SJØ RESTAURANT & VINBAR

CONCEPT VISION

Sjø Restaurant & Vinbar invites guests into a world where the flavors of Western Norway meet impulses from all over the world. The concept of Vestlandsfusion gives the chefs the freedom to combine first-class local ingredients with international techniques and expressions – a culinary journey that ranges from delicate seafood dishes to succulent meat dishes, tempting vegetarian options and exquisite desserts.

Right in the heart of Bergen, on the first floor of Kløverhuset, the meal takes on an extra dimension through the view of Vågen and Bryggen. This is a place where quality, craftsmanship and local flavors merge into an experience that feels both down-to-earth and exclusive at the same time.

SJØ RESTAURANT & VINBAR

OUR GUESTS

TARGET GROUP

30+ 
PRIMARY TARGET GROUP

Sjø attracts a mature, quality-conscious crowd, often 30+, who seek an experience that is as relaxed as it is accomplished. These are guests who value good ingredients, genuine hospitality and an atmosphere that feels social, vibrant and inclusive. They come here to enjoy – not necessarily to make the evening formal. Whether they are celebrating something, sharing a meal with good friends or just want to take a spontaneous trip out, they encounter a restaurant that combines professional pride with a warm and informal tone. Here they find a place where quality does not mean rigidity, but closeness, engagement and a natural flow.

SJØ RESTAURANT & VINBAR

BAR

At the heart of the venue is the bar – a vibrant gathering point where the evening often starts, but can just as easily take a completely new direction. Here, the wine selection is rich and wide, and includes wines from Sjø's own vineyard, Château Saint Martin de la Garrigue in Languedoc. With a total of 18 varieties – from light and fresh white wines to deep and complex reds – guests are given a wine journey that is as diverse as the menu. This commitment to wine has also been noticed: Sjø was nominated for Newcomer of the Year in "Norway's Best Wine List" in 2025. The same passion can be found in the cocktails, which are handcrafted by experienced bartenders with a great understanding of taste, technique and balance. Everything happens in an atmosphere that feels both sophisticated and accessible – a place that invites you to stay a little longer than planned.

SJØ RESTAURANT & VINBAR

PRIVATE COMPANIES

When the evening is about more than just a meal, Sjø Restaurant & Vinbar offers a range of flexible solutions for private events. The largest hall accommodates 120 dining guests, providing a warm and inclusive setting for everything from Christmas parties and company parties to weddings and larger celebrations. The layout is always adapted to the occasion, so that both small and large groups have an experience that feels personal and well-thought-out. For larger events, several of the zones – the Lounge, the Restaurant and the Wine Bar – can be combined, allowing for a total capacity of up to 180 guests. This creates a natural flow in the event and provides room for mingling, bar service and various activity zones. In addition, the SJØ Skybar on the 7th floor offers a completely different experience. The Skybar is not included in the capacity of 180, but stands as an independent alternative – perfect for ending the evening, or as an arena for the entire event. Here you can gather up to 250 guests for a party, with spectacular views of Bergen and an environment that creates energy and anticipation. It is also possible to serve food here, such as a tapas buffet, grill buffet or other party menus, making the Skybar a flexible and very attractive place for larger gatherings.
