Eco-jewellery & design

WE WANT OUR DESIGNS TO CONTRIBUTE TO A BETTER WORLD, NOT PUT MORE "CRAP" ON IT

The impact of design for the social good

Our designs are sustainable made, with respect for people & planet. The materials are sustainable and recycled. Handmade in our Dutch design studio and produced with a our network of local craftsmen and social workplaces, where people with disabilities are very proud to be a productive part of society.

A product can be so much more. It can be a vessel to share your story with the world. With storytelling and the right design, you can add educational value. A channel to take home a memory, an experience of something learned in the museum. We believe in the power of creativity and design to help transform society. When Janneke started the company 10 years ago, she wanted her designs to contribute to a better world, not put more 'crap' on it.

WWW.ALLTHINGSWELIKE.COM

SOCIAL ECO-DESIGN

'Caring for the environment is as important for us as caring for the people behind our products. For the production of our collections we collaborate with local craftsmen and social workplaces, to give back to society. They are so proud to deliver you the best quality while making sure our designs do contribute to a better world.'

Real products by real people!

Van Gogh Museum

Eco-jewelry collection from recycled plastics

The Van Gogh Museum asked me to make a sustainable collection from recycled plastics, inspired by the famous Sunflowers and Almond blossoms paintings. Inspired by the expressive colors and impressionistic shapes of Vincent Van Gogh, the collection is a playful tribute to his work. The work of Van Gogh is such a big inspiration, no less than 22 designs made it to the selection for the museumstore.

Van Gogh Museum Porcelain jewelry collection

Handmade porcelain jewelry for the Van Gogh Museum, inspired by the famous *Irises* painting of Vincent Van Gogh. The collection is a playful tribute to his work.

The porcelain flowers are handmade in 2 colors of blue porcelain and piece by piece handpainted with 24k golden patina. The jewelry is high quality 18k goldplated silver.

Belvedere Museum

Handmade porcelain with 24k gold

This baroque palace and museum in Vienna houses the worlds largest collection of Gustav Klimt paintings. Our handmade porcelain flowers are inspired by the many symbolic flowers in the Klimt paintings and fit well within the beautiful flower gardens of the palace. The porcelain flowers are handmade and piece by piece handpainted with 24k golden patina, which makes them as delicate as the baroque palace itself.

belvedere

Centraal Museum Eco-jewelry collection from recycled plastics

Our collection for the expo is a feministic and body-positive tribute to woman, the womb and female sexuality as a portal for birth and life. Good Mom/Bad Mom, unraveling the Mother Myth. The expo deconstructs the myths surrounding motherhood, highlighting themes such as the desire for children, loss, roles beyond traditional biological motherhood, emancipation, and self-determination.

Rijksmuseum van Oudheden

Eco-jewelry collection from recycled plastics

Rijksmuseum van Oudheden Leiden has one of the largest ancient Egypt collections in the world, including two temples. I loved exploring and designing with the ancient symbols, patterns and colors, from ancient Egypt and the Roman and Greek empire. You can find the collection at Rijksmuseum van Oudheden museumshop, ofcourse sustainable made from recycled plastics.

Musée Matisse Nice

Eco-jewelry collection from recycled plastics

Musée Matisse collection for Arteum. The colors and shapes are inspired by the Matisse cut-outs. The custom packaging is inspired by the colors of Matisse with the title of the painting 'La Perruche et la Sirene', where the designs are inspired by, on the packaging. The jewelry is made from recycled plastics.

PeacePalace

Eco-brass jewelry collection

The Peace Palace is the worldwide icon of 'Peace through Law' and houses the United Nations International Court of Justice.

The ideal of peace is reflected in every detail in the iconic building with ancient symbols of peace and law, like the dove and the sun. On the jewelry packaging you can find the pictures of the details in the building the design is inspired by. The jewelry is made from eco-brass pendants with 18k goldplated jewelry.

Botanical Bestsellers

Made from eco-brass: environmentally friendly produced without any harmful substances. Necklaces are high quality with 18k gold plating. Durable jewelry that last a lifetime.

Custom options: We love to explore your botanical garden for custom species!

Available in silver and gold. [View the full collection in our wholesale webshop](#)

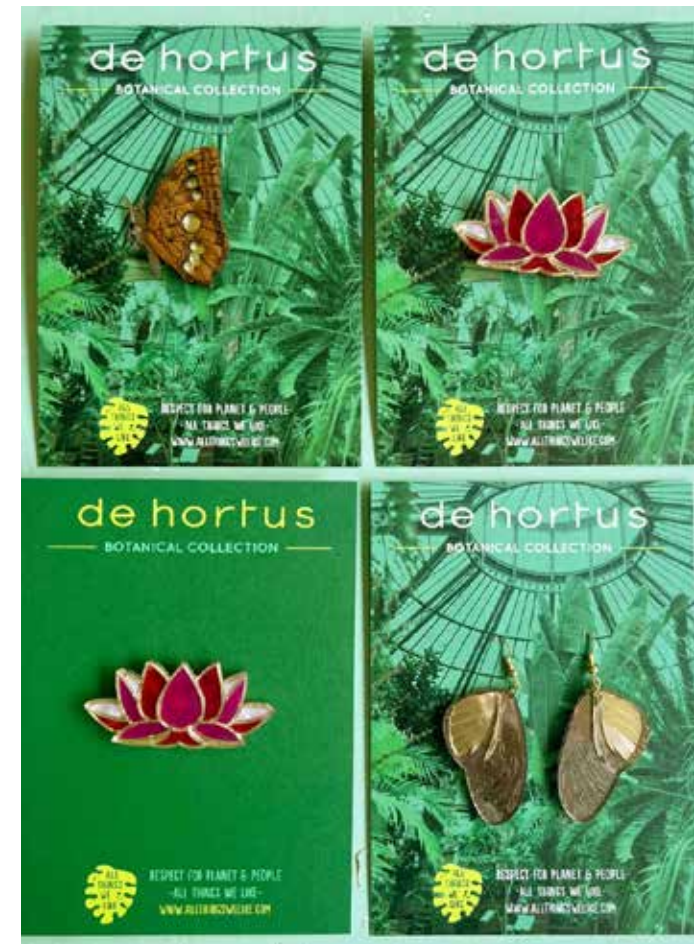

UMU University Museum & Hortus Utrecht

Ginkgo tree wastewood

Super sustainable: using the waste wood from the Hortus Botanica for a unique eco-jewelry collection.

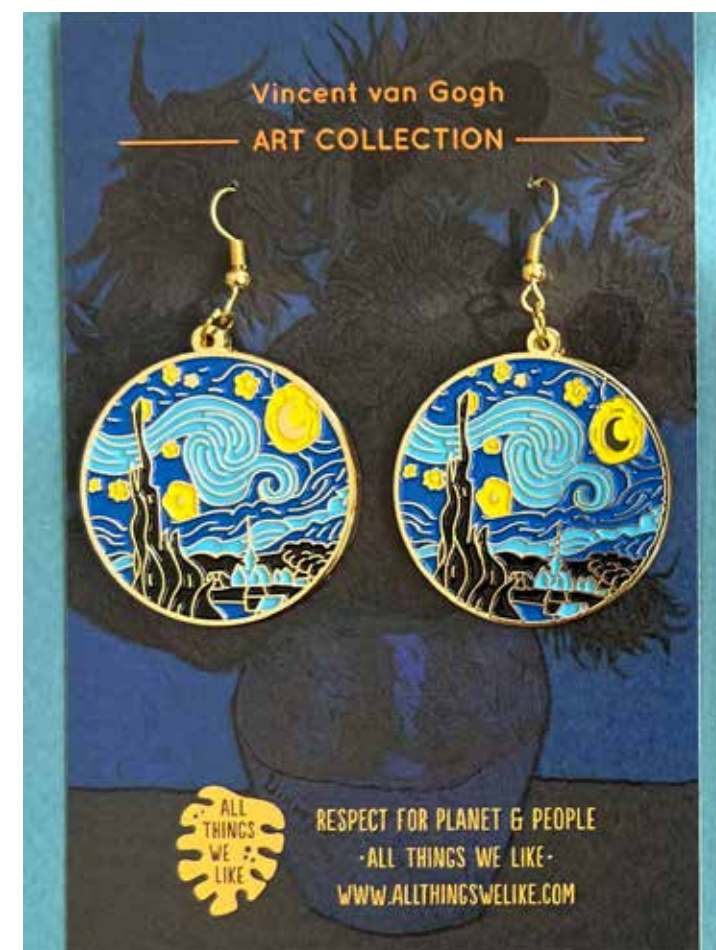

The Hortus Utrecht houses the oldest Ginkgo Biloba tree in Europe. We processed the wastewood and lasercut it to make it from trash into treasure. UMU asked us to get inspired by their Hortus and scientific glass Blaschka models. We crafted all inspiration into an educational eco collection. The eco-jewelry collection and custom packaging educates the visitors about the museums collection, while offering to remember it by taking their favorite pieces with them in the form of a inspiring piece of jewelry.

Hortus Amsterdam

A dream project with endless inspiration in the botanical gardens, we've been exploring the amazing greenhouses at the Hortus botanicus Amsterdam for inspiration. We designed some of their special plants and butterflies into eco-jewelry and custom planthangers. Our custom packaging with photos of their greenhouse really enhances the designs. Our eco-jewelry is made with respect for our wonderful planet, made from recycled plastics and oakwood, handmade in our studio.

Hortus Botanicus Amsterdam - anno 1638

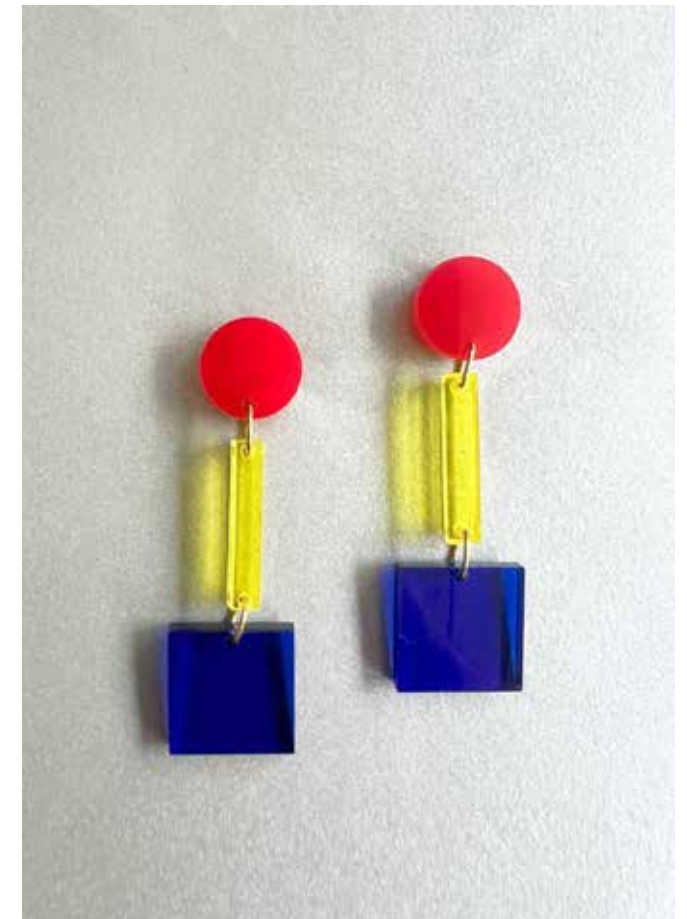

Vincent van Gogh

The Mudec museum in Milan Italy, asked us to design a jewelry collection for their exhibition of Vincent van Gogh paintings. The exhibition is in collaboration with the Kröller-Müller Museum in the Netherlands, with from their amazing collection approximately 40 Van Gogh's paintings and drawings. Our designs are a creative, modern interpretation of his masterpieces, made in 3D enameled metal with goldplated necklaces and earrings.

Custom Collections

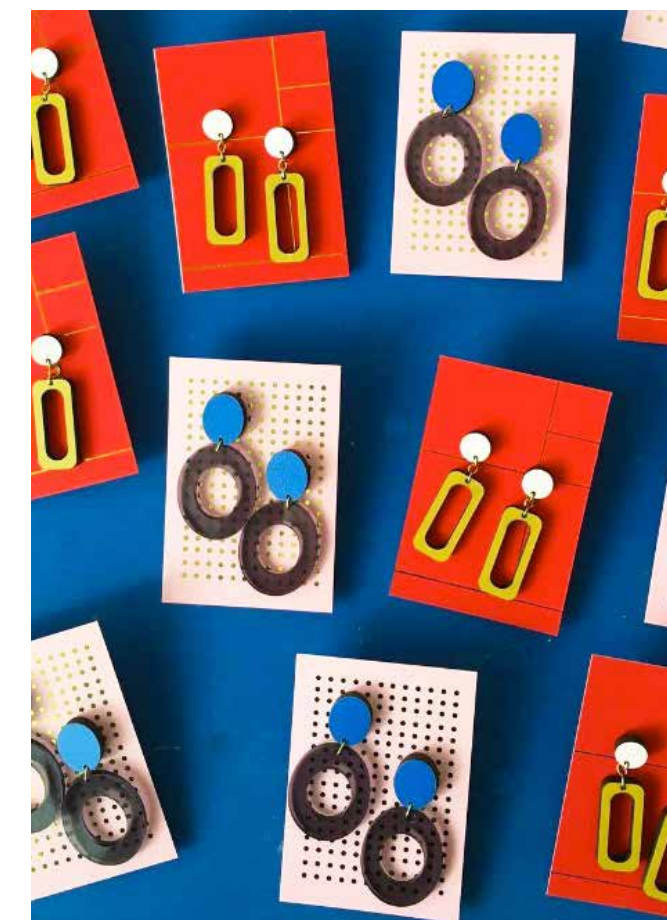

This Vincent collection is in stock and we offer the opportunity to produce customs collections.

Rietveld Collection

Wearable art. De Stijl and Bauhaus modernist strongly believed art should be available to the general public, like we do with our wearable art. We played with the basic shapes of the architecture and art, a modular collection.. We also made a special Rietveld edition of our planhangers, miss Schröder believed outside and inside should overflow into eachother. With the planhangers in primary colors you can highlight your plant and hand them in front of the windows to catch more light and green up your home. Made from recycled plastics, handmade in our studio.

Matisse inspired

Matisse inspired collection for the Bauhaus Dessau Museum, Kunsthalle München, Museum Barberini and Bozar Museum. Made from recycled wood and acrylic glass.

Custom Collections

Next to this collection available, we offer the opportunity to produce custom collections, made from recycled acrylic glass, hand-made porcelain and or wood.

Bozar

Naturalis Biodiversitycenter

Triceratopses for Naturalis museum!
We 3D printed and lasercut no less than 300 triceratopses for the Triceratops exhibition at Naturalis. Triceratops eco-jewelry earrings, necklaces, keyrings and rings. An amazing exhibition with a herd of real, dug out triceratops skeletons found in Wyoming, USA. I'm especially excited about the big pink Triceratops display we made for the museum store.

Fun fact: our 3D prints are biodegradable, made from elephants grass. Also the paper of the custom packaging we made is from elephants grass.

Sterling silver earrings and aluminum brooches for the Kim Lim expo at National Gallery Singapore, for the Gallery Store by Abry.

3D-printed zeppelins and lasercut build-your-own zeppelin kits.

Zeppelin
Museum

Recycled plastic & oakwood jewelry.

PASSCHENDAELE
MUSEUM 1917

Verkade cookies for Zaans Museum

Zaans Museum houses the legacy of Verkade, the famous cookie factory. We designed the iconic, original cookies into a collection: the Cafe Noir cookies, Maria Biscuits, strawberry and vanilla cookies.

In the custom designed cookie shaped display you can find our cookie pins, earrings and rings. All made from recycled plastics, handmade in our studio. A very jummy collection!

Picasso Collection

Picasso inspired collection made with laser-cutting from recycled, sustainable plastics. Our designs are a creative, modern interpretation of his masterpieces, imagine what Picasso would make himself if he would have had our techniques like lasercutting and 3D-printing... we can only imagine! Designed for the Mudec Museum Milan, temporry Picasso exhibition.

Custom Collections

This Picasso collection is in stock and we offer the opportunity to produce customs collections.

Custom Art Frames

Our interchangeable art frames are miniature 3D brass frames with an actual mini eco-cotton canvas print.

This frames in our collection are on stock and available to be customised with your museum's own masterpieces, as pins, earring or necklaces. The frames can also be made custom, for example oval frames. This frame is the actual miniature of a Van Gogh painting frame we in 3D rendered and had in reproduced in golden brass. So even the actual frames of a museum's paintings can be produced into your custom ones. The canvas is an actual miniature canvas made from eco-cotton.

Dalí, 'The Persistence of Memory'

Our Dalí jewelry with the distorted watch is a wink to his famous painting 'The persistence of time', one of the most recognizable works of Surrealism.

Custom options

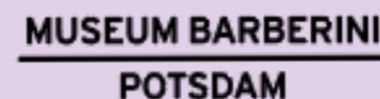

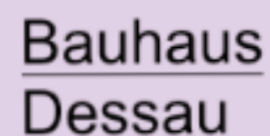

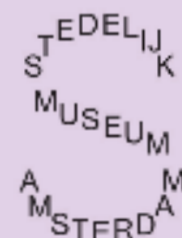

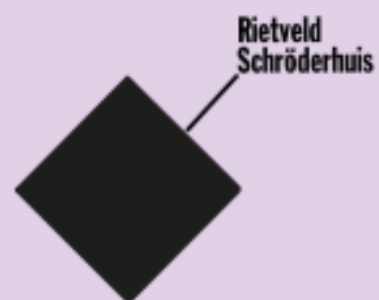

We added necklaces and earrings to our Dalí pins collection for the Mudec museum in Milan Italy for their exhibition of Dalí paintings, in collaboration with the Boijmans Van Beuningen Museum. Made in 3D enameled metal with gold-plated necklaces and earrings.

Enamel pins & necklaces with a contemporary wink to famous arthistory classics

CUSTOM: we'll be glad to make a design of any other art classics!

MUSEA WE PROUDLY DESIGNED FOR:

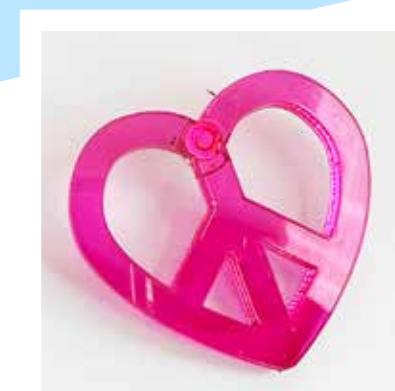

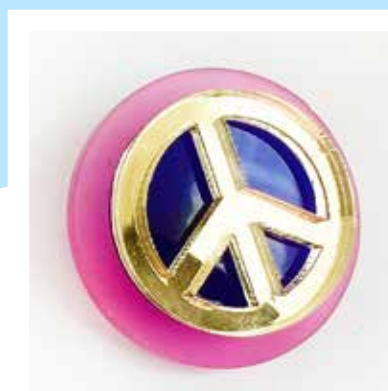

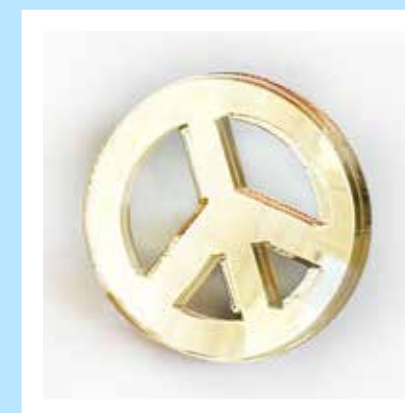

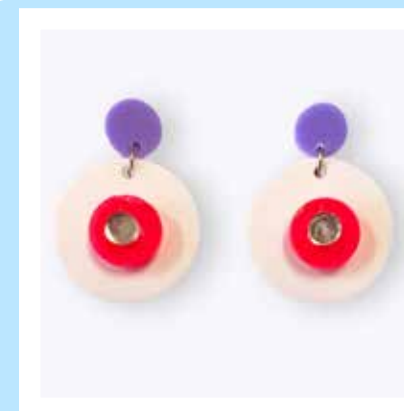

PROTEST PINS

MAKE ART NOT WAR

Peace, climate change, female empowerment and human rights; the need for peace is bigger than ever. It is time to protest, make yourself and your voice seen and heard, what do you stand for? Our protest pins are a homage to the '70's hippie protest buttons, when people were using buttons as a way to show their disdain and their support. Little campaign statements, fashion is a way to self-express and make a statement. Our collection of ecofriendly pins is made from re-use plastic and wood. This collection was supporting Ukraine with the profits, and now the Palestine-Israel conflict.

Porcelain Jewelry

Our porcelain jewelry is handcrafted in our own atelier, and when the collection is ready for production, in collaboration with our traditional, Portuguese ceramic craftsmen. Porcelain production utilizes natural resources efficiently. It is made from abundant, natural materials like clay and can be sourced responsibly and have a relatively low environmental impact.

Custom Collections: Next to our collection, we offer the opportunity for customs collections.

CUSTOM DESIGN & COLLABS

We are happy to collaborate on creating special editions and custom orders, like this special edition we did for the RijksMuseum Twenthe. We translated one of the museum's masterpieces, the painting 'Panneau decoratif' by Odilon Redon into a custom designed enamel pin. The flower is a detail of the fabric of the kimono in the painting. We even reproduced the fabric of the kimono to have is made into facemasks.

TWENTHE**

**SUPPORT ART
& STAY SAFE**
for Rijksmuseum Twenthe
www.allthingswelike.com

Rijksmuseum Twenthe & refugee tailors

For the Rijksmuseum Twenthe we designed a collection inspired by their masterpieces of Odilon Redon and Claude Monet.

When facemasks became obliged in the museum, we proposed to museum to reproduce their masterpieces to unique facemasks. We made 350 facemasks for all employees and volunteers, all unique, with a real size piece of one of the masterpieces in the museum. Therefore we printed 50 of the museum's artworks on eco-cotton and had it proudly sown by our workshop of refugee tailors. Very proudly they've sown over 650 facemasks for us. A very positive, inspirational project for all in pandemic times!

Natural History

Made from recycled plastics, wood, eco-brass or procelain: the sustainable way to create souvenirs from our natural history! Take back a piece of history from the museum with our educational, custom packaging.

As nature is our biggest inspiration, our design is environmentally friendly produced.

Available in the design above or as a custom collection.

Fantastic Funghi

An eco-collection celebrating the magical world of funghi and their power to heal, sustain and contribute to the regeneration of life on earth.

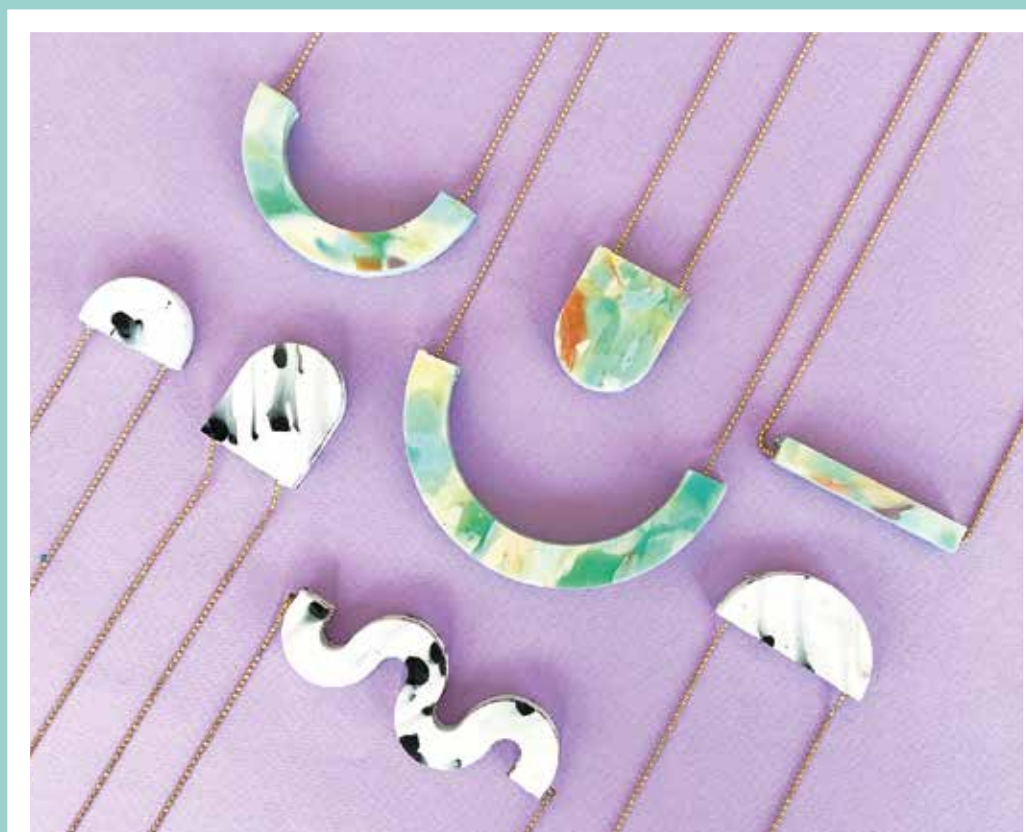

Oakwood and recycled plastic pendants & pins, goldplated necklaces.

As nature is our biggest inspiration, our design is environmentally friendly produced.

Our new collection is **CRAP**.
Made from wasted plastic &
old refridgerators.

Recycled plastic jewelry & design

Old refrigerators, dirtbags and factory moulds, our new collection is just crap! What's the value of waste? We turn it into something beautiful and valuable again. We teamed up with a small innovative Dutch factory that transforms large volumes of plastic waste into a sustainable material again. With this material we use experimental techniques to turn it into our planhangers, small furniture and jewelry pieces.

Custom options are also available.

[> View the full collection in our wholesale webshop](#)

Upcycled plastic jewelry

Old refrigerators, dirtbags and factory moulds, we turn wasted plastic into something beautiful and valuable again. We teamed up with a small innovative Dutch factory that transforms large volumes of plastic waste into a sustainable material again.

Custom options are available in any shape of color, for example inspired by an artist.

[> View the full collection in our wholesale webshop](#)

Art Deco jewelry

Inspired by Art Deco, made with innovative sustainable materials.

We laser-cut our designs from recycled plastics for a contemporary twist.

Custom options are available in any shape or color, for example inspired by an artist.

[View the full collection in our wholesale webshop](#)

3d printed jewelry

Our 3d printed jewelry can be printed in biodegradable materials, very innovative and sustainable. please contact us for more info in this technique. **Custom options:** colors and 3d shapes.

Custom planthangers for Stedelijk Museum Amsterdam

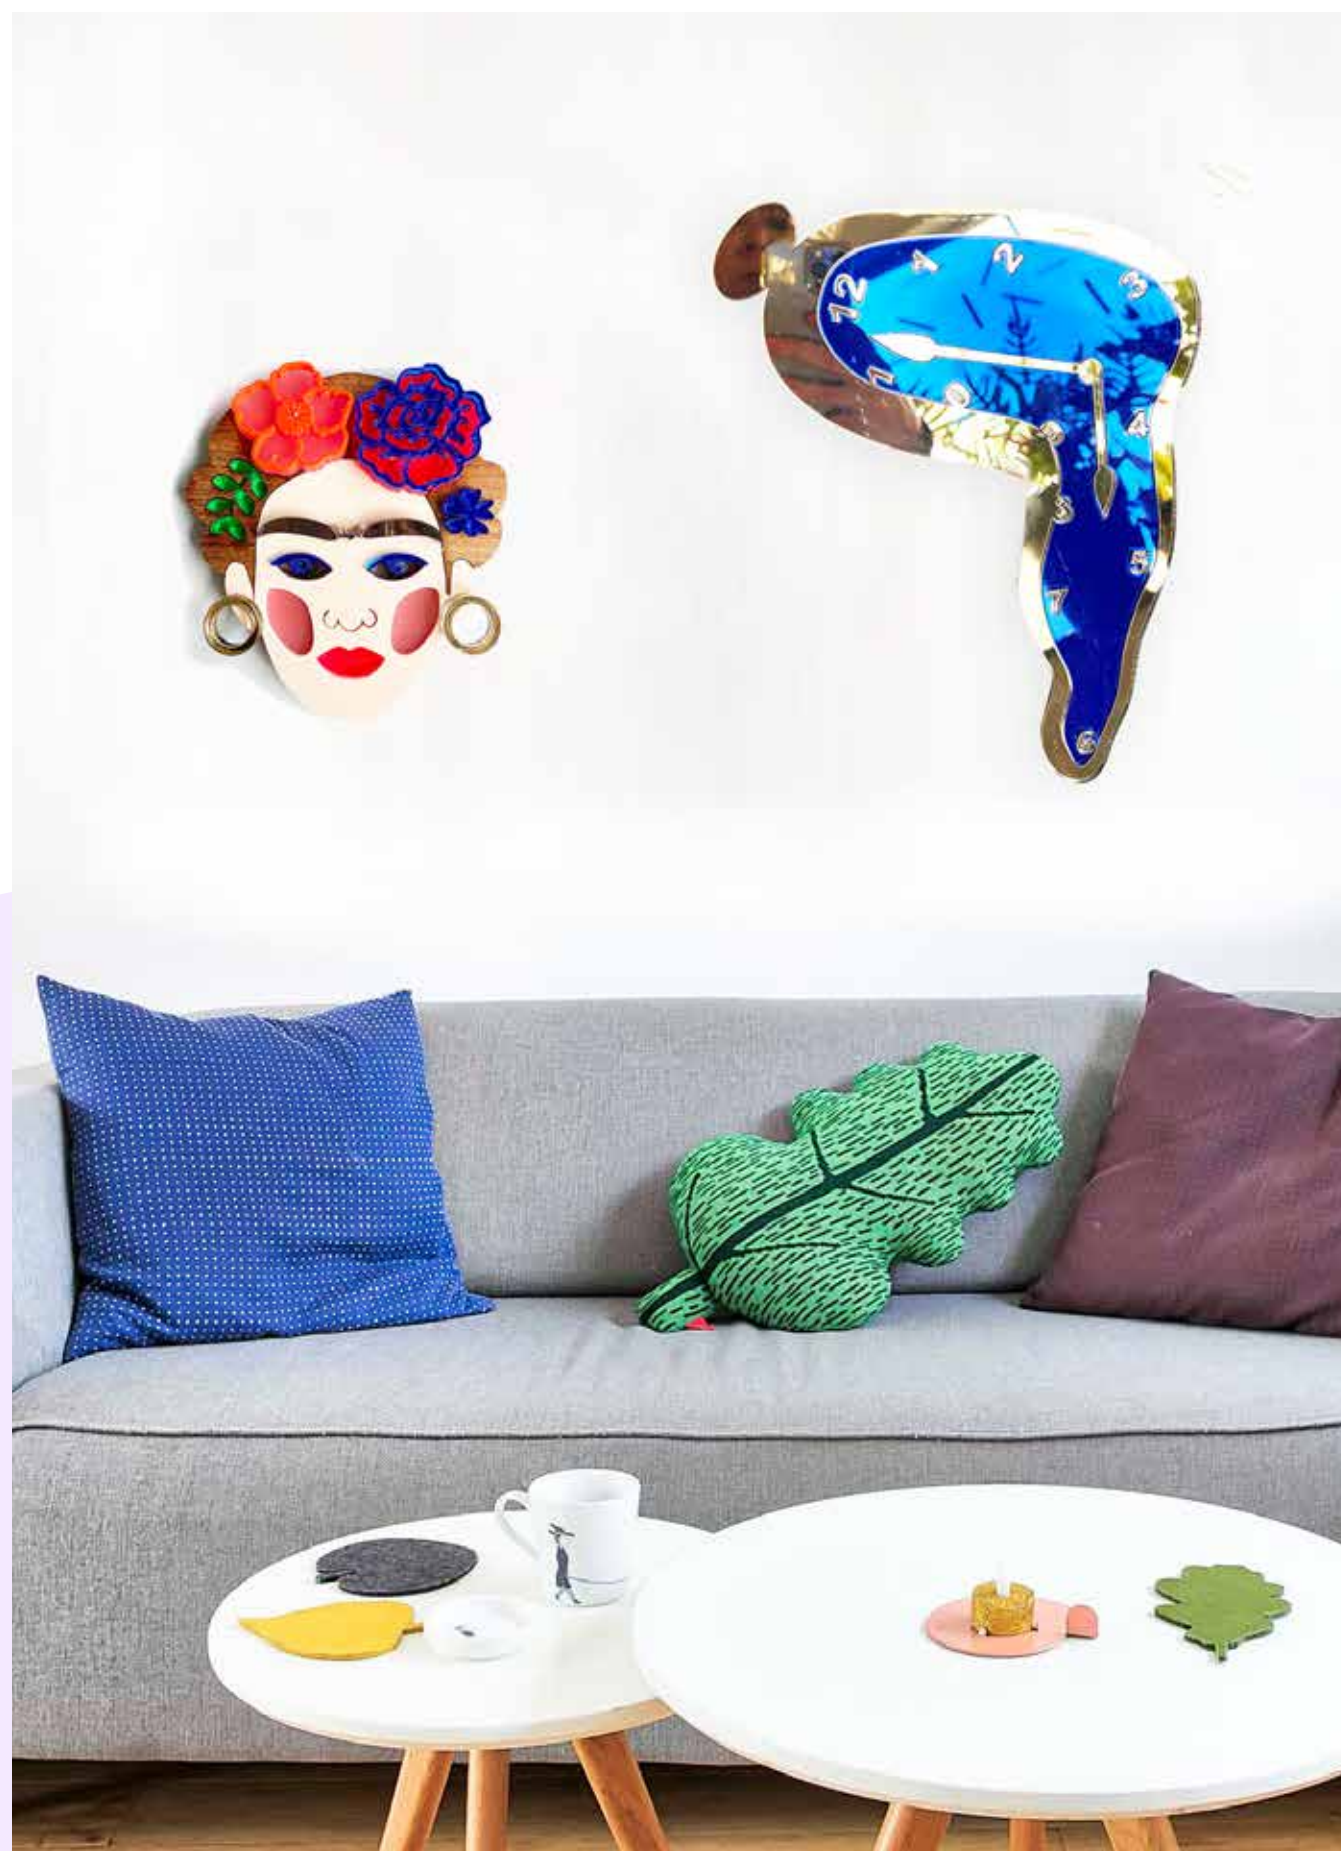

RECYCLED PLASTIC PLANTHANGERS

Ecofriendly collection of recycled plastic planthangers. We transformed this great recycled alternative for plastic into this colorful, translucent new eco planthangers. We can customise colors, shapes within a range of recycled acrylic glass and wood.

[View the full collection in our wholesale webshop](#)

Wall-art & mirrors

A modern interpretation with lasercutting and innovative recycled plastic to give a new look art famous art classics.. This wallart big piece is a real eyeatcher in an interior.

Made from recycled plastic, recycled mirrored acrylic glass and wood.

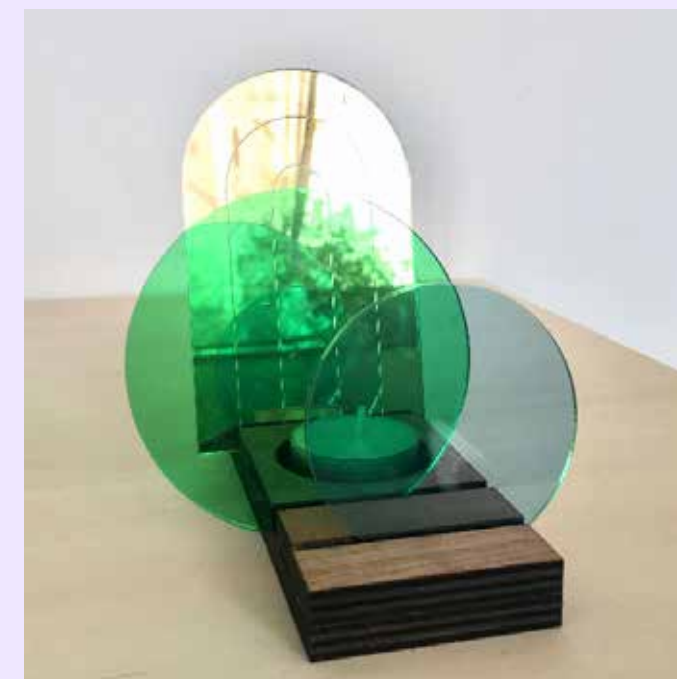

Custom options: In our collection we have the Girl with a Pearl Earring, Frida Kahlo, Mondrian and Dalí's, 'The Persistence of Memory' but we love to include your own favorite.

Socialdesign Porcelain

The glazed porcelain shows explosions of colour, chemical reactions sweet as candy! All a little bit unique as it is all made by hand, proudly made with a lot of love and dedication in our social workplace. The beauty of the design is also in how it supplies people at the social workplace with a meaningful job. For over 10 years they've been handmaking and baking our ceramics. Now we added a second social workplace handpooring our porcelain. **Custom options: we can design them with any print and color.**

[View the full collection in our wholesale webshop](#)

ECLIPSE CANDLEHOLDERS

Who do you support with our design?

Caring for the environment is as important for us as caring for the people behind our products. For the production of our collections we collaborate with local craftsmen and social workplaces, to give back to society. They are so proud to deliver you the best quality while making sure our designs do contribute to a better world. Real products by real people!

The social workplace where people with challenges make our ceramics

The traditional Portuguese craftsmen handmaking our porcelain jewelry

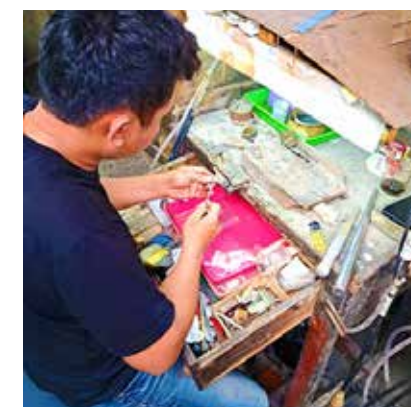

The social workplace that helps us with making jewelry and packaging

The woodworkshop social workplace with people with physical & mental challenges

The refugee tailors in our sewing workshop

The Balinese jewelers workshop that craftly makes our goldplated & silver jewelry.

Custom Collections

How do we work with custom collections?

When a museum has interest in a custom collection we always try to visit the museum for a meeting. Otherwise we'll schedule a call so you can tell us if you have any ideas yet, any upcoming exhibitions on an artist or theme. We always have a lot of inspiration so just an artist or theme is enough for us to get inspired and give you some suggestions for designs!

There's no need to have specific ideas yet on what you want, it's our special skill to be inspired and come up with creative ideas. If you have a specific idea of what you want, we'll be happy to work with that. We'll send you sketches and ideas first, which we can discuss and see if you have any feedback. Then we'll make some samples for you to review, which we'll adjust and produce into the final designs. You can choose on any of our materials like recycled plastics, wood, porcelain, eco-brass, silver or gold. We usually need 3-4 weeks for the design and production. Since we work with our big network of local craftsmen and social workplaces in our own studio, prices for custom collections are very affordable and can start from even 5 pieces per design. Please see our pricelist for specific prices. Contact us for more info or a quick brainstorm!
