French Brand

Our history

Our savoir-faire

Since 2003, Esquad has been a major player in the safety apparel industry, renowned for its exceptional craftsmanship in denim.

The brand uses only the highest quality fabrics, known for their superior durability and resilience. Esquad's jeans are specifically engineered to withstand rigorous wear and tear, ensuring long-lasting performance and reliability. The company's commitment to safety is underscored by its meticulous certification process, which ensures that every product meets stringent safety standards.

As a major manufacturer dedicated to safety since 2003, Esquad has continually set the benchmark in the industry. The brand's relentless focus on innovation and quality has made it a trusted name among consumers seeking reliable and stylish protective apparel. With Esquad Jeans, customers are assured of getting products that combine technical expertise, durability, and superior protection in every pair.

Esquad achieves this through advanced protective technologies seamlessly integrated into the design of their jeans. These technical innovations not only provide robust protection but also maintain the comfort and style that customers expect.

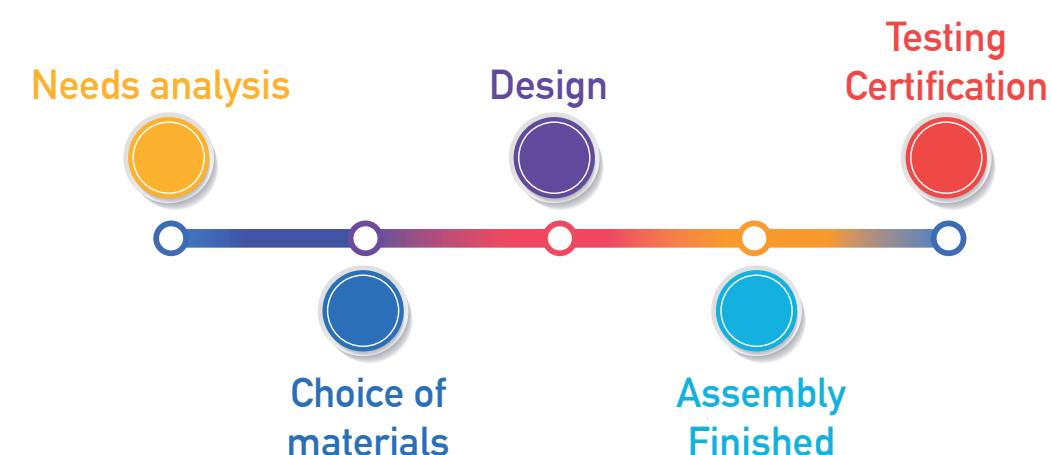

From the careful selection of raw materials to the precision in every stitch, Esquad's dedication to quality is evident. Their products are designed to offer unparalleled protection without compromising on aesthetic appeal or comfort.

Details are limitless !

Artisanal know-how for 3 generations!

Our goal: To design premium products that closely meet our customers' expectations.

Creating clothing has never been as driven by identities as by a Master Tailor. Without being elitist, we are proud to offer the services of a master tailor who not only decides on the shape but personally implements the technical foundations that are fundamental to guarantee excellence.

These steps are essential to improve the well-being that we bring to our box springs in terms of realization.

ESQUAD pays particular attention to the choice of materials used, in order to guarantee optimal quality and increased durability.

Technical Glossary

Technical labels

Impact Dry+

"Waterproof and breathable single-layer denim fabric thanks to an exclusive lamination process. It has mechanical properties of very high resistance to abrasion. Material made in the Vosges, France."

"Bio washing combining an innovative ozone washing process and a laser finish, allowing a significant reduction in consumption:

- ✓ 65% water
- ✓ 80% detergents
- ✓ 20% energy

Pictograms

Shock and abrasion protection

ANTI-ABRASION PROTECTION

The fabric has mechanical properties that offer very high resistance to tearing and cutting.

SHOCK PROOF

Protection with added soft and removable shock absorbers.

Weatherproof protections

WATERPROOF AND BREATHABLE

Lamination of a waterproof membrane to the rain and letting water vapor escape.

WATER REPELLENT

Water-repellent treatment preventing rainwater from penetrating the fabric.

Thermal comfort and wear

BREATHABILITY & LIGHTNESS

Single-layer construction of the pants, much lighter than multi-layer. Comfort in all seasons.

SOFT AND COMFORTABLE MATERIAL

Stretchy and soft to the touch, allowing for optimal comfort.

URBAN MULTI-USE

Product with an urban style designed for riding two-wheelers. Usable on a motorcycle, at the office, or in the city.

Safety :
EN 1621-1:2012 "E-K" type A ; "S-H" type B, niveau 1
Material :
Mélange PVC (chlorure de polyvinyle) / EVA
(éthylène-acétate de vinyle)

Knee and hip protections

*The only protectors approved for low temperatures

Choice of materials
Esquad-Protex® premium stretch

Reinforced button

Reinforced seams throughout the jeans

3 height adjustment options for the protectors

Esquad-Protex®

Derived from the brand's industrial expertise, our ESQUAD-PROTEX inner lining combines a very high level of protection and comfort. It is a bi-face textile material. The side on the skin is soft and pleasant to the touch while ensuring moisture regulation through polyester, guaranteeing a high level of comfort.

A blend with para-aramid provides true abrasion resistance, which has been tested by our knitting partner in Mazamet, located in the South of France. This material is exclusively used on certain two-wheel models in France.

In Esquad's secret workshop, skilled artisans, guardians of a long heritage, were reviving the brand. They merged tradition with high-tech materials, creating jeans from Protex®, offering exceptional abrasion protection and comfort.

A prophecy among bikers predicted Esquad's resurgence as a legend, with innovative features dominating the roads. These jeans symbolized a blend of heritage and modernity. Esquad's comeback, stronger than before, aimed to set new industry standards. Bikers worldwide celebrated, sharing Esquad's story across platforms.

A new chapter began with an interactive website, intertwining virtual and reality, marking Esquad's legendary renewal at the industry's forefront.
