Ivalua Procurement Digitalization @valantic

Company Introduction and Portfolio

ivalua

Munich, March 2026

FROM VISION TO PROCUREMENT EXCELLENCE

Our procurement expertise is designed to bridge the gap between strategy and implementation.

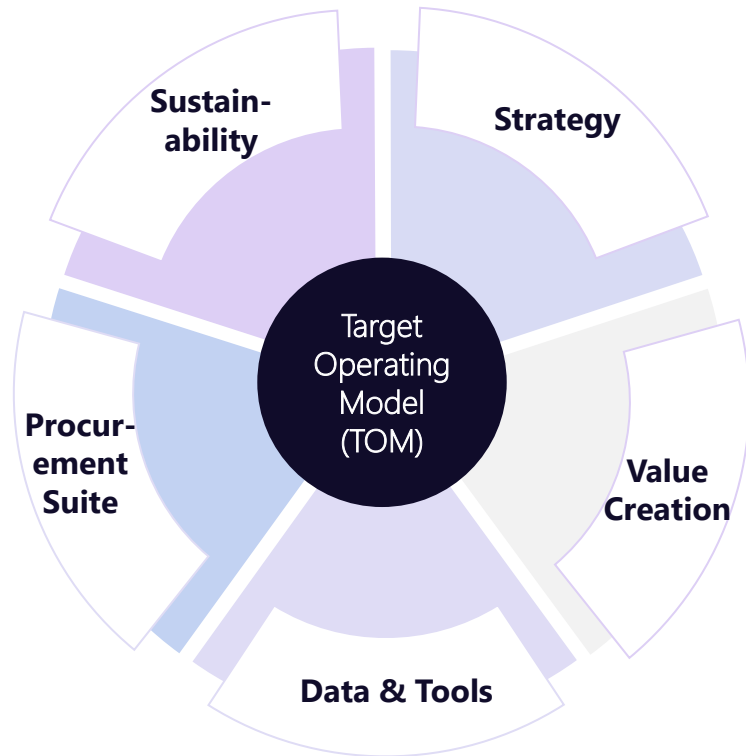

We specialize in developing robust procurement strategies, streamlining processes, and implementing advanced technologies.

Our unique value lies in our ability to deliver measurable cost savings and efficiency gains, which sets us apart from other consulting firms that focus exclusively on strategy, IT implementation, or process improvements.

To elevate purchasing to a best-in-class level, five key dimensions must be considered

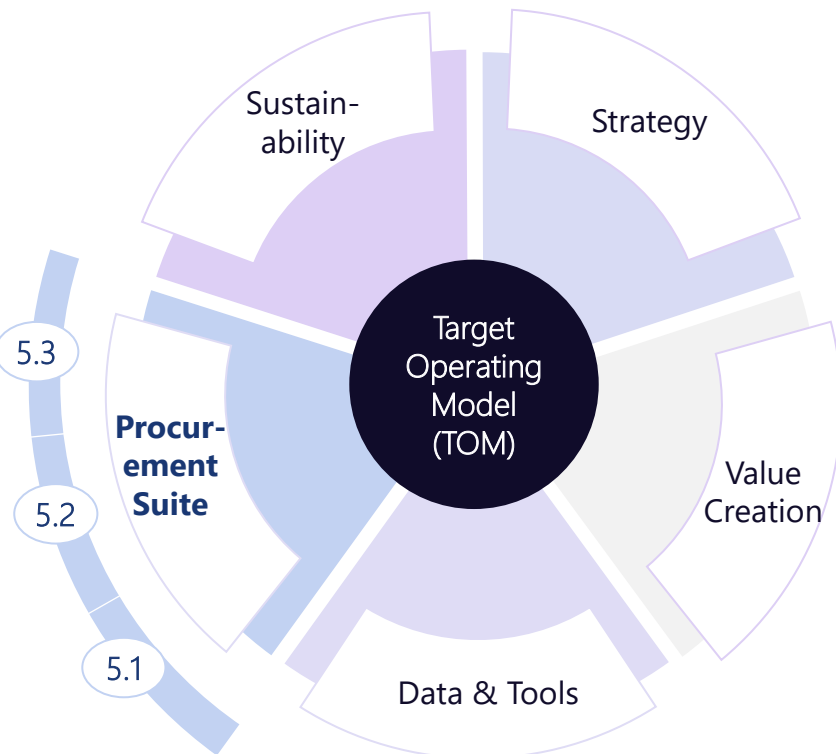

Our Procurement Portfolio (An overview)

- 1 **TARGET OPERATING MODEL (TOM)** → Laying the foundation for a sustainable purchasing organization
- 2 **STRATEGY** → Ensuring targeted and strategy compliant procurement with a focus on the “right” value drivers
- 3 **VALUE CREATION** → Maximize cost savingy, by leveraging our extensive knowledge and proven best practices in both direct and indirect categories
- 4 **DATA & TOOLS** → You gain valuable insights by applying modern processes and tools. Our experiences experts support you in this endeavor
- 5 **PROCUREMENT SUITE** → Fully exploiting the advantages of digitization through comprehensive and appropriate procurement platforms
- 6 **SUSTAINABILITY** → Achieve your sustainability goals and establish a sustainable supply chain

We support you in the transformation towards complete digitalization of procurement processes

Our Procurement Portfolio (Platforms)

5 PLATFORMS

Take advantage of the benefits of digitalization by implementing eProcurement solutions, such as Ivalua and SAP-Ariba (we offer comprehensive support: from selecting the most suitable tool to ongoing operational support and system development)

5.1 **SAP Ariba** 

... as a comprehensive, standardized, and globally networked solution

5.2 **ivalua** 

... a flexible and highly customizable platform that supports modular design
