FÉDÉRATEUR DE SAVOIR-FAIRE

EXPERTISE & INNOVATION

DYNAMIC is a subsidiary of the NADIA GROUP, based in CHOLET, a successful example of this diversified approach, generating multiple sources of added value and providing a buffer from the impact of economic crises.

Emanation of the Nadia company, manufacturer of license plates created in 1962, Nadia Group has been able to diversify its activities and developed to become a multidisciplinary industrial group

structured around six 6 branches of activity, Considered atypical in its composition, Nadia Group masters multiple activities, fed by the know-how of experienced men and women who maintain close relationships with both customers and main actors on the field. They are experts in their profession as manufacturers and in constant research of innovation.
