**WHO
WE ARE**

WE EMPOWER YOU TO ACT ON YOUR ENVIRONMENTAL AMBITIONS

We meet you **wherever you are on your decarbonization journey** so you can deliver the results you need to make an impact that matters.

Thousands of customers worldwide rely on our extensive global environmental regulation, market, standard, and product expertise to deliver impactful results. We simplify and streamline your journey to net zero through solution discovery, optimized procurement strategies, environmental project development, and cutting-edge digital decarbonization services. Through our one-stop shop capacity, we help you understand and meet the increasing climate demands of customers, supply chains, investors, and regulations.

As organizations like yours recognize the increasing importance of corporate responsibility and transparency, embarking on an impactful sustainability journey becomes crucial for both environmental stewardship and financial performance. This is where we come in — guiding you through every step of your climate journey.

Headquartered in Amsterdam, we operate out of seven offices spanning Europe, North America, and Asia.

Our **500+** global team
of client-obsessed experts
working in **9 offices**

Have helped **9,000+** customers
achieve their environmental goals.

Our impact by the numbers

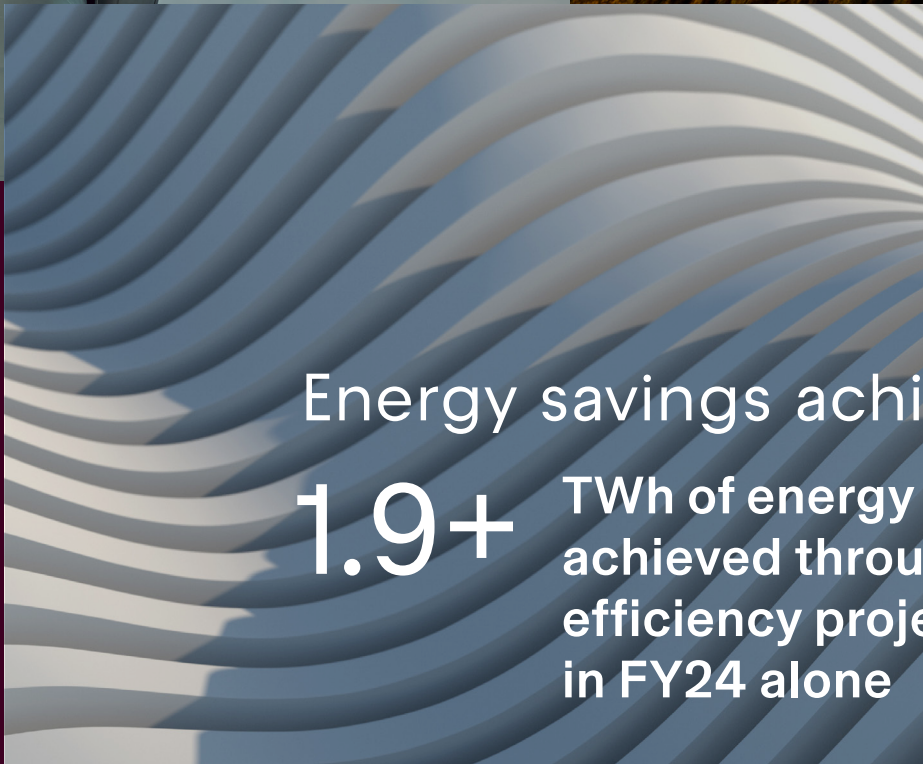

Empowering our clients with:

Renewable
energy sourced
169+ TWh of renewable
electricity sold in FY24

Energy savings achieved
1.9+ TWh of energy savings
achieved through energy
efficiency project development
in FY24 alone

Emissions reduced
8 Million+
tCO₂e emissions abatement
solutions sold in FY24

Support for
1,200+ Environmental
projects worldwide

With our
200+ Products for customers
to decarbonize

02.

**WHAT
WE DO**

We support your **sustainability journey** with a **comprehensive suite of solutions**

CLIMATE PROJECT DEVELOPMENT

Our comprehensive solutions offer end-to-end support, from project inception to investment opportunities, feasibility analysis, and financial support for scaling up.

AGRICULTURAL PROJECT DEVELOPMENT

Our solutions empower you to make a transparent and meaningful impact at the farm level and across your complex supply chain, supporting responsible and sustainable practices while solidifying your position as ESG leaders.

RENEWABLE ENERGY PROJECT DEVELOPMENT

We provide financial and administrative support to develop and expand renewable energy facilities, as well as providing access to our vast buyers' network.

ENERGY EFFICIENCY PROJECT DEVELOPMENT

We help public and private organizations monetize their energy savings measures, finance the upgrades of existing building infrastructure, and reduce their energy consumption.

BIOMETHANE CREATION SUPPORT

Tap into biogas and biomethane expertise and project funding to monetize your production, connecting you with buyers seeking sustainable alternatives to conventional natural gas.

We provide essential products to **drive your sustainability to success**

We support your sustainability journey with a comprehensive suite of solutions

WHAT WE DO
CORPORATE BROCHURE

RENEWABLE ENERGY

Energy attribute certificates

- Electricity
- Biomethane / Renewable Natural Gas
- Hydrogen
- Reduced Emission Natural Gas

Energy purchase agreements

- Power Purchase Agreements (PPA)
- Gas Purchase Agreements (GPA)

CARBON EMISSIONS

Carbon Credits

- Carbon reduction credits
- Carbon removal credits

Emission Allowances

- Emission Allowances such as EUAs

BIOFUELS

Biotickets

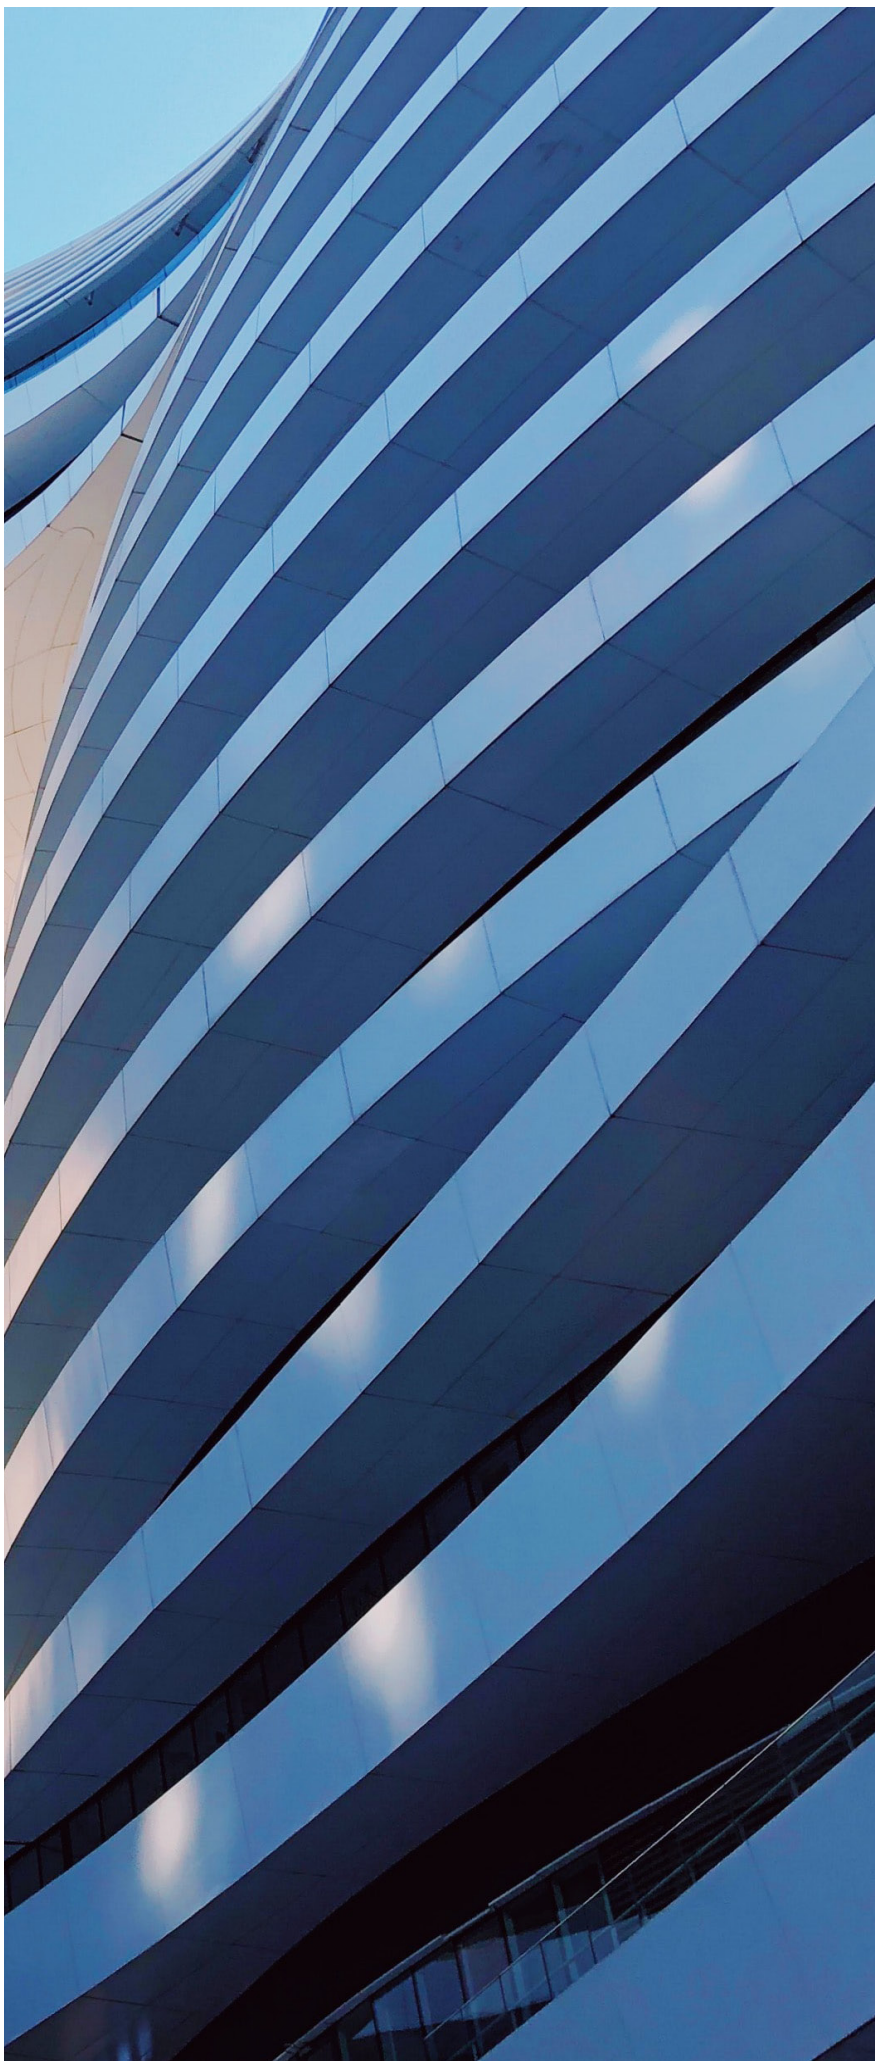

Renewable fuels

- Bio-LNG

ENERGY EFFICIENCY

Energy efficiency certificates

RESPONSIBLE AGRICULTURE

Responsible sourcing of agricultural products

Our Digital Decarbonization Platform: Setting new standards

Imagine having all your emissions data, renewable energy procurement, and supplier engagement tools seamlessly integrated into one powerful platform.

Our Digital Decarbonization Platform simplifies the way you manage and reduce your carbon footprint, making even complex Scope 3 emissions and supply chain decarbonization easier than ever.

We've supported 650+ companies to calculate their carbon emissions

-  Global renewable energy procurement at the click of a button
-  Integrated carbon accounting tool to measure and track your emissions
-  Simplify EAC settlements and gain a clear overview of your renewable electricity inventory
-  Accurate, actionable Scope 3 emissions data
-  Centralized data for complete visibility and control of your supply chain like never before
-  Simplified supplier engagement

We continue to build trust with our clients

A diverse range of companies, from small businesses to the Fortune 500, rely on us to provide comprehensive decarbonization solutions at every stage of their sustainability journey.

Serving clients in over
75 countries

Chosen by **19 of the top 20**
Fortune 500 companies

Working with more than
90% of the auto manufac-
turers in Europe

Products used by over **1,000**
of top retail providers globally

CLIENT SUCCESS STORIES

Projects we developed that
reduced emissions and our
clients' energy consumption.

WHAT WE DO

CORPORATE BROCHURE

INDEX ||| CHAPTER

ITMO CARBON CREDITS & CLIMATE PROJECT DEVELOPMENT

Supporting Ghana’s socioeconomic development & climate impact targets through the ‘**Transformative Cookstove Activity in Rural Ghana**’ project

WHAT WE DID:

Supported Ghana’s socioeconomic development and climate impact targets through the ‘Transformative Cookstove Activity in Rural Ghana’ project – a pioneering ITMO project certified under Article 6.2 of the Paris Agreement.

WHO WE DID IT FOR:

Approximately 968,000 Ghanaian citizens, particularly smallholder farmers in rural and peri-urban areas.

HOW WE DID IT:

In partnership with Envirofit and the KliK Foundation, ACT Group facilitated the distribution of 180,000 locally produced Improved Cookstoves (ICS). These cookstoves are designed to reduce smoke and toxic emissions by up to 80%, enhancing household air quality and reducing firewood consumption.

THE IMPACT:

- Reduction of ~2.25 million tCO₂e annually over eight years, totalling an estimated 18 million tCO₂e over the project’s lifetime
- Creation of nearly 300 jobs across the value chain, fostering economic growth and improving livelihoods
- Significant health improvements for ~968,000 locals due to decreased indoor air pollution
- Contribution to:

WHAT DID OUR PARTNER HAVE TO SAY?

“From the initial technical meeting through to project validation, our team engaged deeply with all stakeholders to ensure this program not only met but exceeded existing crediting methodologies. This included pioneering multiple monitoring and tracking innovations, establishing it as a best-in-class program.”

— Dr. Daniel Tutu Benefoh, Head of Ghana’s Carbon Market Office.

RENEWABLE ENERGY

Partnering with Sustainable Energy First to **offer renewable electricity and biomethane certificates with diverse sustainability options**

WHAT WE DID:

Provided unbundled renewable energy options so that Sustainable Energy First could provide their clients with greater transparency in sustainability criteria.

WHO WE DID IT FOR:

Clients enlisting the services of our UK consulting partner, Sustainable Energy First.

HOW WE DID IT:

In partnership with Sustainable Energy First, customers seeking sustainability consultancy services on their way to achieving climate goals received expertise and market access to secure renewable electricity and biomethane certificates with the diversified sustainability options.

THE IMPACT:

- Significant cost savings equivalent to more than £20 million in 2024 alone
- Greater transparency for unbundled biomethane and EAC sustainability criteria
- Contribution to:

WHAT DID OUR PARTNER HAVE TO SAY?

“The positive impact Sustainable Energy First has experienced by choosing ACT as our partner in sourcing Renewable Energy Certificates has been incredible. Their unbundled renewable energy options have also provided our clients with greater transparency in sustainability criteria and significant cost savings equivalent to more than £20 million in the last year alone.”

— Yaseen Bahadur, Chief Procurement Officer, Sustainable Energy First.

CLIMATE PROJECT DEVELOPMENT

Providing an integrity-focused investment opportunity to our clients while **supporting a sustainable economy and preserving the Amazon**

WHAT WE DID:

Provide a sustainable investment opportunity while preserving the Amazon ecosystem.

WHO WE DID IT FOR:

Local communities in the Colombian Amazon.

HOW WE DID IT:

Launched the pilot phase of the Amazon Nativa Project, transforming 550 hectares of previously deforested land into sustainable timber and açai berry farms. This initiative is supported by financing from thought-leading partners, promoting sustainable agricultural practices and aiding in the recovery of the local ecosystem.

THE IMPACT:

- Afforestation of 550 ha with 600,000 trees planted
- Estimated removal of 250,000 tons of CO₂e from the atmosphere
- Production of 25,000 tons of sustainable native timber and 15,000 tons of açai berries
- Creation of 40 new jobs for local communities
- Achieved certification from Gold Standard, Rainforest Alliance, and Forest Stewardship Council
- Supported:

WHAT DID OUR PARTNER HAVE TO SAY?

“This is a productive initiative that generates resources that can improve our quality of life and that of all farmers.”

— Victor Sanchez, a local tree nursery employee and project beneficiary.

ENERGY EFFICIENCY PROJECT DEVELOPMENT

Improving Energy Efficiency for St. Louis Hospital in Paris, France

WHAT WE DID:

Improve energy efficiency

WHO WE DID IT FOR:

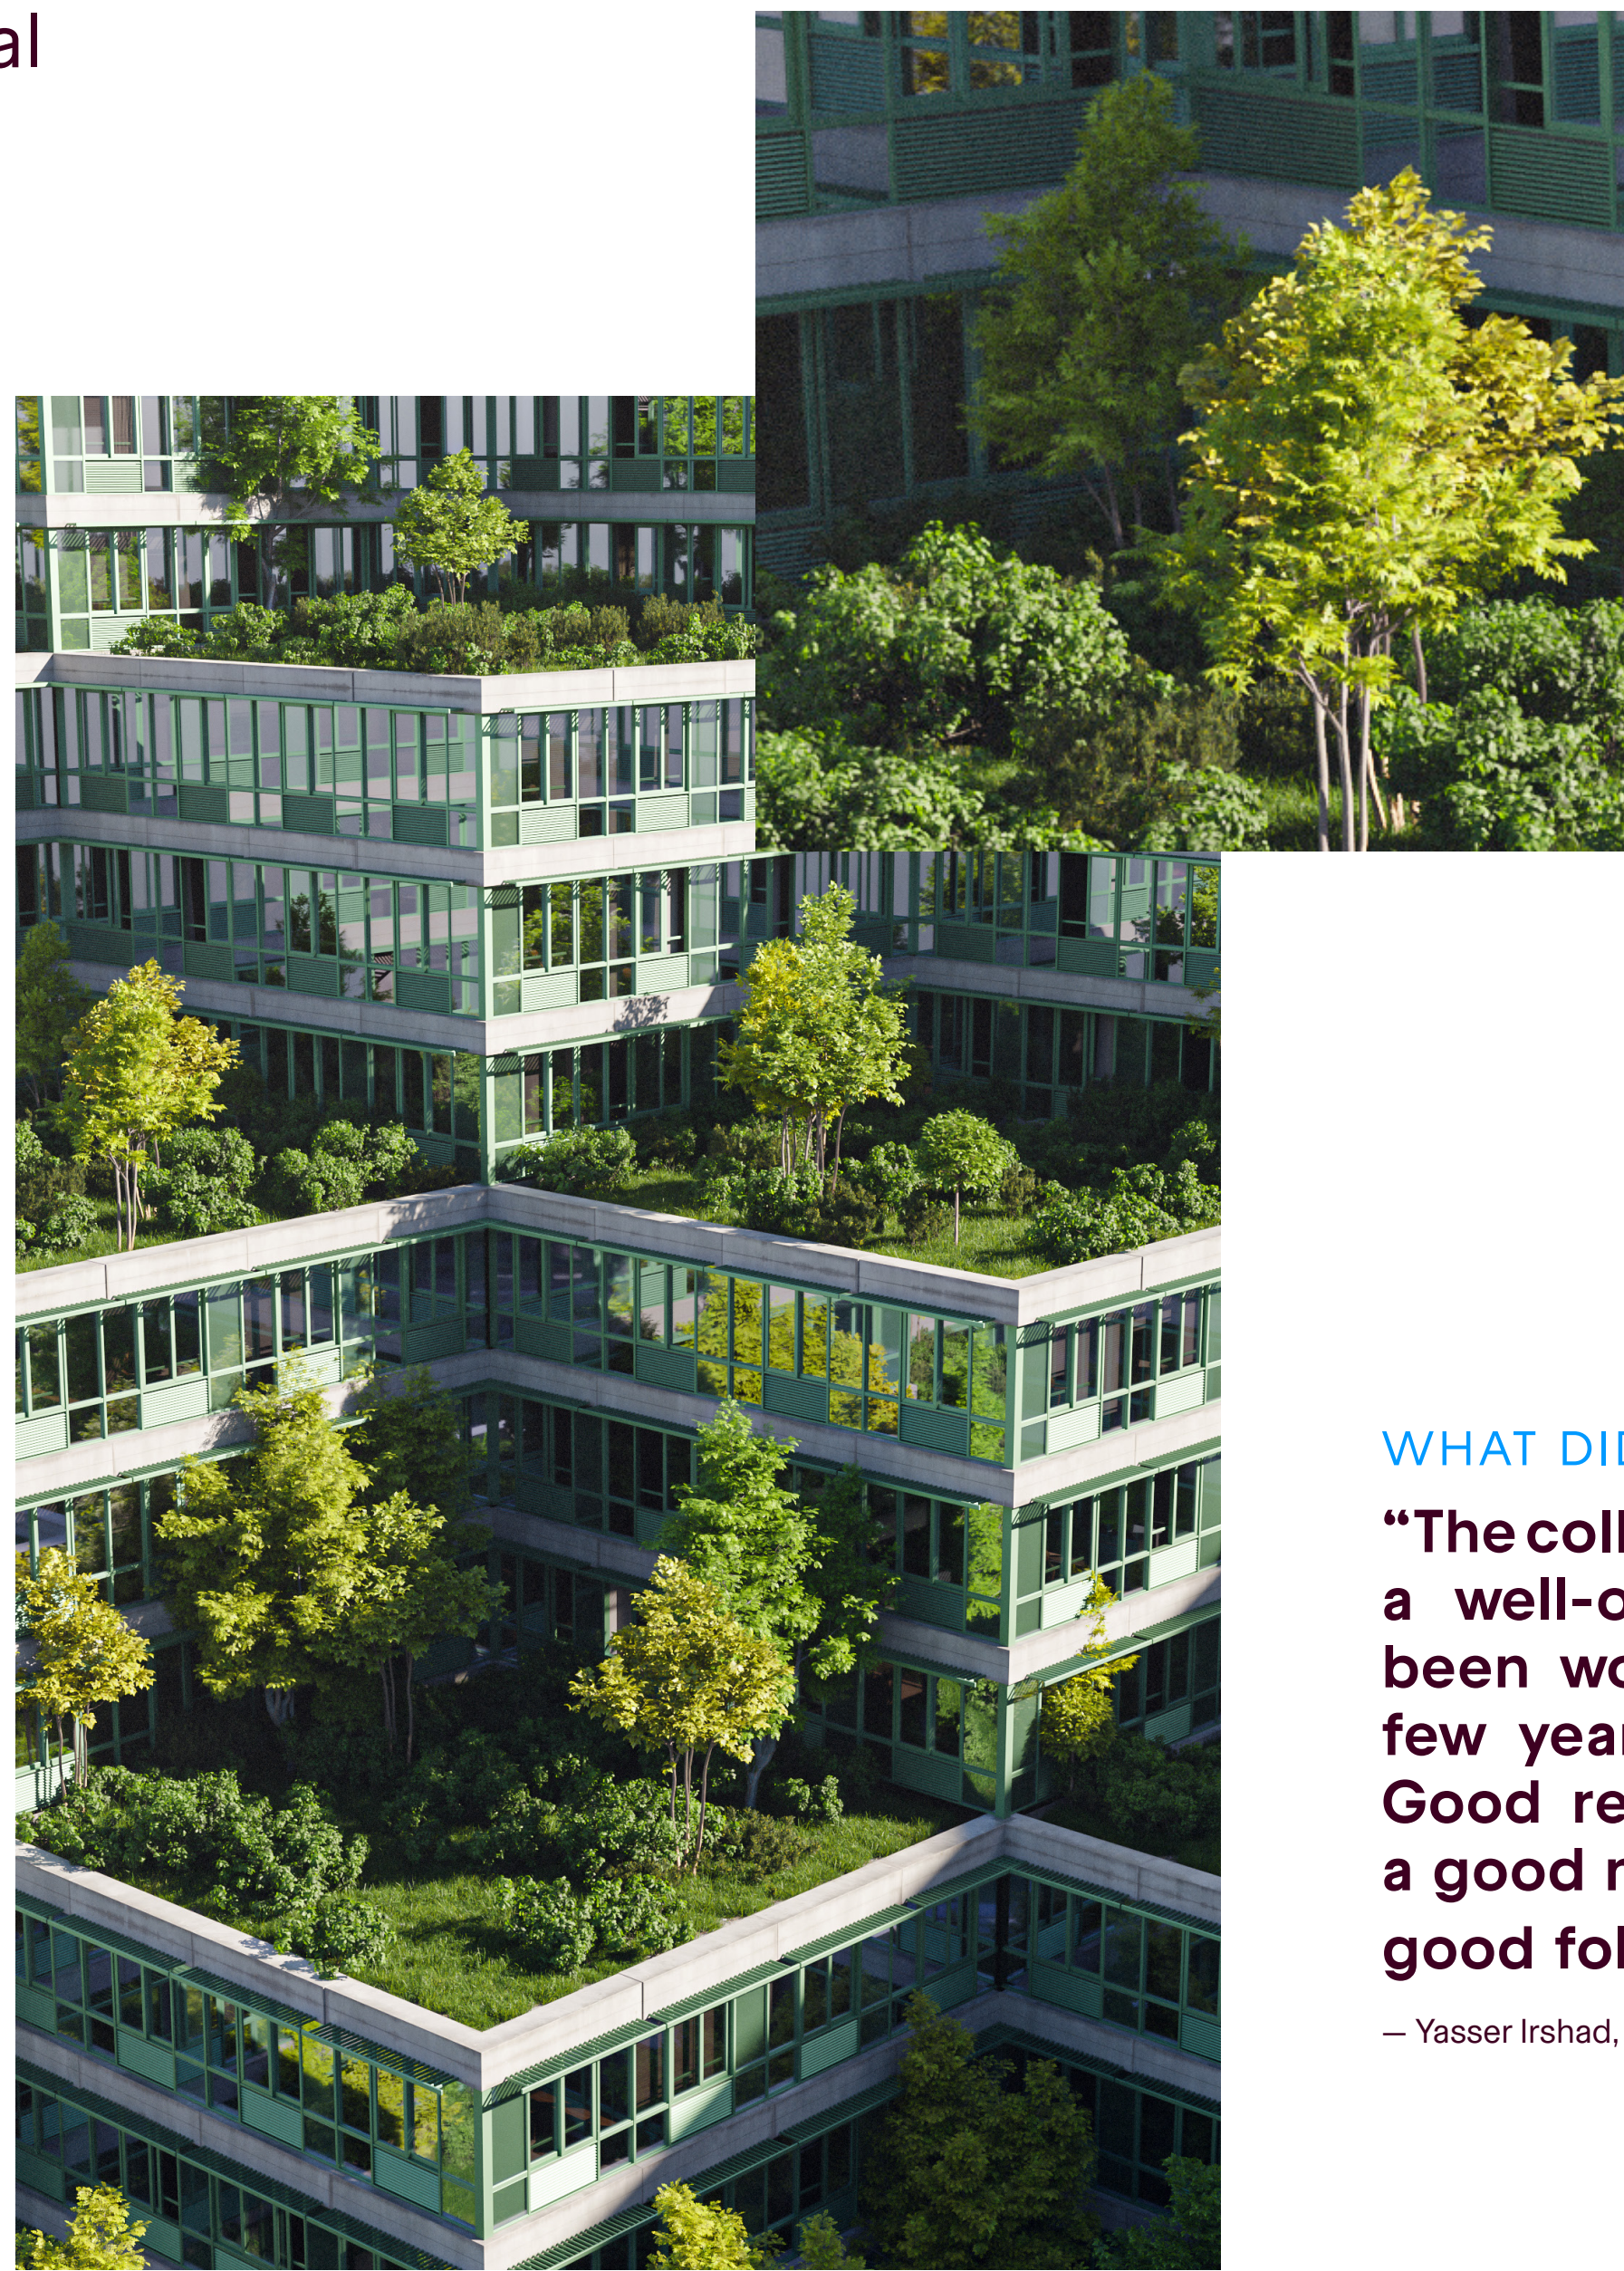

St. Louis Hospital

HOW WE DID IT:

In collaboration with our technical partner Proxiso, we improved the outdated infrastructure of the hospital, focusing on the insulation of parking floors, heating and domestic hot water (DHW) networks over 80,000 sqm of area covered and over 20 km of heating and sanitary hot water networks.

THE IMPACT:

- 13% reduction in GHG emissions
- Energy savings: 200,000 EUR per year – an 8-10% reduction compared to pre-project costs, all project costs subsidized through the sale of the CEE Certificates the project created under France's national system, improved comfort of the hospital's users, professional teams, and occupants
- Supported:

WHAT DID OUR PARTNER HAVE TO SAY?

“The collaboration with ACT has been a well-oiled machine since we’ve been working together for quite a few years. It has gone excellently. Good relations, good organization, a good methodology, and very, very good follow-up.”

— Yasser Irshad, Proxiso

A close-up photograph of several green leaves, showing their veins and texture. The leaves are layered, with some in the foreground and others behind. The lighting is soft, highlighting the natural patterns of the foliage.

03.

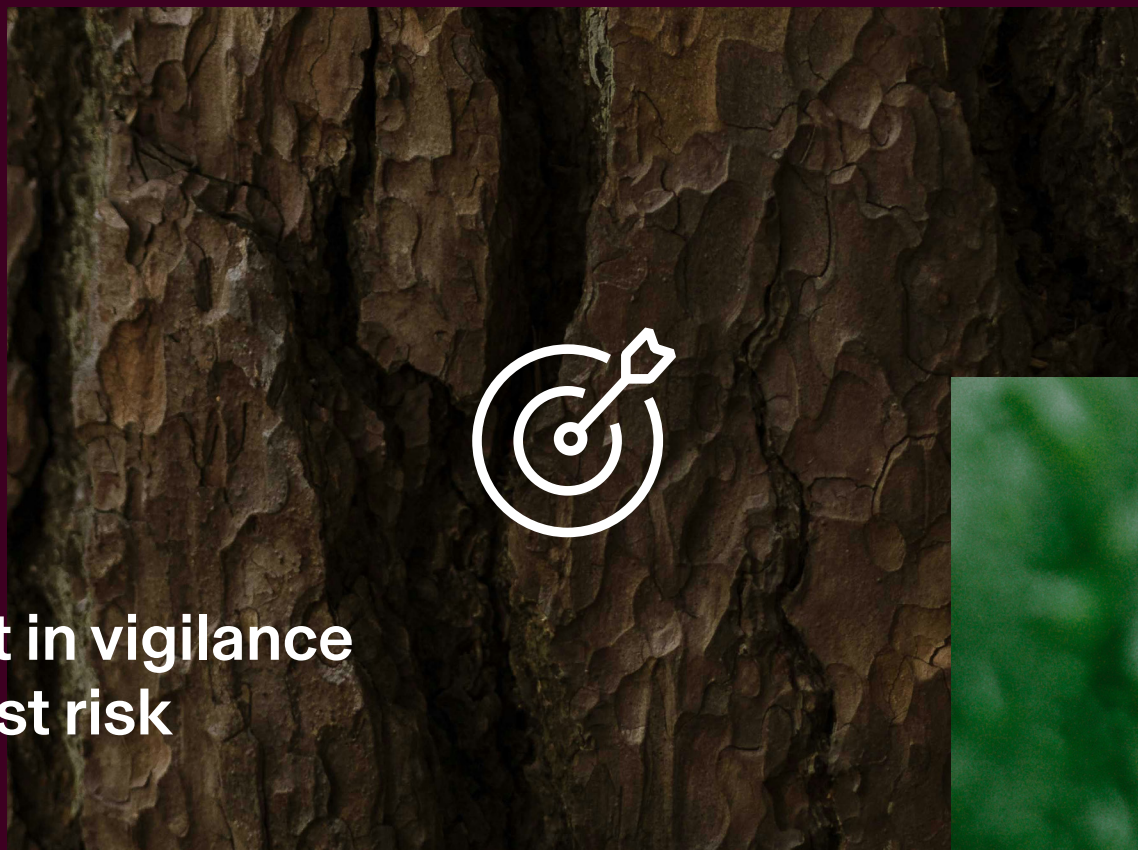

HOW
WE DO
IT

Integrity and accountability are at our core

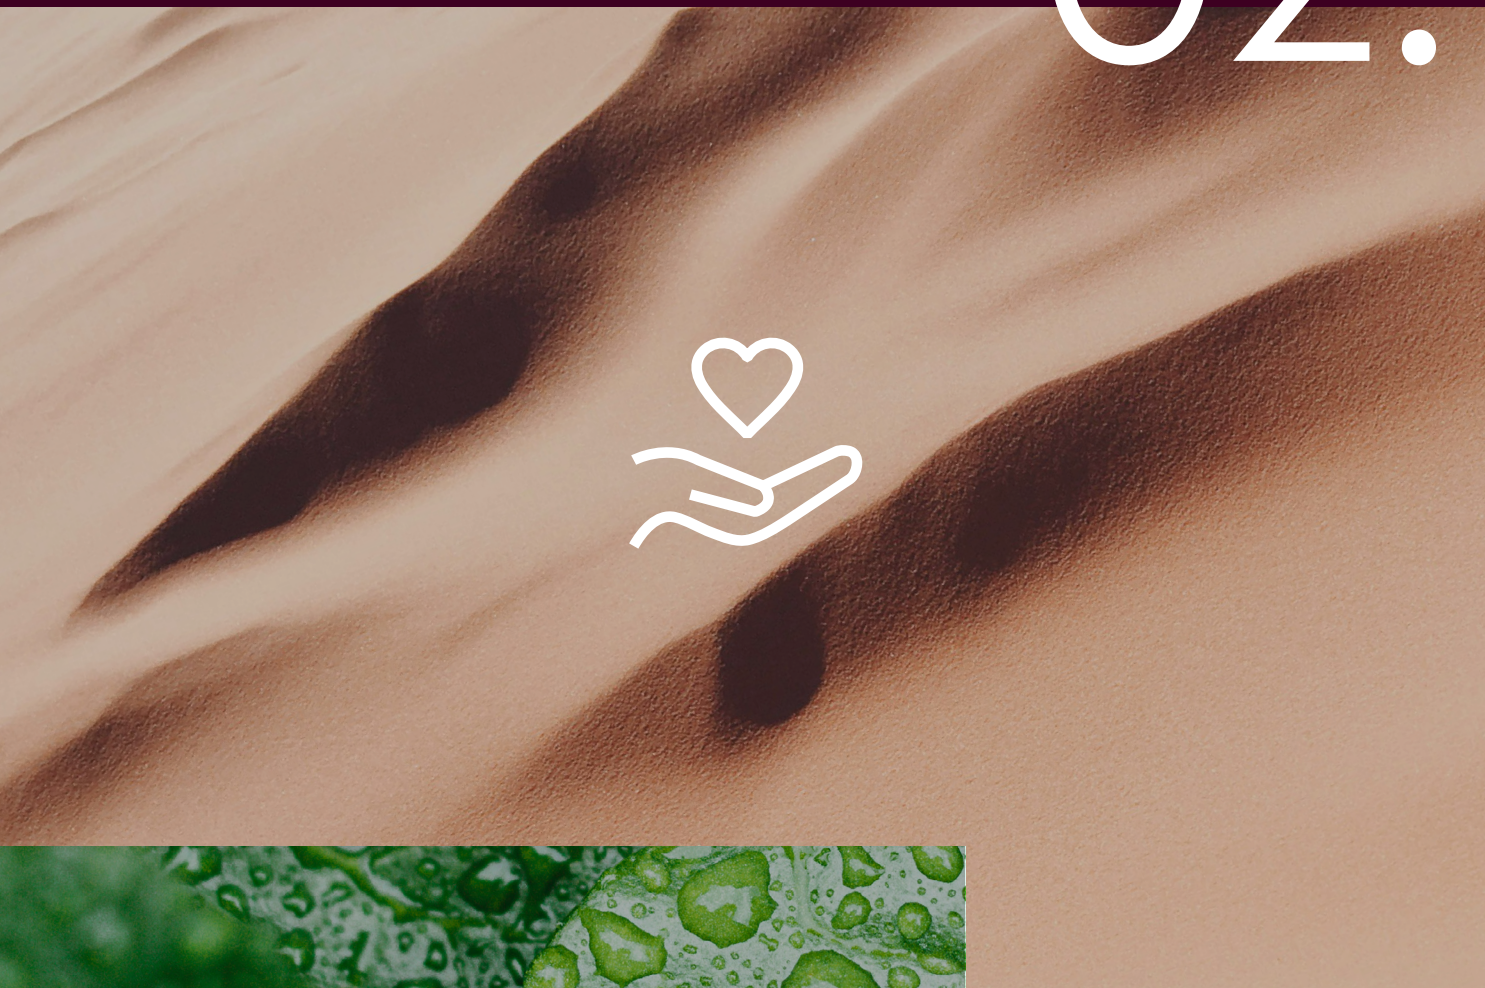

Integrity is our focus

Our compliance department provides oversight at group and local levels, maintaining due diligence to align with our internal policies, code of conduct, and local laws and regulations. To ensure we always operate with integrity on behalf of our business and our clients, we:

01. Invest in vigilance
against risk

02. Practice honest and
ethical business conduct

03. Proactively protect
against corruption

We act with **accountability** and **responsibility**

To maintain trust and uphold responsibility, we've established multiple lines of defense

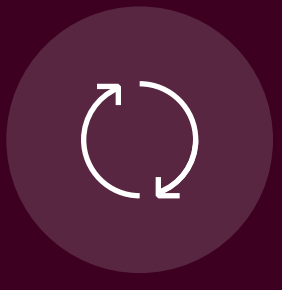

CLIENT-FACING TEAMS

Direct contact between our team and customers to prevent and detect issues.

RISK & COMPLIANCE TEAMS

Developing robust systems for managing market and financial risks.

INTERNAL AUDITING

Regularly evaluating our control framework's effectiveness.

INDEPENDENT CARBON RATINGS

Project ratings services by BeZero Carbon and Calyx provide unbiased evaluations.

SUSTAINABILITY & INTEGRITY COMMITTEE

Ensuring we operate with integrity, accountability, and sustainability.

EXTERNAL AUDITING

Our financials are annually reviewed by independent auditors.

We take a holistic and ethical approach to sustainability, **prioritizing best business practices**

Our internal policies are **client-centric**

Our internal policies are designed with the client safety in mind. We maintain stringent data protection and privacy measures, ensuring that all client information is secure and handled with the utmost confidentiality.

We provide **reliable financial support**

We demonstrate a responsible approach to reliable financial management and transparency, with a commitment to maintaining trust and ensuring long-term stability.

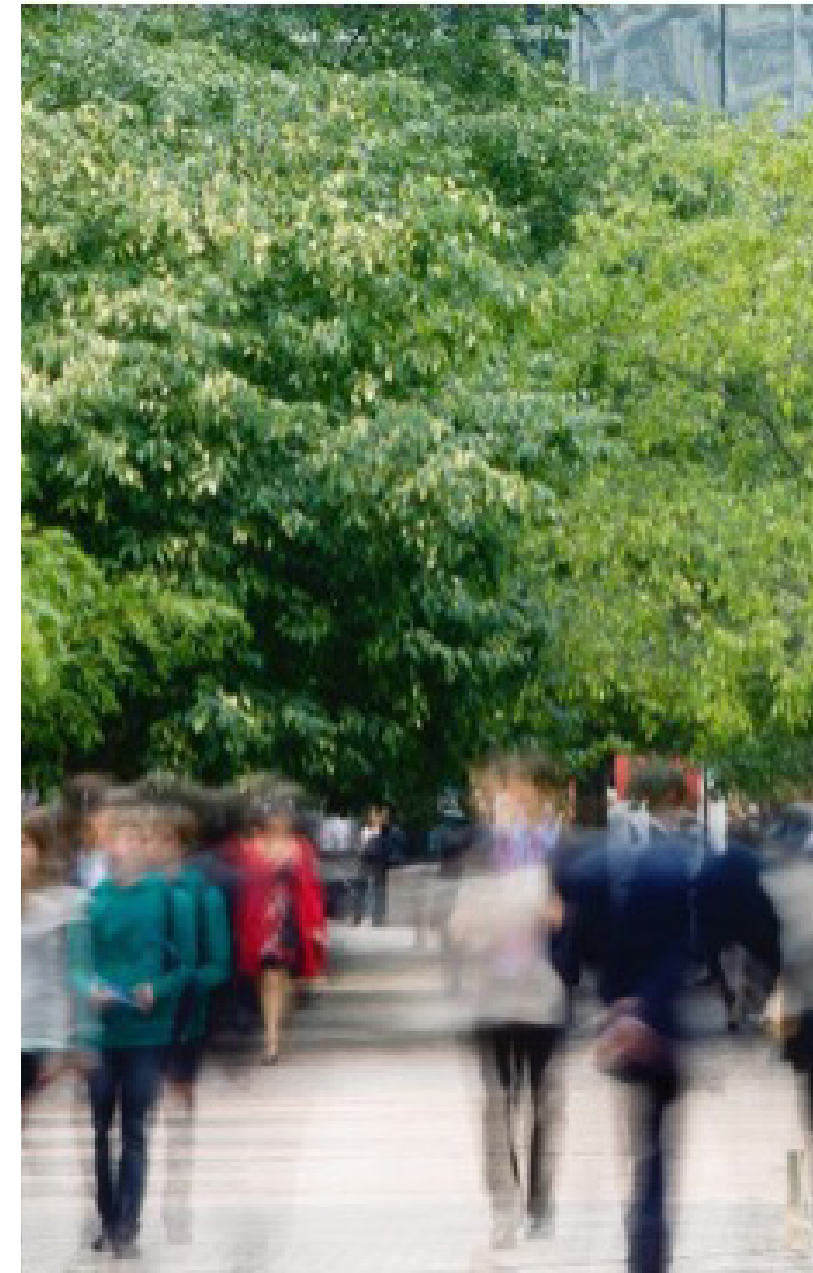

We're committed to **ethical business practices**

Our corporate governance framework ensures accountability, transparency, and responsible decision-making at all levels.

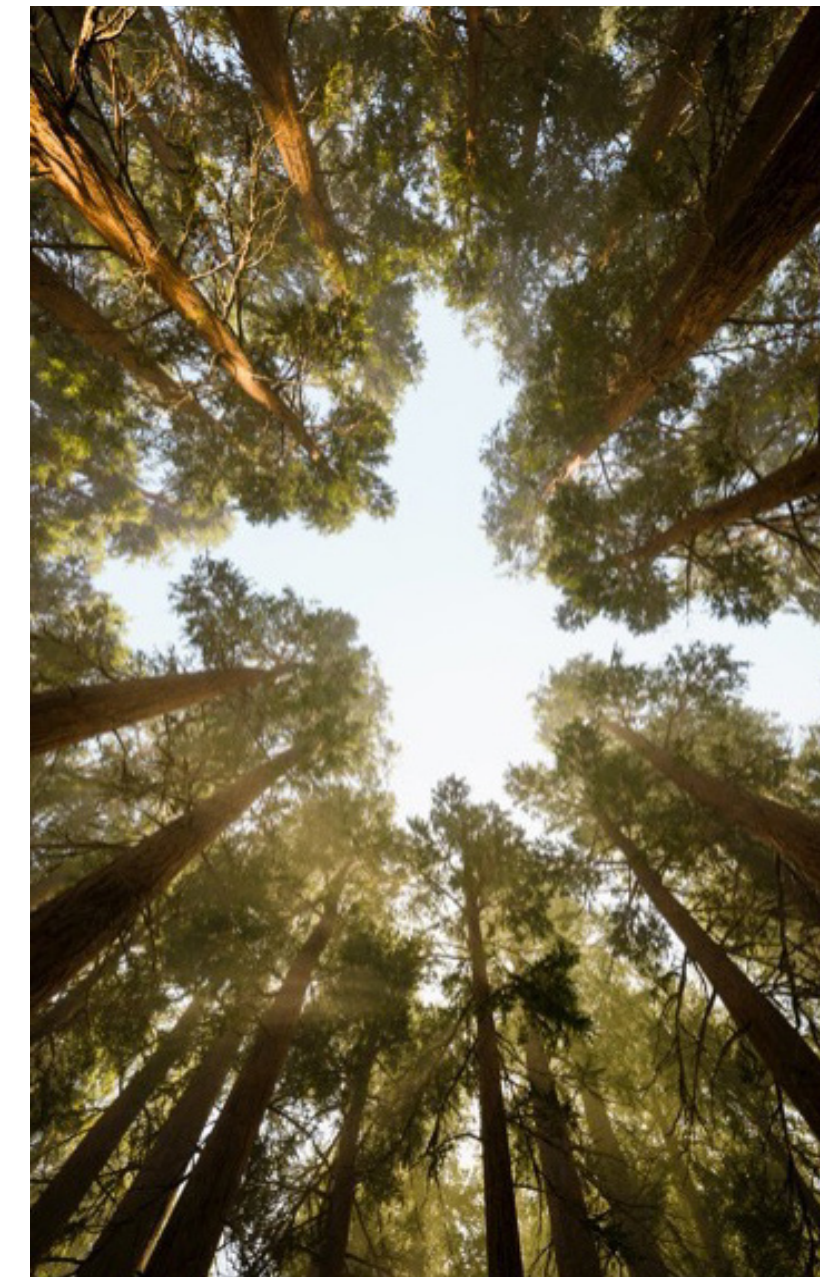

Our contribution to advancing **environmental, social, and governance (ESG)** integrity standards

ACT is committed and continuously improving our performance and transparency so that we can better generate value for our stakeholders and the planet, beyond material business value.

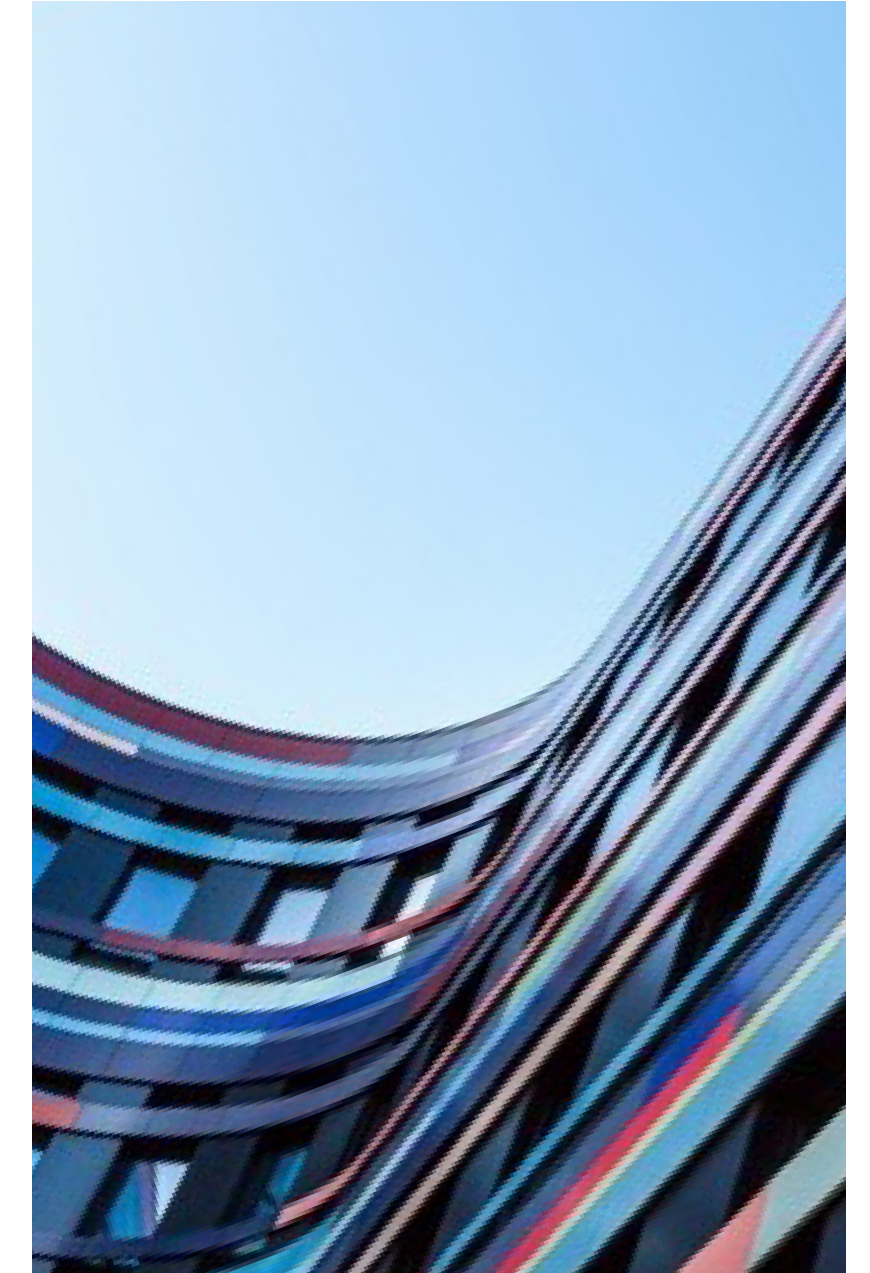

SOCIAL

Ensuring we add social value for our stakeholders begins with the recognition of human rights, from our own employees to the workers in our value chain and the people affected by our work in the communities where we operate. We consider human rights a fundamental principle to protecting people's dignity, freedom, and respect.

ENVIRONMENT

By utilizing our own technology and products, we are committed to maintaining our position as an environmental leader and upholding our promise as a sustainability company. Through our innovative solutions and responsible practices, we strive to achieve environmental action.

GOVERNANCE

We are committed to climate impact-focused partnerships with our clients, and we operate with professionalism and integrity. Our management, our culture, our people, and our systems reflect that, starting at the top. This translates to a set of policies, guidelines, and standards that our employees adhere to.

We're pushing the sustainability economy forward with our expertise, partnerships, and alignment with leading frameworks

ACT is built on a foundation of strong partnerships and industry leadership. This makes us a trusted environmental solutions provider at the forefront of global policy, with a localized understanding of the markets where we operate.

As members of the International Emissions Trading Association's (IETA) Board and Governing Council, we create and uphold new standards for GHG reductions.

Through our partnership with the Carbon Pricing Leadership Coalition (CPLC), we work to mobilize business engagement on carbon pricing, enhance stakeholder knowledge, and improve carbon pricing communication.

By working with the International Carbon Reduction & Offset Alliance (ICROA), we promote their Code of Best Practices, which defines best practices regarding market-based instruments and climate finance.

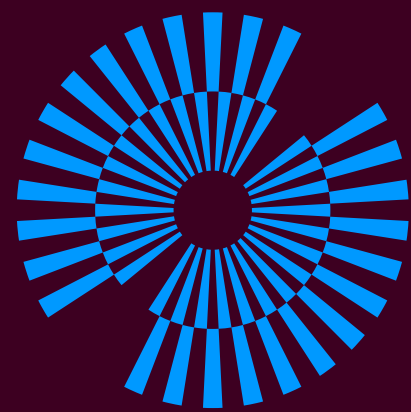

04.

**WHY
PARTNER
WITH ACT**

We empower your business to evolve, lead, and create long-term value through **decarbonization**

The stakes of climate change are high, but they also present unprecedented opportunities to lead, innovate, and create lasting value for your business and for our planet. At ACT, we're here to help you seize those opportunities with confidence.

By partnering with ACT you gain a strategic decarbonization partner, built on a commitment to transforming challenges into clear, actionable solutions. With the expertise, technology, and resources to meet your organization's unique needs, we make decarbonization straightforward, effective, and impactful.
