Robu9

A gesture, an environment, a garment.

Since 1922, Robur has been helping professionals in their day-to-day working lives by creating comfortable, practical, aesthetically-pleasing collections designed with specific demanding environments in mind.

Guided by strong ethical principles and a constant search for innovative materials, we put our expertise to good use in ensuring the high quality and functionality of our garments.

This year, we're delighted to present our brand-new, bold and vibrant colour trends, bringing a burst of energy and vitality to the kitchen as well as being perfectly in tune with current design trends.

Why not also check out our new denim and real leather range, combining the timeless comfort of denim with the incomparable lightness that makes these pieces ideal for busy days when you need to be on the move but still want to look stylish.

We know exactly how important it is to be well presented front of house and the impact this has on the establishment's image. Our new stretch suit models with their revised cut offer a new take on professional elegance. Designed to combine flexibility with a contemporary look, these suits allow for maximum ease of movement.

We continue to maintain our commitment to you and to providing the advice and innovation you need to bring all of your plans to fruition.

CONVERTING OUR COMMITMENT TO CSR INTO CONCRETE ACTION

LEARN
MORE
ABOUT
OUR CSR

ROBUR'S CSR POLICY RUNS IN THE COMPANY'S DNA.

ROBUR has been committed to CSR for many years now. We know that it is possible to strive for a better world, so our CSR strategy aims to continuously improve our operations in order to reduce our environmental impact while increasing the quality and durability of our products. We promote strong environmental and social values such as openness, respect and ecological awareness at the very heart of Robur.

"We are guided by strong values, integrity, quality, innovation and excellence".

Our company is firmly committed to sustainable development, with an integrated approach that takes the entire life-cycles of our products into account.

Learn more about the life-cycle assessments (LCA) of our top products:

Robur's environmental labelling, like Nutriscore, consists of a colour gauge for classifying our garments based on various indicators of their potential impact on the environment, with results expressed as follows:

- over at least 100 wash cycles for a worn and cared-for kitchen garment
- over at least 50 wash cycles for a worn and cared-for service garment.

ROBUR X GAULT&MILLAU

Gault&Millau has been travelling the length and breadth of France on the hunt for the best restaurants, the finest produce and wines and the best eateries for 50 years now.

ROBUR maintains a long-standing partnership with Gault et Millau that involves the following:

The Gault&Millau Tour - a series of regional events celebrating and bringing together all those involved in local gastronomy (chefs, their teams, producers, young apprentices, etc.).

The Dotation Jeunes Talents Gault&Millau - an initiative whereby young restaurateurs with plans to open a restaurant and who have the potential and the courage to run a business in this sector are selected to receive a grant from Gault&Millau's partners.

Gault&Millau

PARTNERS

COMPETITIONS

The Concours Jeunes Talents competition was created to highlight young people who are keen to get involved and progress in the catering sector. Since it was founded over 12 years ago, the competition has gone from strength to strength.

The Pâté Croûte World Championship is an international championship of professionals from the catering, bakery, pâtisserie and delicatessen industries.

ASSOCIATIONS OF HOSPITALITY MANAGEMENT SCHOOLS

A network of synergistic players operating in the fields of tourism and hospitality

that encourages secondary schools and colleges to join forces and puts them in touch with the business world.

The associations have been showcasing and perpetuating the expertise of maîtres d'hôtels for 50 years.

The Olivier Roellinger competition is aimed at young chefs keen to take steps on a daily basis to safeguard Navy resources and in doing so bring additional meaning to their profession.

As the leading biennial international competition for the art of baking, Le Mondial du Pain showcases the expertise of bakery professionals and emerging talents from all 5 continents.

ASSOCIATIONS - FEDERATIONS

Les Ambassadeurs du Pain founded the Mondial du Pain with the aim of promoting the baking profession and passing on the skills involved. Robur is a loyal partner to the event.

We support the Fédération des Fromagers, representing some 3,600 dairies and cheesemongers operating both out of shops and at markets.

Created in 2010 by the town of Sarlat and local firms Rougié and Pebeyre, the Jean Rougié Trophy supports and places the spotlight on students from catering colleges and training centres.

CINEMA - TELEVISION

A LA BELLE ETOILE
OBJECTIF TOP CHEF ...

A photograph of three people standing against a light-colored concrete wall. On the left is a man with a beard wearing a blue denim cap and a blue denim jacket. In the center is a woman with her hair in a ponytail, wearing a blue denim jacket. On the right is another woman wearing a blue denim apron over a dark shirt. All three are smiling and looking towards the right. The text 'imagine... the pleasure' is overlaid in white on the image.

An **innovative** **and sustainable** fabric for an **ultra-comfortable** and trendy range

Made from organic seaweed collected from the Icelandic fjords using a gentle and sustainable process, wood fibres from renewable sources, and organic cotton, the Pyratex® fabric used for our **SEACELL range** is non-allergenic, it protects the skin from damaging free radicals, activates cell regeneration and replenishes it with vitamins and various trace elements.

A truly smart fabric in which the active fibres have the ability to reduce inflammation of the skin and soothe itchiness.

Carbon neutral and biodegradable in the soil in four weeks, this fibre also meets environmental protection requirements.

This revolutionary fabric combined with the trendy fit of the range allows easy movement to provide greater comfort and well-being at work!

The 37.5[®] technology improves **the body's performance.**

When we physically exert ourselves, the water vapour from our perspiration escapes through the pores in our skin, helping to lower our body temperature. In fact, each gram of sweat that evaporates releases 580 calories of stored heat. If this water vapour remains trapped in our clothes, shoes or gloves, however, it builds up and creates a moist and unpleasant environment. The 37.5[®] technology optimises the body's natural cooling process since the body produces sweat to regulate its temperature while the 37.5[®] technology removes this moisture from the environment that is our clothing.

Nero 37.5[®] Man's jacket

TOGETHER FOR A CLEAN OCEAN

SEAQUAL
INITIATIVE

Made in Blue
BY ROBUR

ROBUR has forged
an **exclusive**
partnership
with the SEAQUAL
INITIATIVE®
to **think about**
tomorrow,
about our future!

Robur is committed to working alongside the SEAQUAL INITIATIVE® to design forward-looking garments that help protect our environment in the long term.

With the help of a community of fishermen, NGOs and local players, the SEAQUAL INITIATIVE® collects Navy plastic waste in order to recycle it and repurpose it into Tencel polyester fabric.

INSTITUTION ROBIN
 Student of Institution Robin Vienne

The 'Anti-waste law for a circular economy' (AGEC) plays a key role in the transition to a more sustainable production and consumption model aimed at reducing waste and protecting our natural resources. Our HODEL jacket, containing recycled polyester, is an opportunity to support the distribution of environmentally-friendly products.

MADE IN FRANCE
BY ROBUR

Robur is proud of its heritage, it wished to promote French textile expertise by creating, manufacturing and embroidering articles from this range.

As such, Robur honours an approach which is important for it whilst pursuing its quest for elegant, comfortable garments, made with incomparable workmanship. At the end of the day, gastronomy and textile have shared roots: French-style savoir-faire!

ROBUR I'TS ALSO!

Health & Wellness

Less well-known, but still a part of our history, Robur also offers a HEALTH/WELLNESS collection of tunics, coats and trousers for women and men. The current collection offers a variety of cuts and colours. To meet the demands of your business, Robur has paid particular attention to every last detail: quality of materials, straight or fitted cuts, location of pockets, badge-holder, easy care, etc. Our collection is mostly made of polyester-cotton but you will also find some items in polyester-Tencel®, which is very light and comfortable to wear.

Feel free to request our catalogue.

Agri-food

In order to meet the demands of Food Industry businesses, Robur developed an agri-food collection a few years ago.

This collection consists of jackets, coats, boiler suits, trousers, a sweater and a smock. We can supply your whole outfit. Special attention has been paid to the finishes: in our collection, you will find jackets with various collars, adjustable hoods, ribbed cuffs and adjustable sleeves, as well as side pockets and chest pockets. As for the trousers, they feature elastic waistbands and adjustable cuffs for improved comfort. Available en request with a minimum order of 25 units.

Feel free to request our catalogue.

CUSTOM- IZATION

It's important to be able to create products that reflect your image, which is why Robur gives you the option of redesigning the garments on offer in accordance with your wishes and the needs of your business.

You'll find a few examples of our customisation options below.

Please don't hesitate to contact us should you have any questions.

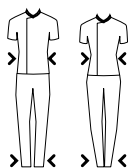

**Because your image
is of the utmost
importance !**

All of our garments
can be customised
with embroidery,
transfers
or silkscreening.
We will reproduce
your logo exactly
as it appears.

SLIM

The fitted style or slim-fit is the up-to-the-minute look. It hugs the body's natural curves and highlights them superbly.

- For jackets: Less free-flowing movement and/or more tucked at the waist

- For trousers: Hugs the legs, tight around the thighs and ankles yet does not squeeze or shape.

This style is mainly recommended for slim silhouettes.

REGULAR

The straight-cut or regular-fit is the most traditional style but it's also a timeless classic. The drape is straight.

- For jackets: Comfortable around the bustline and not tucked at the waist

- For trousers: Straight-cut from top to bottom.

This regular style fits all body types and should be favoured if you have a rounded stomach or pronounced pelvis. This style sets off your silhouette perfectly without squeezing and ensures optimal comfort.

ROBUR Collection 2024 / COOKING-CATERING

Design - Production: Un brin de campagne / unbrindecampagne.fr

Photos : Nicolas Rival - Studio Noël Bouchut / Richard Gardette

Styling : Dorothée Echassoux @dorobydoddy

Mack-up : Valerie Dumond @valdumond

Everyone at ROBUR would like to thank the management teams at the following establishments:

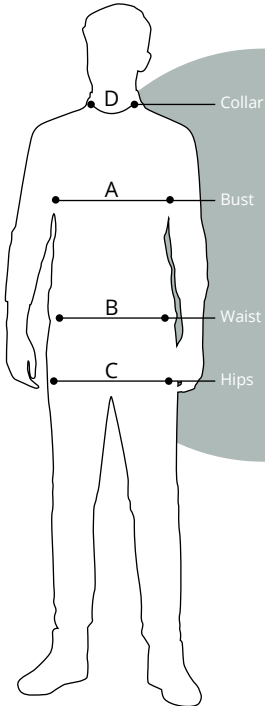

L'Atelier du Square by Guy Benayoun / Café Mercière / Institution ROBIN

MEASUREMENT

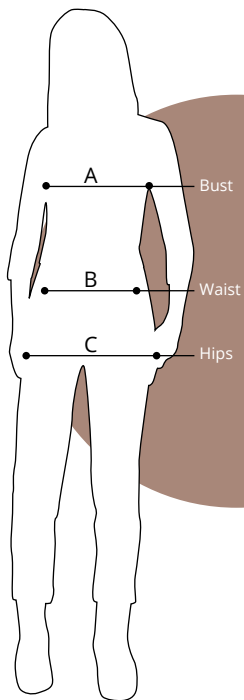

A Bust: measure at the widest part of the bust (nipple height)
 B Waist: measure around your natural waistline
 C Hips: measure around the fullest part (buttock height)
 D Collar: measure at the bottom of the neck
