An “augmented repository” in SRM

- **Continuous updating of supplier documentation** and data required for buyer decision-making
- **Differentiated collection process** based on business rules configured in IVALUA
- **Understanding of third-party activity** while avoiding the need for the buyer to connect to Provigis
- **Add-on compatible** with Ivalua V170 and higher

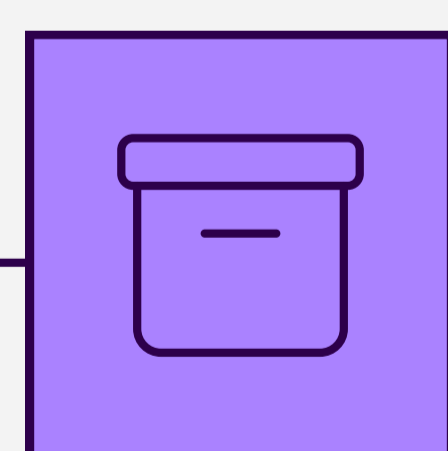

The advantages of the Provigis add-on certified by Ivalua

- 1 Plug & Play** installation from the add-on store
- 2 Integration into Ivalua processes**, reducing manual operations.
- 3 Integrate** partner scores into a single workflow

Collection strategies differentiated by risk level, organized and managed according to your own business rules

Data control and extraction
Strong commitment to the veracity and content of collected data

Compliance score calculated on collected data and documents

Audit trail with evidential value

Why trust us?

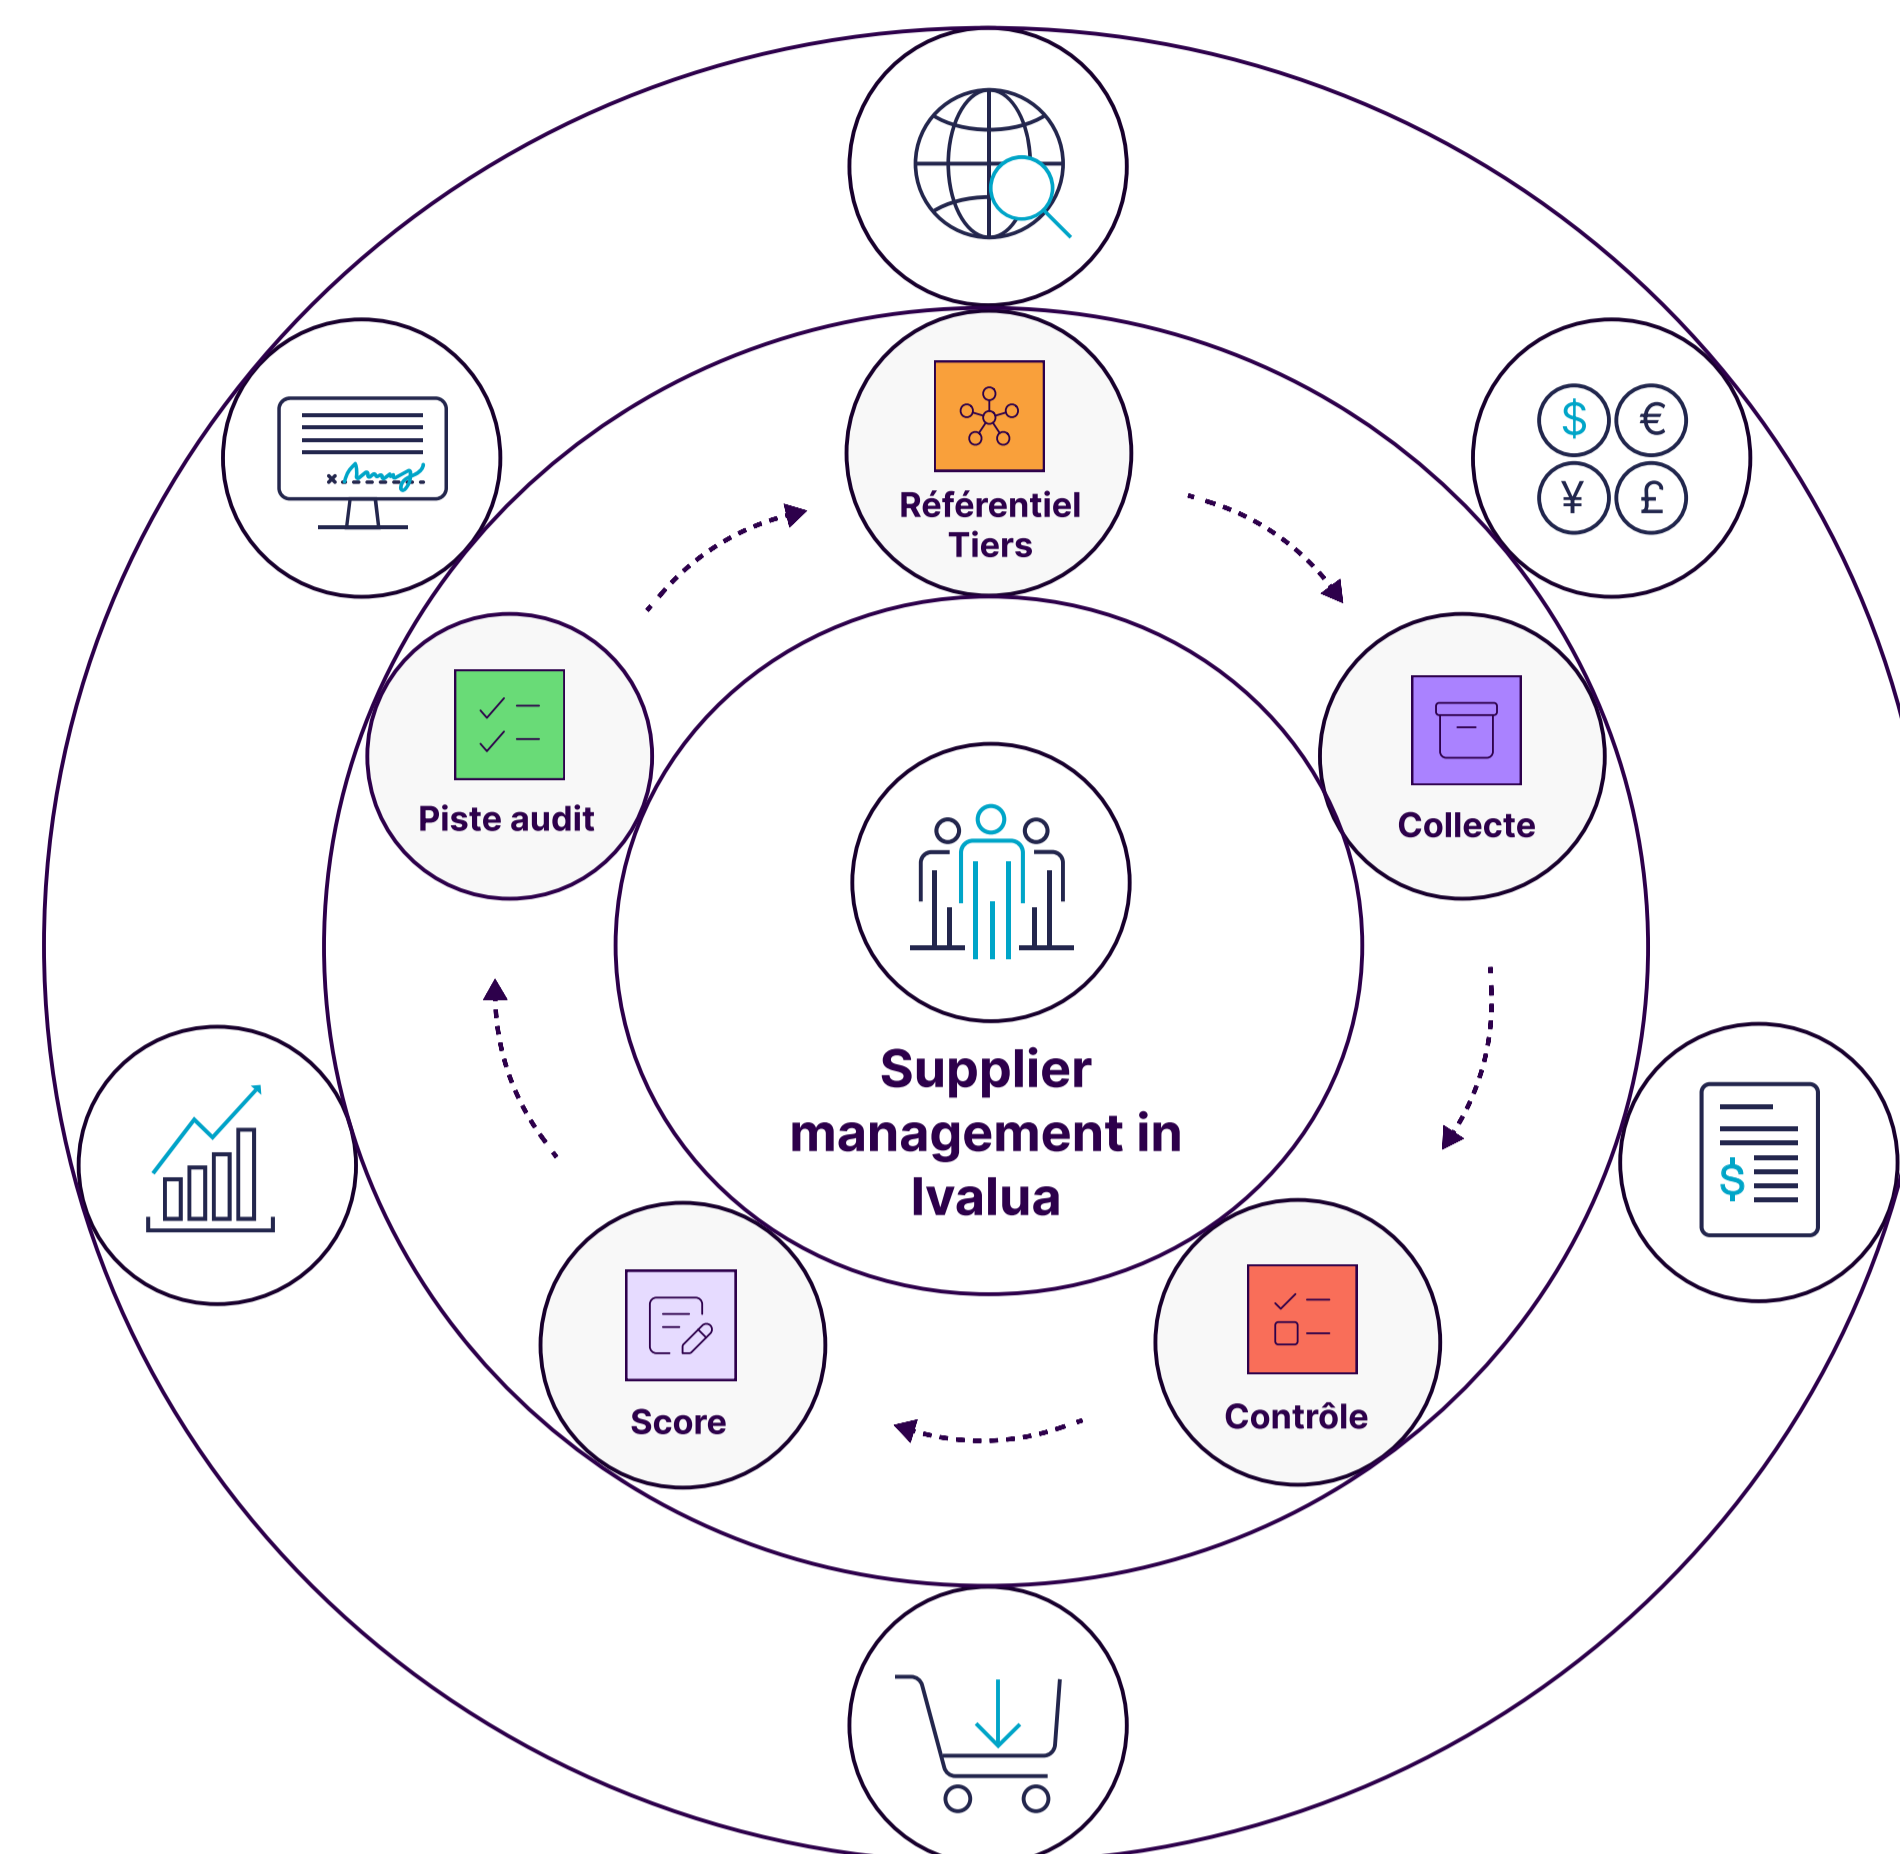

14 Ans of Expertise!

Provigis implements proven processes based on over 14 years' experience. Constantly monitoring technological innovations, our teams anticipate your needs to simplify corporate due diligence and optimize third-party risk assessment.

Reducing supplier risk with the Provigis add-on

The "add-on Ivalua by Provigis" automatically synchronizes the relevant data according to the supplier's attributes configured in the SRPM based on the customer's internal risk policy.

Why choose the Provigis add-on?

Testimonial Head of Purchasing Solutions at Covéa :

"For us, the gain is twofold: everything is automatic and everything is processed from Ivalua. Suppliers who meet the criteria are registered automatically. Completeness status and documents are accessible in Ivalua. Based on the completeness status, we were able to integrate this regulatory risk into our risk scorecard indicators."

Testimonial from the Purchasing IS project manager of a luxury goods group :

"I'm very satisfied with this integration. It has saved me and the buyers a lot of time. I recommend the connector because it adapts very well to the customer's needs."
