

TALK.
LISTEN.
GO!

TWİİNS® MOBILITY 2025 CATALOGUE

Twiiins®
CONNECTED IN MOVEMENT 

Twiins® Mobility is the unique all-in-one communication solution for today's metropolitan commuter. It offers a beautifully designed, easy-to-use, and affordable way to navigate the city while staying fully connected to music, receiving navigation instructions, and managing phone calls and group talks, effortlessly.

Elevate your ride: why Twiins® Mobility is the top choice for urban riders?

Advanced features for an unmatched urban riding experience.

Talk. Listen. Go!

Enjoy a seamless experience that lets you talk, listen to music, follow navigation instructions, and manage phone calls and app group talks, effortlessly.

Essential. Intuitive. Iconic.

Fully embedded in your helmet with no external parts, it offers intuitive control with a simple push of a button.

Smart. Compliant. Universal.

Twiins® Mobility is a homologated Universal Accessory ECE 22.06 and fits seamlessly into any helmet on the market.

One. Two. Unlimited.

Our combination of Bluetooth® and App technologies ensures you're always connected. Riding solo, with a passenger, or with an unlimited number of friends.

Find the perfect Twiins® for your riding style!

01 Twiins® Mobility HEADSET
KTW0087

The Headset is designed for frequent urban riders, offering safe, hands-free access to calls with voice answer, stereo music, and navigation instructions. It also enables rider-passenger communication, making it the heart of the Twiins® Mobility range.

02 Twiins® Mobility HEADSET PLUS
KTW0086

The Headset connects via Bluetooth® to your phone and your passenger. With the push-to-talk Smart Button, it also links to multiple riders through the free Zello® app, making it perfect for daily use and ideal for group communication with friends.

03 Twiins® Mobility HEADSET DUO PACK
KTW0085

Exclusive price for 2 Headsets. Each functions independently when used alone, and when paired together, they allow smooth rider-to-passenger communication while keeping separate phone connections. Perfect for those who regularly ride with a passenger.

04 Twiins® Mobility HEADSET DUO PACK PLUS
KTW0089

The ultimate communication kit, providing versatile connectivity. It pairs with your phone, connects to your passenger's Headset via Bluetooth® (second Headset included), and links to unlimited riders through the push-to-talk Smart Button via the Zello® app.

05 Twiins® Mobility SMART BUTTON
KTW0088

The Smart Button instantly activates the free Zello® app with a single push, allowing you to communicate with unlimited users, no matter the distance. It comes standard with a universal handlebar mount and is compatible with any headset brand.
