

YOUR BIOGAS PROJECT :

**AGRICULTURAL BIOGAS PLANTS, FOOD WASTE AND
CODIGESTION SPECIALIST**

**LET'S VALUE YOUR FEEDSTOCK INTO
DECARBONATED ENERGY!**

Methalac

YOUR PROJECT

Our Solutions

1

STUDY / FEASIBILITY

We define efficiently the best way to make your project successful, optimizing your investment, technology and biology.

2

DESIGN

Methalac's integrated engineering office can size your biogas plant and deliver flow charts, layout, drawings, 3D's, technical study and equipment details...

3

INSTALLATION

Our experienced technicians install high end and recognized biogas equipment ensuring a performant biogas production process.

4

COMMISSIONING

Our engineers design the automation system controlling remotely the whole unit and join forces with our biology department to commission your biogas plant on-site and train your operating team.

5

MONITORING

We offer service contracts to monitor your plant in real-time, our assistance is available 24/7. We ensure the electrical, mechanical and biological monitoring of your plant to optimize its profitability.

Let's create great value out of your feedstock!

Operating a biogas plant valorizes agricultural, agro-industrial & foodwaste feedstocks to produce green energy (biomethane RNG, green fuels NGV), heat and power cogeneration and renewable fertilizers.

Your biogas plant operates 24/7 all year round regardless weather conditions, season, or other external factors.

**Your biogas plant
Decarbonated energy and income diversification!**

METHALAC FACTS & FIGURES

10 Years
of Expertise

60 Biogas Plants
in Operation

10 New Units per
Year

25 Projects
Registered in 2023

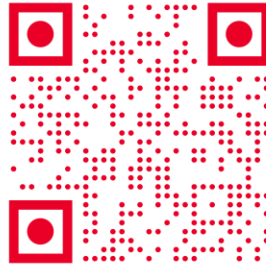

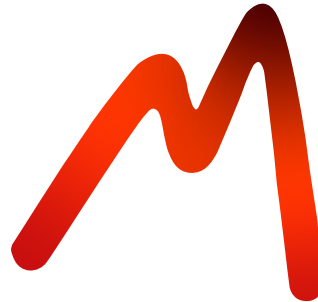

50 Engineers
and Technicians
at your Service

*Our expertise, experience, and skills,
all that we have acquired over the
last decade, our entire team are at
your service!*

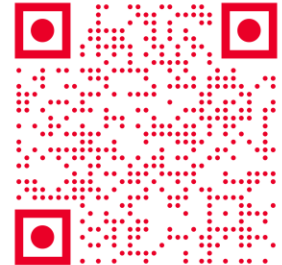

*We guarantee the design, the
installation and the performance of
your biogas plant, to maximize your
investment and to generate highly
valuable decarbonated energy.*

With all my wishes of success!

*Laurent Pauchard
CEO & FOUNDER*
