

Improve your management processes and empower your front-line teams

Standardize routines, perform mobile checklists and audits, collaborate seamlessly, and track your performance - all from one easy-to-use platform.

TRUSTED BY OPERATIONAL EXCELLENCE LEADERS

SIEMENS

MARS WRIGLEY

" The primary objective was to improve communication, identify issues, conduct better Gemba walks with supervisors, and help with shift handovers. "

STÉPHANE BÉRUBÉ
PRODUCTION MANAGER

MARTIN LAROCHELLE

Do you experience these management challenges on a daily basis?

✘ Few management standards

- Low adherence to management agendas
- Procedures and standards rarely consulted

✘ Supervision tools poorly suited to the field

- Management in firefighting mode and reactive work
- Transcription and cumbersome paper forms
- Lack of structure around supervision
- Rarely any documentation of issues and non-conformities

✘ Difficult communication and problem solving

- Loss of information through emails, word of mouth and text messages
- Difficult to prioritize and track corrective actions
- Impromptu or poorly prepared meetings
- Support teams and departments in silos

✘ Lack of visibility on performance

- Lack of tools to train field managers
- Difficult to align daily management with objectives
- Lack of visibility on problems and operational issues

Give your teams modern management tools

Discover the most common use cases for manufacturers

Leader Standard Work

Tiered-Meetings Structure
and Daily Huddles

Gemba Walk and Checklists

Escalation and Problem-Solving
Mechanism

Break up the silos. Empower all tiers and teams.

Modern tools at all levels of the organization

Executive Management

Break down silos and ensure effective collaboration across departments and levels.

Supervisor & Team Leader

Ensure a structured presence in the field to support your objectives for the day and the week.

Operator

Consult the step-by-step checklists. Gain autonomy to perform validation tasks with forms.

Production Manager

Structure the standard management work of team leaders, operators and foremen.

Improvement Manager

Collect improvement opportunities directly in the field, then launch action plans and projects.

Health and Safety Specialist

Place health and safety prevention at the forefront in the daily management of operations.

Maintenance Manager

Actively collaborate as a team on maintenance issues and lead your maintenance meetings.

Quality Manager

Gain visibility into your level of compliance. Inspect, take action and track your performance.

Engineering Team

Deliver tasks and projects on time leveraging action lists, Gantt, and kanban. Work closely with frontline teams.

Why do manufacturers love Tervene?

- ✔ Structure the daily work of the supervisor and manager
- ✔ Gain visibility on management performance and compliance with standards
- ✔ Ease communication and accelerate problem-solving
- ✔ Reduce administrative burden, data manipulation, and loss of information
- ✔ Maintain a safe work environment and support the EHS prevention program

It adds structure to my workday as a manager. It really helps me to track and follow up from one meeting to the next.

Trusted by leaders around the world

SIEMENS

manac

MARS WRIGLEY

The Tervene application allows us to support our supervisors or the introduction of our new supervisors.

MARTIN MONTMINY
COORDINATOR

Tervene allows me to better organize and monitor our issues. It's also an excellent way to communicate and share information.

GILBERT LAROCQUE
QUALITY MANAGER

Managers lead morning meetings with their teams and support departments. They take note of the discussion points, assign tasks and follow their progress.

PHILIPPE FUCHS
OPERATIONAL EXCELLENCE LEADER

Tervene is now one of our key processes at Abipa: communication, support, corrective action, and continuous improvement with QRQC.

STÉPHANE BÉDARD
PRODUCTION MANAGER

Tervene is essential for monitoring our daily operations and allows us to keep better track of our task and action plans.

RUI CABRAL JOHNSON
DIRECTEUR GÉNÉRAL

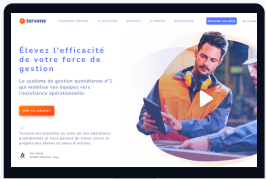

We work more as a team and less in silos, and we collaborate more on resolving issues.

STÉPHANE BÉRUBÉ
PRODUCTION DIRECTOR
