Salud®
foodgroup europe

www.saludfoodgroup.eu

WHO WE ARE

Salud Foodgroup Europe B.V. (Salud) was established in 1995 in the Netherlands. From our headquarter in the Netherlands, we serve customers across Europe, the Middle East, Asia, Latin America, and Oceania.

We specialize in the production and distribution of frozen avocado products, appetizers, tortillas, and frozen fruit and vegetables. These product categories are symbolized by the colors green, orange, red, and yellow in our logo. The name 'Salud' is derived from the Spanish expression for good health, reflecting our commitment to promoting wellness through our products.

Avocados have always been our primary focus. We are passionate about inspiring the use of avocados in a variety of dishes, as they offer significant health benefits and versatility in menus. By providing frozen avocado products ripened to perfection, we ensure consistent quality Hass avocados which are available year-round for foodservice, retail, and industrial clients.

Our innovation extends beyond traditional uses of avocados, incorporating them into other product categories like avocado burgers and avocado appetizers. We are dedicated to delivering the highest quality appetizers, which is why our R&D team spends extensive time in our test kitchen. Here we continuously create, optimize, innovate and develop custom products tailored to your needs.

We invite you to explore our product list and get inspired by food solutions and innovations.

HPP: High Pressure Pasteurization

High Pressure Pasteurization is a method of food processing where the product is subjected to elevated pressure. The process inhibits the growth of bacteria and extends shelf life. Using this method gives our products the benefit of a (thermal) pasteurized product without loss of quality or flavour and without the use of additives or preservatives. The method also eliminates the risk of food born pathogens such as E. coli, Salmonella and Listeria. This makes Salud HPP guacamole a super fresh product with long shelf life.

SHELF LIFE

EXP. DATE

45 days

- Long shelf life (closed packaging in a refrigerator (7°C) for up to 45 days)
- Colour and flavour of the product will not change
- Texture and shape of the product remains intact
- Vitamins and enzymes are preserved without the use of artificial additives or preservatives
