media and information consumed by Intuiface deployments anywhere in the world using **Intuiface Headless CMS**.

Analyze audience preferences in context

Track and share KPIs with data collected from your projects without requiring a data scientist, using **Intuiface Analytics**.

Deploy to devices anywhere in the world

Remotely manage 1000's of devices from any web browser, for any supported platform, on your own schedule, using **Intuiface Player** and **Intuiface Management Console**.

Grow your design or integrator business

Build cutting edge content 80% cheaper and 60% faster than custom dev - and that's before joining our best-in-class partner programs.
