We are perfectionists seeking the utmost refinement with sincerity, passion and determination. We produce the most aromatic cognac in the world for those who enjoy the finest things in life."

Cyril Camus

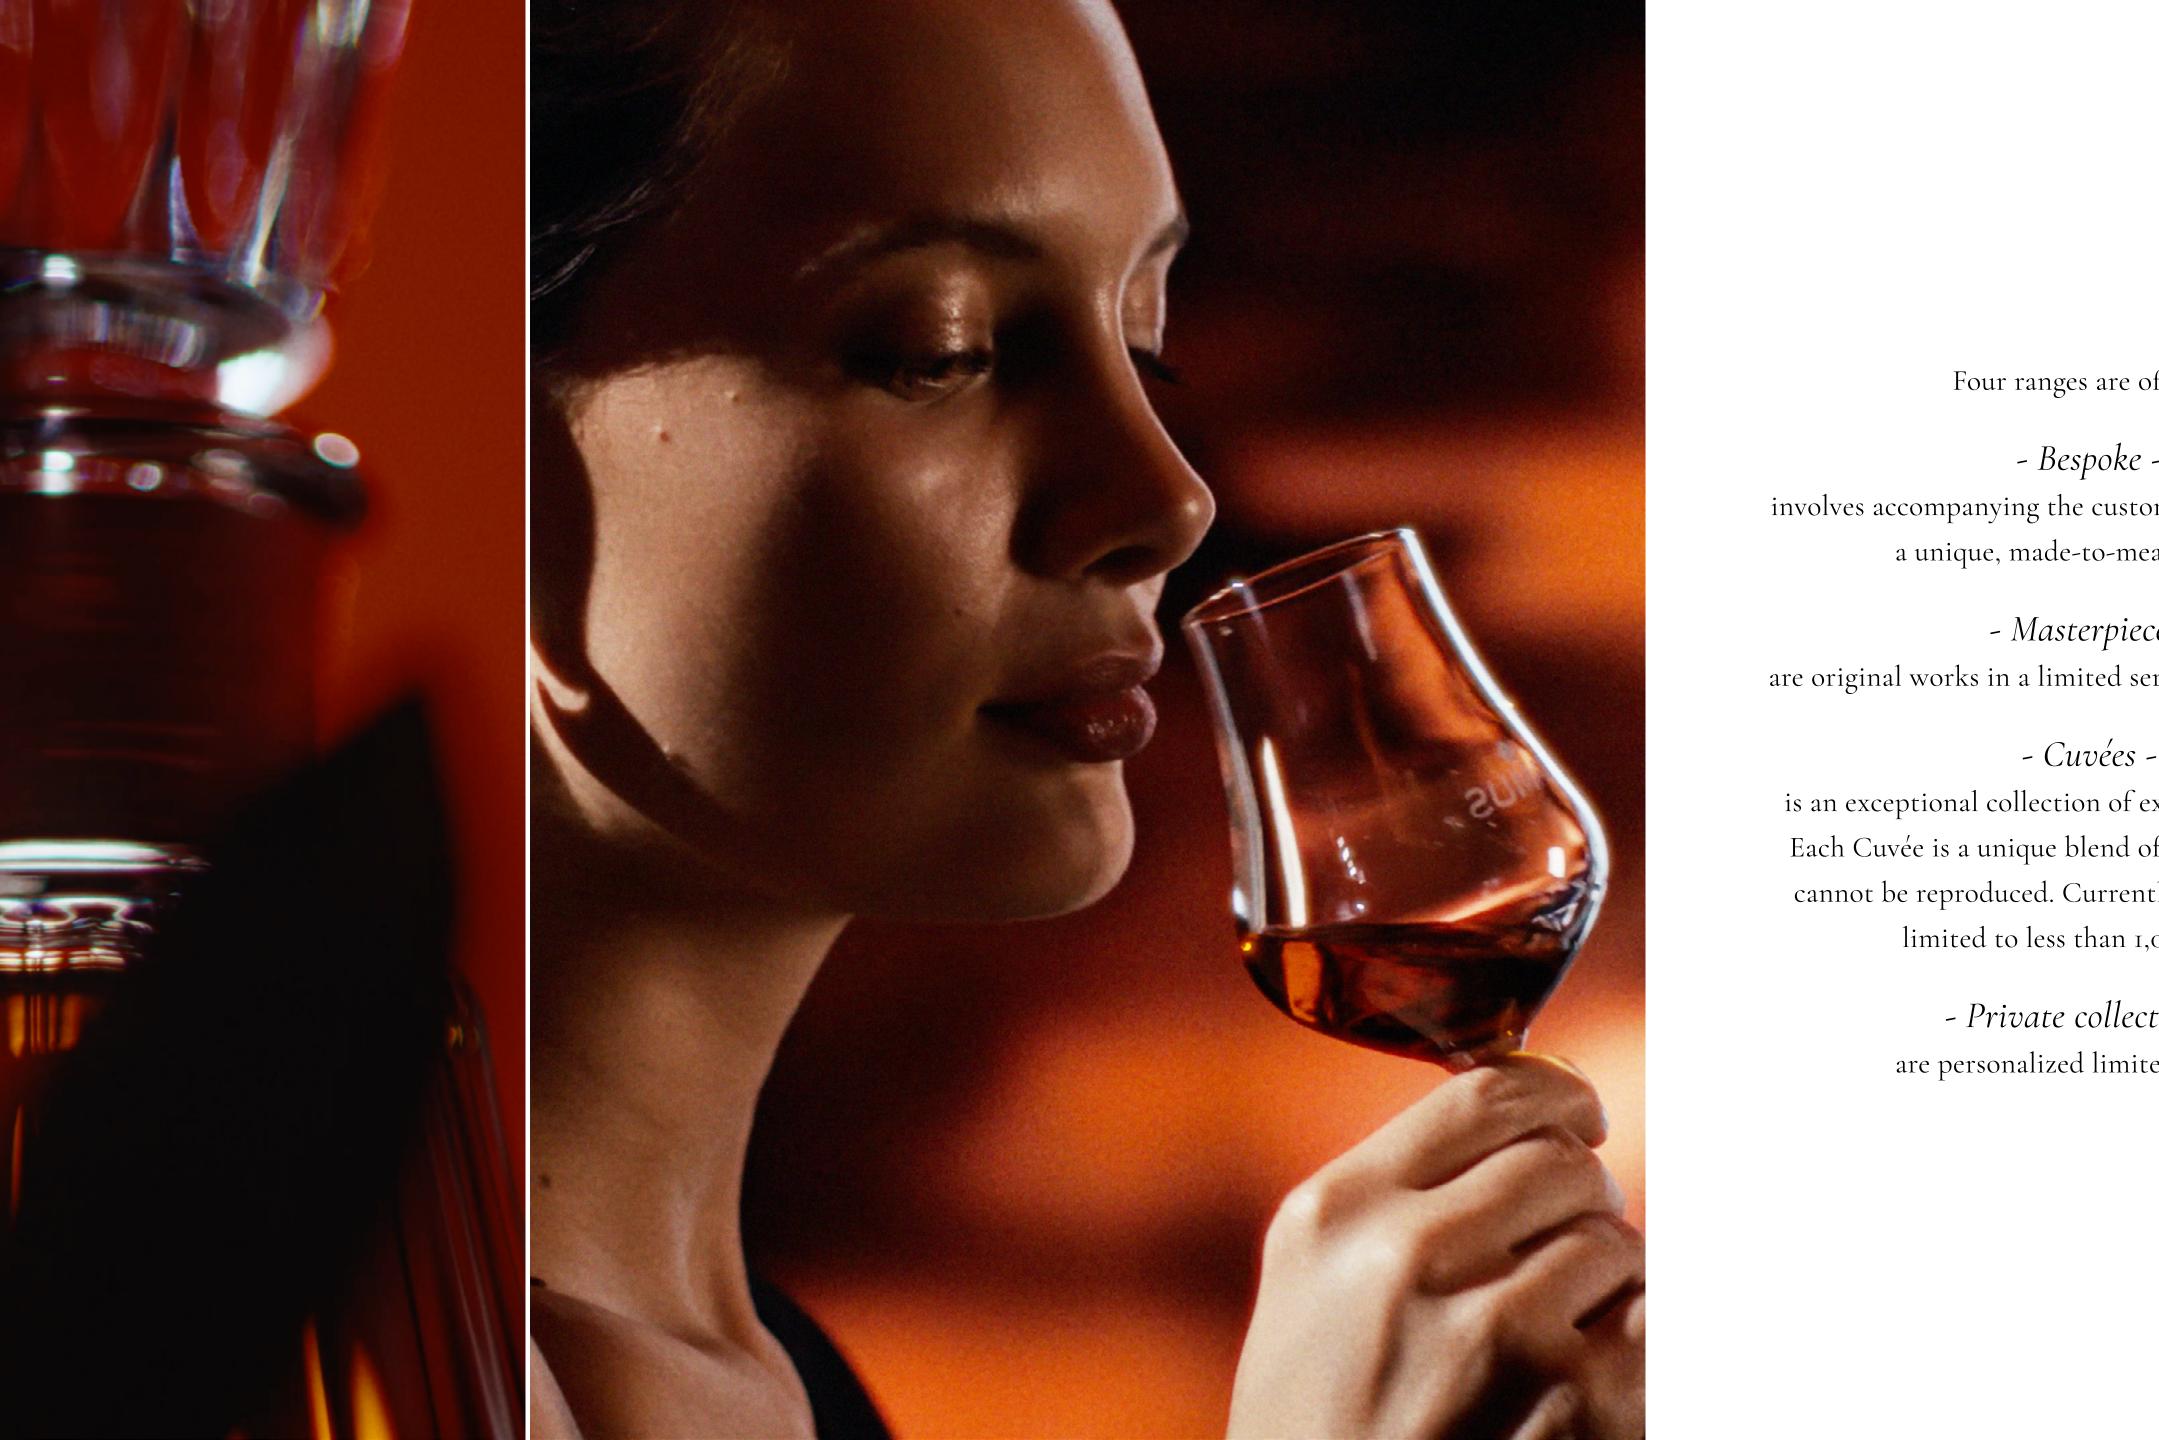

The creations of Les Ateliers Camus are like works of poetry, they hide a unique experience for those who wish to discover it. This experience is based on the intimate union of an exceptional cognac and a work of art crafted by human hands.

Faithful to its tradition and top-level craftsmanship,
Cyril Camus pushes the limits of creativity. From
there, the outcome all depends on Julie Landreau's
ability to bring that creativity to the cognacs.
Blurring the line between craftmen and artists, the
extensive technical knowledge of Les Ateliers
Camus feeds the creative freedom it takes to make
its products take flight.

Les Ateliers fuels its quest for excellence by mastering the skills inherent to fine craftsmanship, continuously adding on new skills to unleash ever more creativity and perfection.

Janaïna Milheiro to combine her mastery of feather art with Camus cognacs.

This Cuvée, the seventh of its kind, christened 4.186, is a blend of flour powerful, complex and elegnant eaux-de-vies. The mysterious 186 represents the total age of these cognacs. Electrum, like the alloy of gold and silver used by the Romans to mint their currency. Called green gold, when it is produced by human hands, the alloy is composed of 58.3% gold, 32.5% silver, 9% copper and 0.2% zinc. Using this composition as a guide, Julie Landreau, our Cellar Master, has created a unique blend whose proportions match those of the precious alloy.
