

INTAKE MANAGEMENT

AI-Powered Procurement Orchestration and Execution

- SIMPLIFY HOW EMPLOYEES ENGAGE PROCUREMENT
- INTAKE VISIBILITY & EFFORTLESS COMPLIANCE
- SEAMLESS ORCHESTRATION & PROCESS EXECUTION

Simple, Collaborative Intake Lifecycle Across All Procurement Activities

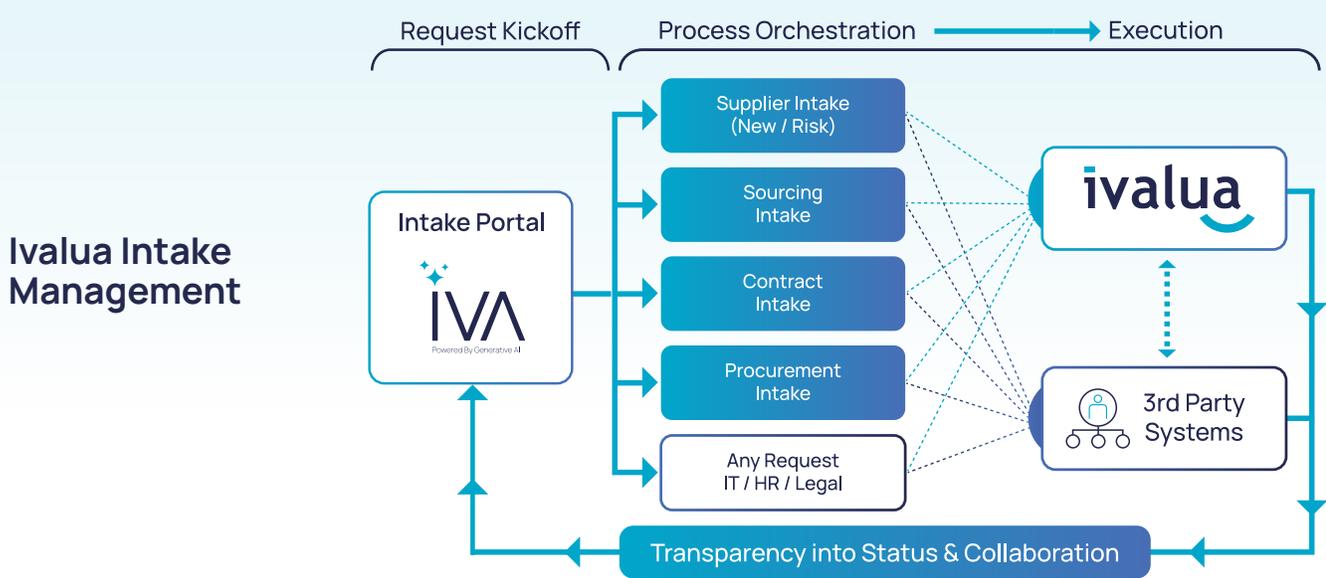

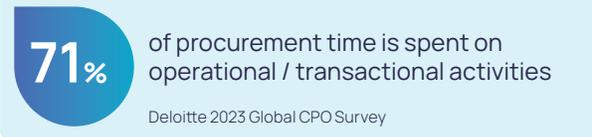

Provide employees a single point of entry for any Procurement intake with Gen AI assistance. Unlock transparency and collaboration across the entire intake lifecycle and simplify employee engagement across all types of procurement activities.

Effortless Compliance to Process

A guided intake experience to ensure that request outcomes are compliant to policy, process, existing contracts, and overall procurement strategies.

Seamless Ecosystem and Data Orchestration

Leverages the power of **Gen AI and Low Code/No Code** configuration to automate and orchestrate processes—from the simplest tasks to the most complex data flows—across any system.

Ivalua Intake Management

Key Use Cases

**Supplier**

Request a new supplier or a risk evaluation. Simplify supplier onboarding and reduce risk.

**Sourcing**

Request a sourcing process for a defined need. Drive transparency and collaboration with stakeholders and SME's throughout the sourcing process.

**Contract**

Request a new contract or access legal support. Ensure contracting is streamlined and efficient, with an added layer of transparency into status and deadlines.

**Purchase**

Request to buy products and services. Leverage a dynamic orchestration workflow to buy the right product from the right supplier.

**Any Request**

Help, questions, support for IT, HR, and more. Leverage Gen AI-powered Intake, workflow and open integration capabilities to streamline a wide range of support.

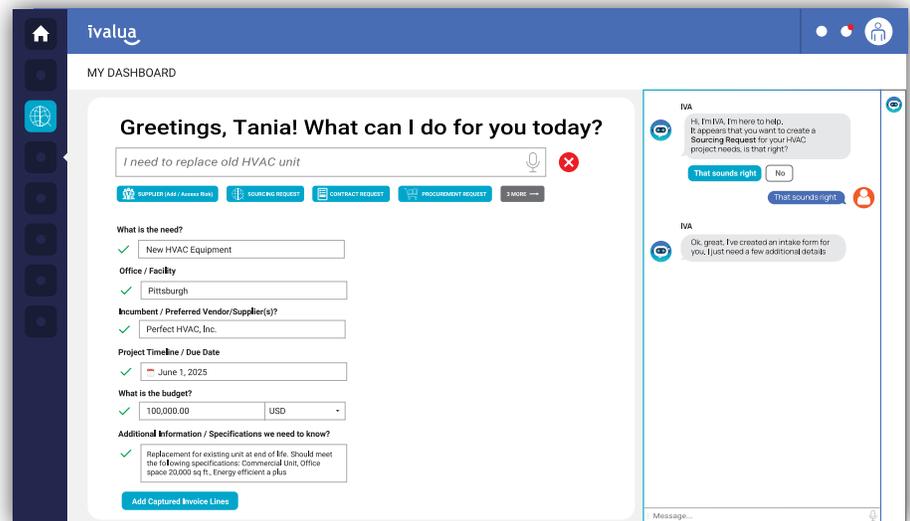

Gen AI Powered Intake

Easy for Employees

Employees leverage a single point of entry for all requests with a Gen AI assisted experience.

A Single, Extensible Hub for All Requests

Guided across any request, process, system, & device, regardless of request type: Supplier, Sourcing, Contract, Procurement, IT, HR, etc.

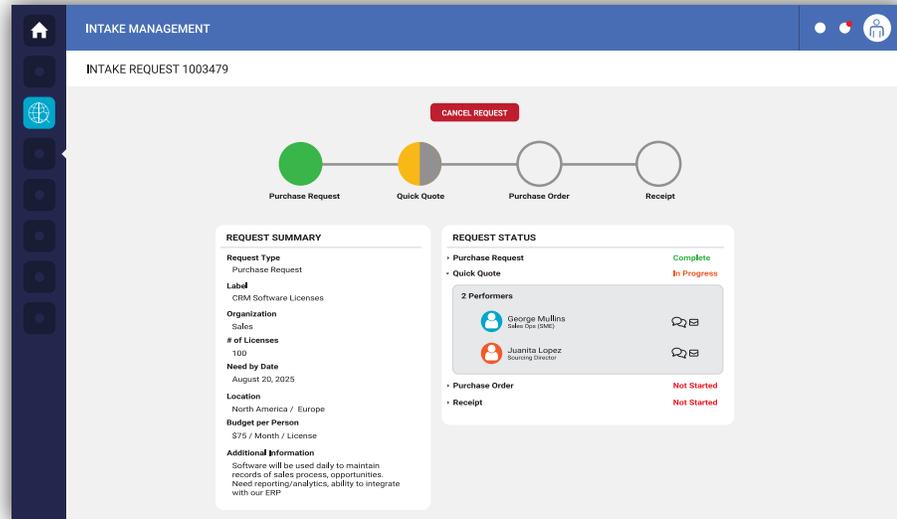

Track Progress & Collaborate Throughout Process Execution

Collaboration & Transparency

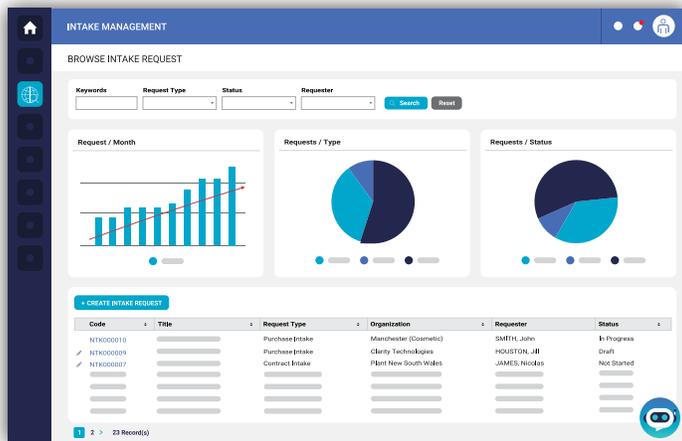

Increase employee satisfaction with clear visibility into intake status. Collaborate with all team members supporting the execution of the process.

Seamlessly Connected to All Procurement Activities for Execution

One intake hub to orchestrate and execute various procurement activities - sourcing, contracts, new supplier, and purchasing.

Improve Time-to-Value

Improve Procurement Service Levels

Streamline intake submission, triage and relevant workflows to improve employee satisfaction.

Increase Operational Efficiencies

Ensure instant visibility of requests and route to the most relevant team member.

Analytics to Drive Satisfaction & Value

Leverage analytics to track, identify, monitor, and eliminate bottlenecks. Discover opportunities for value improvement and impact.

Simplify the Intake Lifecycle with Ivalua!
