SAFETY

Improved gate management
for in-and outbound truck flows.
Smarter and error-free dock management.
Contactless mobile app.

RESPONSIBILITY

Meaningful positive impact on wellbeing of staff and subcontractors.
Less fuel used, fewer greenhouse emissions.

See your transport flow

in a whole
new light.

Discover our cutting-edge yard and gate management system.

At Digital Logistic Services, we've researched and developed a connected and flexible solution that combines software and hardware **to streamline your yard and gate management** – trucks, light vehicles and pedestrian movements.

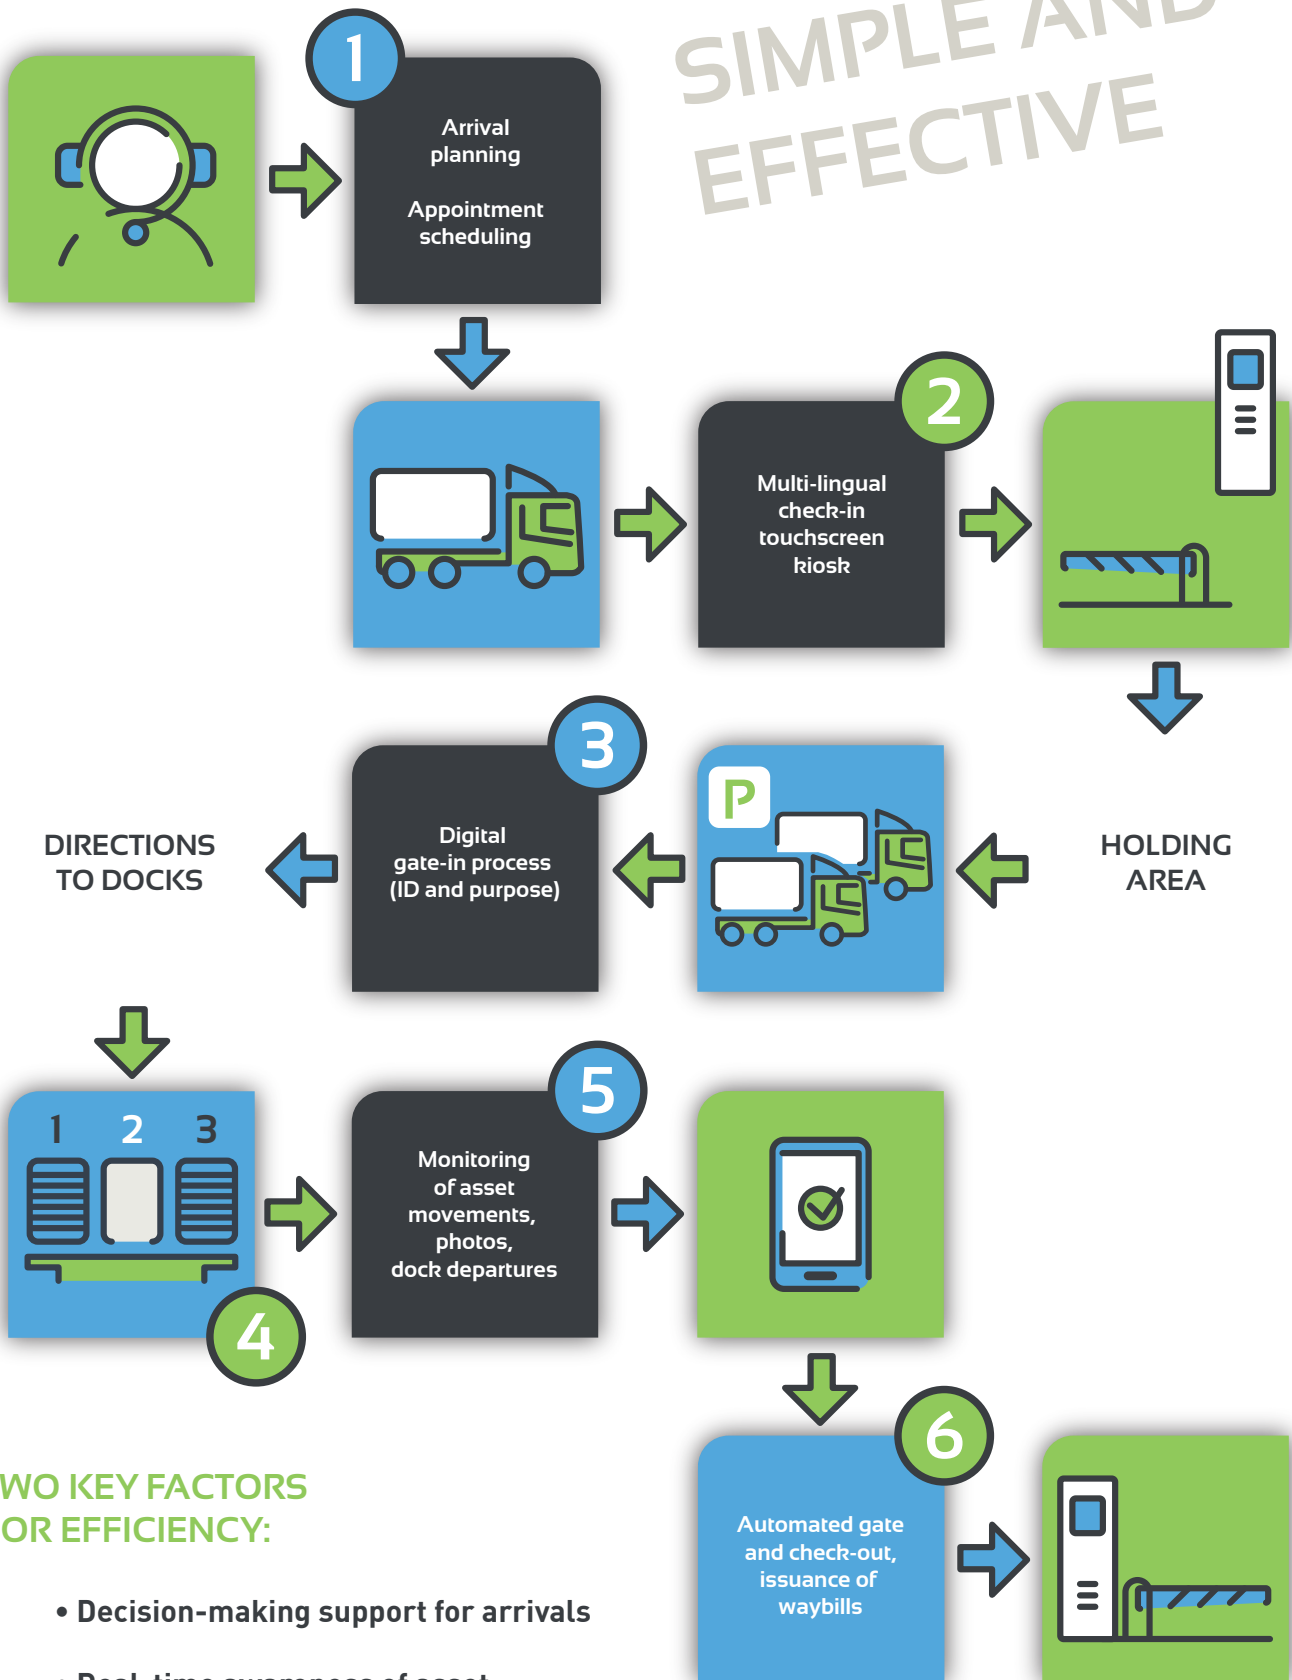

Our solution fits and **operates seamlessly and simply** with your on-site security and protection system.

In just a few months, it yields positive results, helping our customers save time and money right from the start.

With streamlined logistics, you can offer your customers and drivers **better conditions and peace of mind** and by limiting vehicle waiting times and movements, **you'll be helping cut greenhouse emissions.**

At Digital Logistic Services, we deliver sound economic, social and environmental value, allowing you to enjoy secure and optimized transport flows and access management.

A PROCESS
SIMPLE AND
EFFECTIVE

TWO KEY FACTORS FOR EFFICIENCY:

- Decision-making support for arrivals
- Real-time awareness of asset locations on site

streamline

*loading
and unloading
at your yard.*
