

THE TRUSTED FINANCIAL INFRASTRUCTURE PLATFORM FOR DINING, RESTAURANT, AND HOSPITALITY BRANDS

Leading dining, restaurant, and hospitality brands choose Stripe as their financial infrastructure platform to create meaningful engagement with customers online and offline, drive operational efficiencies, and increase revenue per customer.

Drive operational efficiencies

Streamline payments operations across the customer journey with online and in-person payments all on one platform. Automate reporting to understand customer trends and make better business decisions.

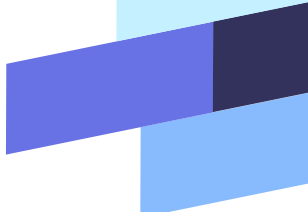

Enable innovation

Build a connected ecosystem with a developer- friendly platform that is easy to integrate into existing technology stacks and maintain. Quickly implement new features and capabilities with a trusted platform with 99.999% uptime.

Build a better customer experience

Create a frictionless customer journey by offering payment optionality online and in-person. Provide personalization with local payment methods in 47 countries and 135+ currencies.

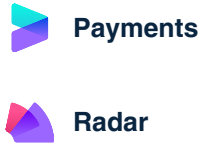

HOW STRIPE SUPPORTS DINING ACROSS THE CUSTOMER JOURNEY

PLANNING

- Book a reservation
- Order ahead
- Pre-book experiences

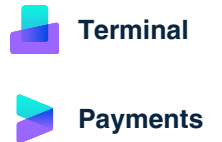

Easily integrate with existing reservation system such as OpenTable and Tock, empowering customers to make table deposits, order in advance, and add on packages to their reservation.

DINING EXPERIENCE

- Order at table
- Pay at table

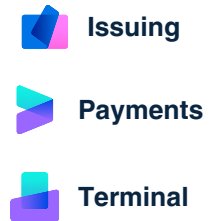

Provide convenience to customers with pay at table capabilities and payment optionality. Easily order, split, and pay bills at the table.

ANCILLARY OFFERINGS

- Customer loyalty programs
- Partner offers
- Retail offers

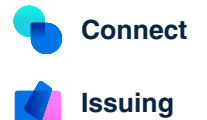

Build brand loyalty with incentive programs and generate more revenue by offering personalized partner and retail offers.

OPERATIONAL EFFICIENCY

- Connected ecosystem
- Expense cards

Create a connected ecosystem by simplifying payments across franchisees and partners. Issue cards to fund, control, and manage spend.

Stripe helps dining and restaurant brands build a better customer experience that improves customer loyalty, operational efficiencies, and profitability.
