For **50 years**, Aignep is a leading manufacturer of compressed air and industrial fluid **FITTINGS**. Our company is driven by a constant innovative spirit which has brought us great results in various sectors of industrial automation. Our products are widely known for their high quality and Italian design. Pneumatic cylinders, solenoid valves and FRL air units are parts of a complete range of **AUTOMATION**. We produce also fluid process control valves "**FLUIDITY**", compressed air pipeline "**INFINITY**" and an extensive range of **QUICK COUPLINGS**. All our products are engineered by a dedicated professional team and manufactured in Bione "Italy" in the modern headquarter, **25.000 m²**. More than **14.000** standard items in the catalogue and numerous special versions on demand. Every year Aignep invests in automation innovation and services to satisfy the request of a worldwide customer base. Order to be closer to our customers our company has **11 Branches**: USA, Spain, France, Switzerland, Brazil, Colombia, China, Russia, Germany, México and Vietnam, becoming a multinational Group.

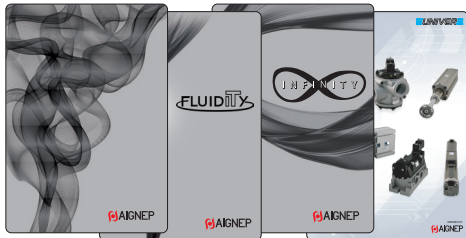

37% of the energy used by Aignep comes from renewable sources such as the **3.500 m²** photovoltaic plant and a hydroelectric power plant owned by the Holding "Bugatti Group".

In 2025, AIGNEP S.p.A. completed the acquisition of **UNIVER Automation** pneumatic business unit, strengthening its global market position while expanding its product portfolio, technological expertise and production capacity.
