Pack your world

BAG & PACK

Paris - Hong Kong - Dongguan

Our Story

Bag & Pack was launched in April 2008 by 3 associates all stemming from the luxury packaging world.

From this experience was originated the concept of tailor-made packaging designed for both larger and smaller businesses.

This concept has positioned Bag & Pack as a key supplier of luxury paper and cardboard packaging.

Tailor-made is the cornerstone of our wide range of offers, regardless the quantities requested by our customers.

Our Group

Since 2010 Bag & Pack has become a fully integrated group with the creation of its subsidiary Bag & Pack Hong Kong. This entity was launched to strengthen our international markets outside Europe (USA - South America - Australia - Middle East) by facilitating trades and financials flows.

In 2015, the group expanded to include Bag & Pack Dongguan, a representative office assigned to Hong Kong in charge of quality control, product research and management of our container departures.

From henceforth this office is our inking point in China allowing us to be involved on a daily basis among our partner factories.

In Figures

We are a major provider of luxury goods covering all market segments and particularly the food industry. Consolidated turnover in 2019: 10.5 M€, of which 12% from exports.

Sales

The breakdown by activities

BAG & PACK

Paris - Hong Kong - Dongguan

Our Team

22 people, including 18 in France, work to ensure the smooth processing of the orders entrusted to us by our customers.

9 sales managers and sales directors are in charge of developing the business and 13 people, including 2 designers, are responsible for the successful outcome of the various phases of production.

Once again, we achieved a controlled growth of 13% compared to last year, reaching a figure above 10 million Euros.

Our Factories

Located in the southern part of China, our partnership is established with production units of European standard but also with smaller units for specific products with a very high level of finishing.

The following are produced in these factories:

- Luxury Paper Bags
- Mounted or flat boxes - Cases
- Metal tins
- Fabric pockets (velvet, cotton, satin, organza,...)
- PET tubes
- Accessories

Research Unit

Integrated within Bag & Pack, our designers handle developments with the customer and the product shaping during the approval phase.

Matching construction and printing constraints.

Suggestion of different designs.

Realization of 3D images during the validation phase.

Transfer of production information to the factories. Follow-up of the technical elements in relation with the Dongguan office.

Quality Control

Our quality control is carried out on a daily basis in our 4 partner factories in conformity with a standard drawn up according to the difficulties and particularities of each packaging.

A standard control (printing - manufacturing - packaging) is performed systematically for each manufacture before it leaves the factory.

Our sourcing is conducted according to specific requirements from the French office mainly from the design department.

At the same time and on request, SGS or ASIA INSPECTION companies are solicited for certified quality control.

Production Schedule and Delivery Time

One person manages the departure of each container in collaboration with our forwarding agent in Antwerp.

We need 40 days between the port of Yantian and our customers' stock, plus an average of 45 days for production.

No more than 3 months shall elapse between the date of our customers' orders and the actual delivery. In the case of a prototype, 10 days should be added.

BAG & PACK

Paris - Hong Kong - Dongguan

Delivery

We ship 120 containers per year to Europe and 70 containers to the rest of the world.

We are able to deliver all over the world within a few days by plane according to the customer's needs (special event, festive, presentation of a new collection of products). These departures are under the management of the Hong Kong office in conjunction with our specialist air service providers for Luxury.

We deliver to other factories where our customers sometimes undertake their production.

All our products travel in CIF+, groupage and transshipment are prohibited. We make sure to offer the best services by using world leading shipping companies.
