# Expensya

## Best of both worlds

### Historical Solutions

- ✓ Functional completeness
- ✓ Advanced customizations
- ✓ Multiple Integrations
- ✓ Used by large accounts and international companies
- ✓ High adaptability

### EXPENSYA

- ✓ 1st Solution in Europe to disrupt (Cloud, Mobile, AI, Machine Learning, Big Data, etc...)
- ✓ 1st solution to offer digital archiving with probative value
- ✓ Expenses: Data extraction with our OCR+ technology
- ✓ An exceptional R&D team (60 engineers) to improve the agility of our product
- ✓ Implementation: A team of experts to support you
- ✓ Transport: Business travel, sustainable mobility packages
- ✓ Simplified payment processes

### New Generation

- ✓ Partial Technological disruption (Cloud, Mobile, OCR, ...)
- ✓ Ergonomy and simplicity
- ✓ Dematerialisation
- ✓ Time savers
- ✓ Project management according to the clients' needs

# A unique vision

## The end of traditional expense reports

We accompany you before, during and after the deployment

**Thanks to 4 key strategic axes**

### Functional Depth

---

Expensya suggests a complete functional depth for the overall professional expense management process.

### Partner Ecosystem

---

Our strategic partners cover the overall ecosystem : travel, payment, VAT, ERP, etc... Expensya is the only french solution that's integrated with Uber.

### Proprietary Technologies

---

R&D is part of our DNA and we are developing innovative proprietary technologies that are also reused by numerous software companies

### Accounting Expertise

---

Our partner Chartered Accountants trust us for the quality of our intelligent recognition technology as well as for the accounting reliability of our solution.
