TRANSFORM YOUR IVALUA UPGRADE JOURNEY INTO EFFORTLESS PROGRESS

HAVE YOU FACED THESE CHALLENGES DURING YOUR IVALUA UPGRADE PROCESS?

‖ Time management

‖ Stability of ongoing system use

‖ Risk of system failure after the upgrade

‖ Unclear meaning of new features ("What does this new field do here?")

‖ Interfaces to the (SAP). Backend no longer function properly

EXPENSIVE AND TIME-CONSUMING

MAKE YOUR UPGRADE A SMOOTH AND SUCCESSFUL STORY WITH US

‖ Explain and guide you through new features

‖ Timely project scheduling for seamless execution

‖ Maintain stability through configuration freeze

‖ Avoid complex enhancements before and during the upgrade process

‖ Pro-active adjustments to interfaces between Ivalua and your (SAP) backend (utilize the power of PIA*)

‖ Thorough test case preparation for robust performance

‖ Continuous support during the "Hypercare" phase
