**IQ Plus:
Sustainability Risk
Intelligence for Global
Supply Chains**

EcoVadis Sustainability Intelligence Suite

The Solution

IQ Plus is a cutting-edge tool built to profile and map your entire supply base for ethical, social and environmental risks by incorporating inherent industry and country risk and and company-level sustainability data. You get access to a fast and actionable risk management solution to help meet compliance requirements and implement your company's sustainability strategy without having to contact your suppliers.

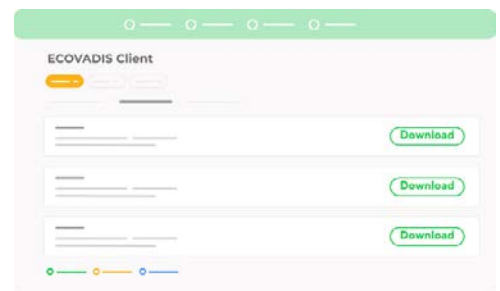

Detailed Supplier Profiles

Sustainability profiles based on country, industry and company-related risks, enriched with your procurement data. Drill down into risk performance across four theme areas and 21 criteria.

Company Specific Documents

Fast access (<48h) to relevant public documents, such as ISO Certifications, Code of Conduct, Human Rights Statements and more through AI Sustainability Data Mining (SDM).

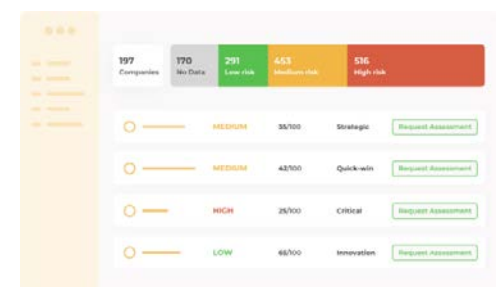

Live News Monitoring

Receive deeper, up-to-date risk information relevant to your supply base through the monitoring of thousands of credible news sources for news whose legitimacy, accuracy and relevance have been validated by analysts.

IQ Plus and regulations

Address the transparency requirements of growing global supply chain laws such as LkSG, French Duty of Care, the upcoming EU Directive on Due Diligence, and more. Prioritization and mitigation recommendations help companies with their compliance measures.

Full Supplier Coverage

Trusted Data from 180k+ Assessments
