

**SILOTITE<sup>®</sup> Pro 1800**  
A Product of Silotite

**SUSTANE<sup>™</sup>**

# The Power of Pro with 25% Post-Consumer Recycled Content

RecyClass **25 % RECYCLED PLASTIC**

\*100% post-consumer origin (PCR)  
Certification code RC112-BER-09-24-KIW-FV

**Made with Sustane<sup>®</sup>  
25% post-consumer  
recycled content**

**24% less  
environmental  
load\*\***

**20% longer reel  
length = more bales  
per reel<sup>^</sup>**

**20% less reels to  
handle and transport**

Introducing **SilotitePro1800 Sustane**.

Part of Berry's B Circular Range, a testament of Berry's customer promise and our ongoing commitment to delivering sustainable solutions supporting your goals.

**SilotitePro1800 Sustane** combines the benefits of our Pre-orientated Pro Technology with recycled content, resulting in less film usage and an improved environmental profile.

Delivering high levels of technical performance, **SilotitePro1800 Sustane's** longer length allows you to wrap more bales per reel, saving time and preserving silage quality.

Through lightweighting and the incorporation of recycled content, the environmental load of **SilotitePro1800 Sustane** 23 µm film (with 25% PCR) is ±24% less than our standard 25 µm film (with 0% PCR), supporting the circular economy and helping to divert waste from landfill.

**SilotitePro1800 Sustane** has been certified by RecyClass, offering users full traceability of recycled content in terms of chains of custody.

Conveniently packaged in a PE sleeve allowing balewrap and outer packaging to be recycled together, eliminating the need for separation.~

- **RecyClass certified PCR content** > improved environmental profile^
- **Time savings** > more bales wrapped/hour^
- **PE Sleeve packaging** > no bulky boxes
- **Recyclable**~ > recycle sleeve and film together
- **20% less reels needed**^ > less transportation and storage

## Sustainable Agricultural Solutions From Silotite

### Specifications – SilotitePro1800 Sustane

Width (mm)	Thickness (µm)	Length (m)	Packaging	Colours Available
750	23	1800	Sleeve	<input checked="" type="radio"/> Green <input type="radio"/> White

\*\*Calculated using the equation in the Circular Stretch Film Project Life Cycle Analysis (LCA) from MPR&S published 26th February 2021.

^Compared to Silotite Original 25µm, 1500m film.
