Sheyn.
3D printed in Vienna.

sheyn.at

We are

a Vienna-based design studio that creates fully digital 3D printed designs for home. The word **Sheyn**, itself, means beautiful in Yiddish. It was created through cultural exchange and a longing for beauty — like all of our designs.

Why Sheyn?

- Designed by architects and 3D printed in our studio in Vienna.
- Made on-demand from sustainable and recyclable raw material (PLA).
- Zero waste production, individually made for you.
- Minimalism without being boring.

Vase + Glass

Each vase contains a transparent glass included in the price. The glass is removable and dishwasher safe. This way the vase always remains clean on the inside and presents itself even more elegantly.

The Box

The vase is delivered in a box made of recycled cardboard which is filled with enough paper, so that nothing goes wrong during transport. On it is a sticker of **Sheyn** — sustainable and classy.

About Us

Sheyn has a story — it's told in this little booklet.
