About us

01

Who are we? What is our goal?

We always had one goal: to bring people together through the power of real, honest conversations.

Starting with one product in Hungary in 2020, our collection has grown to include 11 unique games, each designed to spark engaging and heartfelt discussions. We have sold over 80,000 products, bringing meaningful conversations to countless homes.

In recent years, our cards have become increasingly popular among families, couples, friends, teachers, and mental health professionals. They offer a fresh, new way to connect, which is particularly refreshing in today's world, where people are becoming more and more isolated.

Our two best-selling games were so popular that we've made them available worldwide. You can now find them in English, German, Czech, and Polish.

Quality Time, is an exciting card game that sparks deep conversations and encourages people to open up to each other. It's more than just a game—it's a tool for better understanding and getting to know each other.

Quality Time Kids has become a favorite among families and educators. We've translated the questions into language that children can easily understand, allowing for unforgettable memories to be made during a fun game. This also helps adults better understand what is on their children's minds and what concerns them.

We believe that the right conversations can bridge gaps, heal relationships, and inspire change. We exist to encourage everyone to step out of their comfort zones and create a more honest, self-aware life.
