

BACKER
EVERYDAY • EVERYWHERE

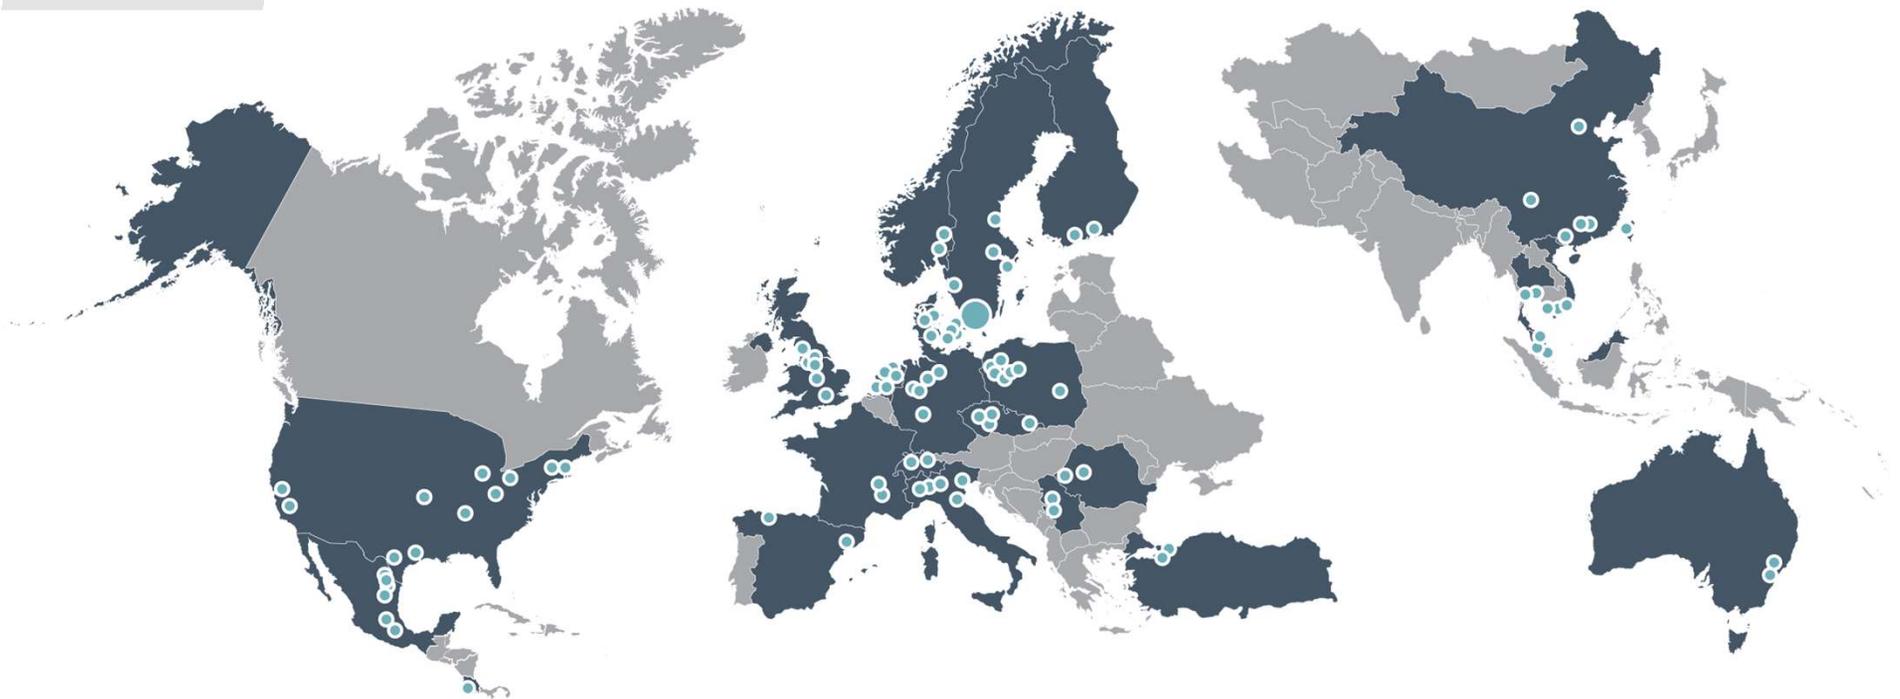

Welcome to Backer, the original since 1921

- 1921 Christian Backer patented today's tubular heating element.
- 1949, Backer AB was founded in Sösdala, south of Sweden.
- Today Backer has a production area of 22 000 m² and has advanced capabilities in laboratory testing, engineering and agency certification.
- Backer AB is the headquarters for the Backer Group, with over 70 companies and 10,000 employees worldwide.
- The Backer Group is the leading supplier in the heating element industry.
