@sixt7sarl

A new bio-cleaning technology for air remediation !

NOMAD
A PROTECTION BUBBLE

NOMAD, SMALL BUT STRONG !

Small and light like your smartphone, the NOMAD is an **ideal protection in all public places** such as vehicles, shops, reception points, cash registers, hotel rooms, doctors' surgeries, offices, meeting rooms...

Antibacterial, antiviral, NOMAD makes it possible to create **a real bubble of protection in confined spaces, thus protecting against all contaminations airborne** and also keeps mosquitoes away!

Emma & Nella, Cubusan... What's that?

Don't be fooled by their charming little names! Emma and Nella are fantastic warriors! Cubusan is a true samurai!

They reliably remove **all viruses, Air bacteria and fungi** and all forms of pollution, keeping **your space healthy and safe!**

How does it work?

The patented DBD-Plasma-Lyse® and Plasma STEREX® technologies enable the use of **a new air decontamination process** working by the transformation of pollution molecules into their original components.

No filters, no waste, no chemicals and therefore no secondary pollution!

Environmentally friendly, zero ozone, zero health risk!

Tested and Certified !

DON'T FORGET... YOU ARE WHAT YOU BREATHE !
