Turning Garments Into Icons.

COMPANY PROFILE

Humble Beginings - 90s

Since

1984

Jawaid Bross began its journey 40 years ago, by manufacturing labels and gradually expanded into paper trims and accessories for garments. Our collaboration with T&S Buttons Hong Kong led to the establishment of an international standard metal buttons manufacturing unit in Pakistan.

We have become pioneers in the accessories and packaging industry for garments by offering comprehensive solutions under one roof. From labels and trims to accessories, packaging, and metal buttons, we provide our customers with a diverse array of innovative branding solutions.

JJB
JAWAID BROSS

Every label, tag, and trim tells a story before your garment ever speaks. At Jawaid Bross, we specialize in creating branding elements that elevate products, shape perception, and build trust. From woven and printed labels that carry your identity, to leather patches and metal trims that add character, every piece is engineered with precision and designed to align seamlessly with your brand's vision.

OUR PRODUCTS

Packaging

Comprehensive packaging solutions including tags, inlay cards, belly bands, boxes, and more for branding and premium presentation. Available in eco-friendly and custom finishes with printing, embossing, and foil stamping options. Certified by OEKO-TEX®, FSC®, GRS, and GOTS, ensuring sustainability and quality compliance.

Labels

High-quality woven and printed labels for branding, identification, and compliance. Available in various textures, finishes, and eco-friendly materials with custom weaving and printing options. Certified by OEKO-TEX®, FSC®, GRS, and GOTS, ensuring sustainability and global standards compliance.

Patches

Jawaid Bross is the leading innovator in hi-tech metal trims for the garment industry in Pakistan, proudly holding OEKO-TEX® and Life Cycle Assessment (LCA) certifications. Whether it's heavy-duty denim applications or luxury branding accents, our trims provide a refined, high-performance finish that elevates your products while aligning with global sustainability goals.

TOUR

We organized a therapeutic tote bag painting workshop at the Emdrawsart Studio. Designed as a corporate wellness initiative, the session offered our hardworking female employees a creative escape—an opportunity to unwind, express themselves, and connect beyond the workday.

Through meaningful activities like this, Jawaid Bross reaffirms its commitment to fostering an inclusive, empowering environment where every voice is heard and every effort is celebrated.

QUALITY CONTROL

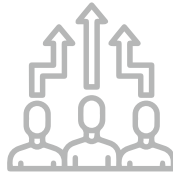

Jawaid Bross serves clients across the globe trusted by top-tier garment manufacturers and fashion brands who rely on our consistency, creativity, and capacity.

Every item is individually inspected for quality, finish, and accuracy before dispatch.

QC data is digitally recorded and maintained for full traceability.

Dedicated QC teams work alongside production to uphold strict quality benchmarks.

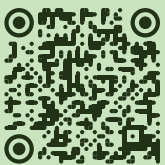

Regular audits and inspections are part of our standard process.

“From label to final packaging, every detail matters”

SUSTAINABILITY

SCAN

VIDEO
TOUR

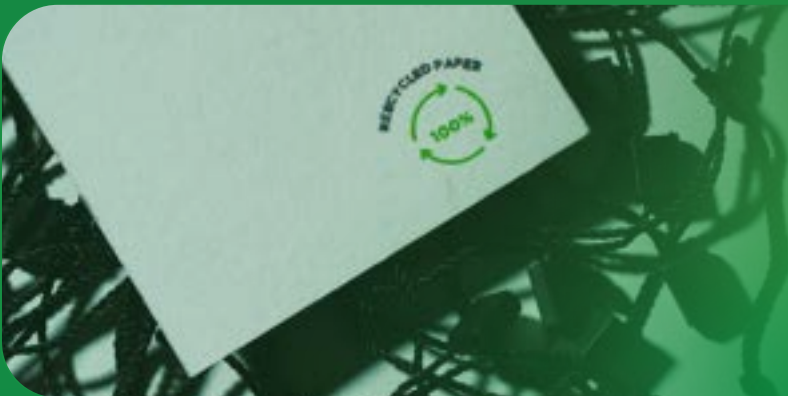

At Jawaid Bross, sustainability is not a side initiative it is woven into how we operate, produce, and innovate. We believe in reducing our environmental footprint while empowering brands to make responsible choices without compromising on quality.

SAVEARTH™

At Jawaid Bross, sustainability is not just about how we operate; it's about what we create.

As part of our SAVEARTH™ initiative, we offer a dedicated line of eco-friendly and recycled material-based products, allowing brands to reduce their environmental footprint while maintaining quality and aesthetic standards.

Recycled Materials

Recycled materials are created by transforming post-consumer or industrial waste into new, usable products. This process reduces landfill waste, conserves resources, and lowers energy use, allowing brands to maintain quality while minimizing their environmental footprint.

Eco-Friendly Materials

These are responsibly sourced, renewable, or biodegradable materials that replace conventional options with lower-impact alternatives. Materials like hemp, organic cotton, Tencel, and sugarcane paper help reduce water, chemical, and energy use, supporting a more sustainable and circular supply chain.

Eco-Friendly Metal Shades

Our eco-friendly metal buttons are developed using cleaner processes that significantly reduce chemical use, water and energy consumption, and greenhouse gas emissions. They offer the same durability and premium look while aligning with sustainability goals for responsible fashion.

MOLDING ROOM

At Jawaid Bross, our in-house Molding Room is the only facility in Pakistan where design meets engineering to bring your branding elements to life with accuracy and consistency.

Equipped with advanced molding technology, our in-house facility allows for intricate and durable designs with rapid prototyping capabilities, enabling faster development and approvals. We maintain and develop custom molds in-house to ensure consistency in quality and finish, while allowing flexibility for client-specific branding needs. Every product from our molding room undergoes strict quality checks, ensuring each piece meets the highest standards of durability and aesthetics.

METAL — TRIMS — LEATHER — LABELS

A photograph of a factory interior, likely a textile mill, with green machinery and a worker wearing headphones. The scene is dimly lit with greenish tones. The text 'SOCIAL COMPLIANCE' is overlaid in large white letters.

SOCIAL COMPLIANCE

At Jawaid Bross, we uphold global standards of ethical and responsible practices. Aligned with SEDEX, HIGG Index, and BSCI, we ensure fair labor, safe workplaces, and reduced environmental impact meeting the expectations of leading international brands.

Fair Labor Practices

We are committed to providing a safe, inclusive, and supportive work environment where employee rights are protected and respected.

Workplace Safety

Dedicated safety measures, training programs, and welfare initiatives are in place to ensure the well-being of all employees.

Global Certifications

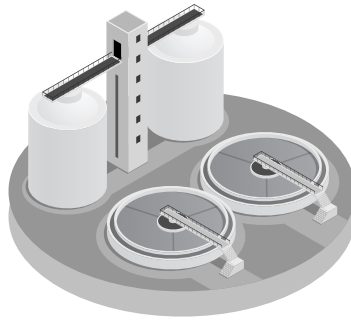

Our compliance with SEDEX, HIGG Index, and BSCI reflects transparency in our operations and adherence to internationally recognized

“meeting the expectations of leading international brands.”

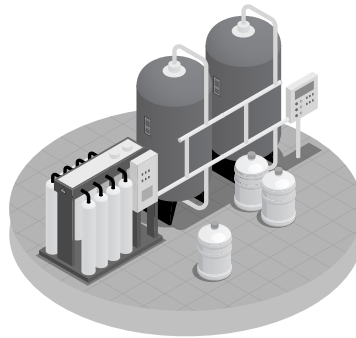

RO & ETP PLANTS

At Jawaid Bross, we prioritize sustainability and safe resource management through our Reverse Osmosis (RO) Plant and Effluent Treatment Plant (ETP). These facilities ensure clean water for operations and minimize environmental impact by treating and recycling wastewater.

ETP Plant

Treats industrial wastewater, removing harmful substances before safe discharge or reuse, reducing environmental pollution.

RO Plant

Provides purified water for production processes, ensuring product quality while conserving resources.

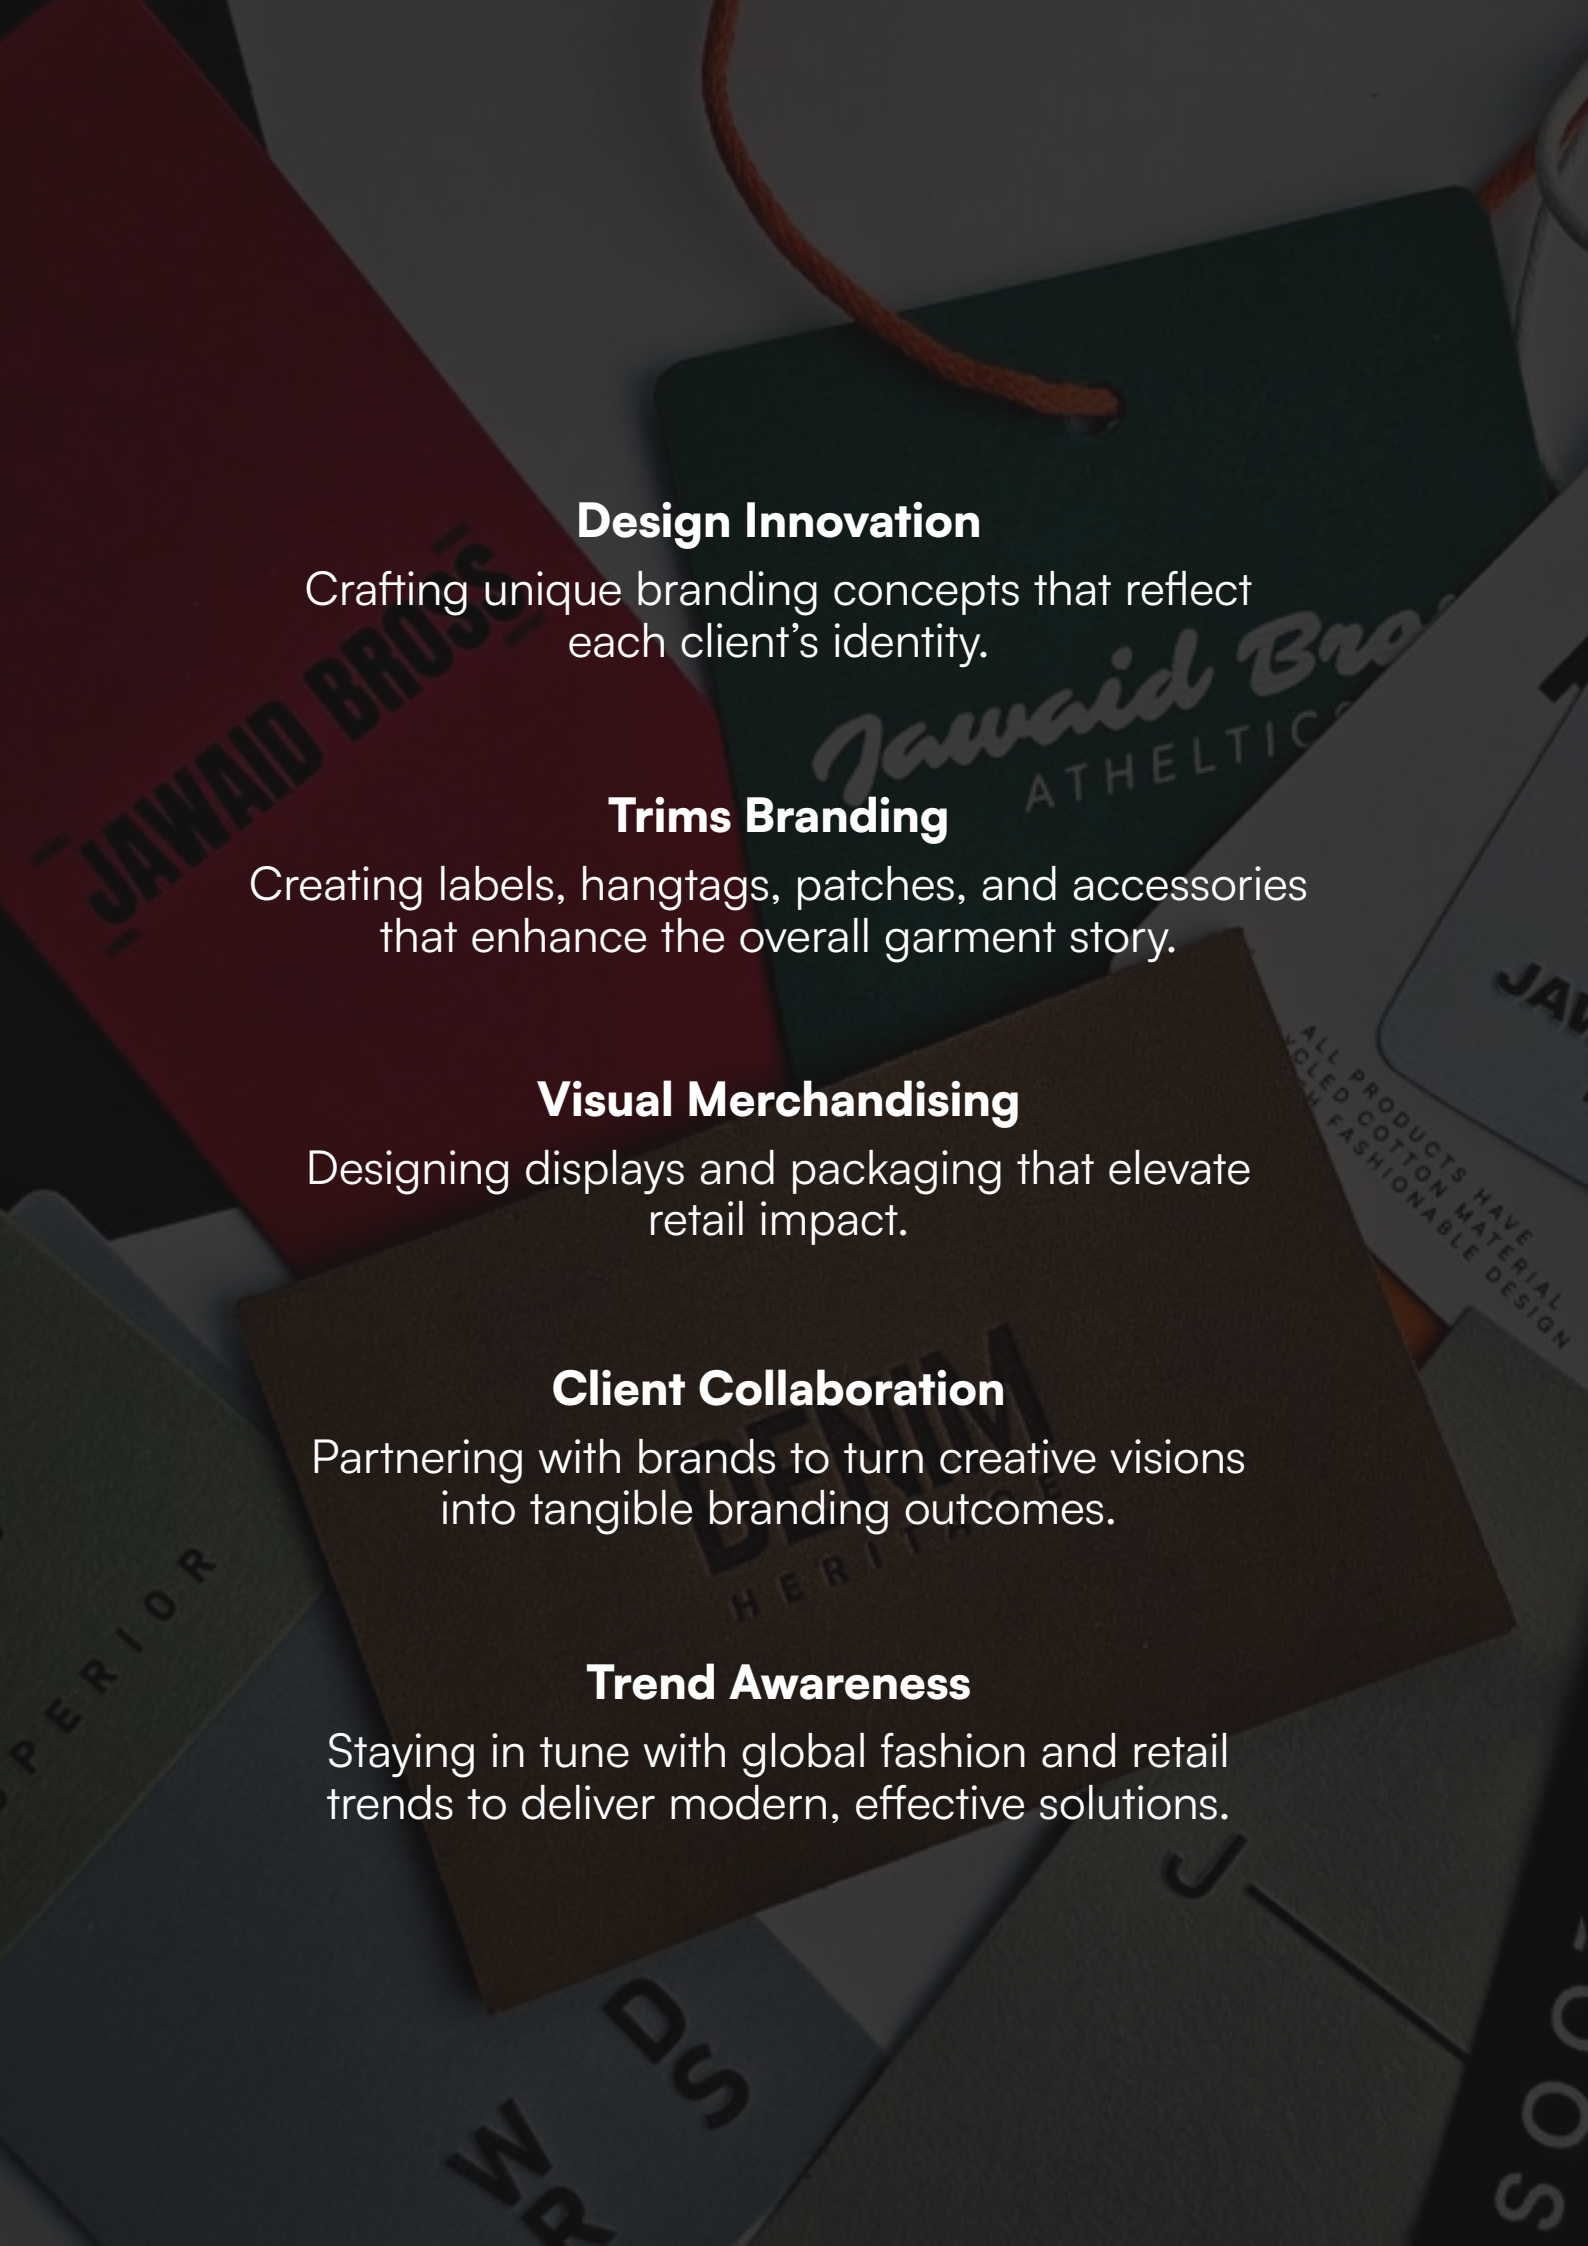

Both plants support our long-term commitment to eco-friendly operations by conserving water and protecting the environment.

CREATIVE DEPARTMENT

Our Creative Department is dedicated to shaping brand identity through visual merchandising and trims branding. From labels and hangtags to packaging and retail displays, the team creates innovative solutions that highlight product appeal and strengthen brand presence.

Design Innovation

Crafting unique branding concepts that reflect each client's identity.

Trims Branding

Creating labels, hangtags, patches, and accessories that enhance the overall garment story.

Visual Merchandising

Designing displays and packaging that elevate retail impact.

Client Collaboration

Partnering with brands to turn creative visions into tangible branding outcomes.

Trend Awareness

Staying in tune with global fashion and retail trends to deliver modern, effective solutions.
