ENJOY

EVERY GLASS OF WINE

ANYTIME YOU WANT

albicchiere

Albicchiere creates **the perfect glass of wine**. It serves it at the **right temperature** and keeps it **fresh as if it just popped the cork**.

8x LONGER

Than any other wine preservation system

**PERFECT
TEMPERATURE**

Truly enjoy your wine as it was intended to be

THE LAST **GLASS** WILL ALWAYS BE AS **FRESH AS THE FIRST**

Always ready-to-go
Easy to use: insert, pour, enjoy

Fast cooling system
5x Faster than a standard wine cellar

Change your wine in seconds
Even if you drink just one glass

Battery pack for mobility
Bring it wherever you want

No cleaning process required
Even with repeated use of different wines

Recognizes wine automatically
And brings it at the ideal temperature

Zero service cost
No needles or gas refills required

Parental control
Protects your wine from unauthorized users

The **eco-conscious** smart wine dispenser

Choose the mode according to your needs

Albi allows you to choose between three different cooling modes. You choose whether to optimize consumption, minimize noise or have wine as soon as possible.

AI powered energy saver

The dispenser can analyze your usage habits to suggest the best time to be activated via a notification on your phone to make the most of the cooling system and reduce energy consumption.

ANY WINE YOU WANT

You can now have new experiences with any wine selection at its best. Albicchiere meets all the needs and expectations in terms of wine, creating a universal solution for your wine in bottles or **Smart Bags**.

GUARANTEED QUALITY

Blockchain technology to track your wine from the winery to your home

GREEN ALTERNATIVE

The use of Albicchiere solutions helps you to reduce CO2 emissions by 40%

Manage the wine in your dispenser **from anywhere**, thanks to our **app** and any **voice assistant**.

**REMOTE
CONTROL**

**PERSONAL
SOMMELIER**

**WINE
MARKETPLACE**

CREATE YOUR PRIVATE CANTINA

Take care of your personal wine collection

SET THE TEMPERATURE

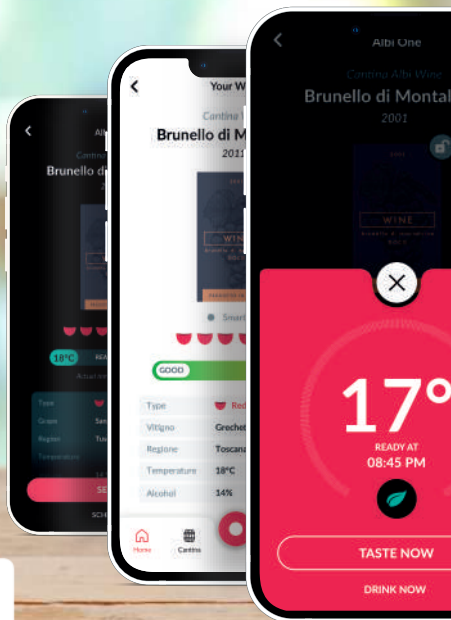

Schedule your wine to be ready when you need it

RECEIVE CUSTOM SUGGESTIONS

Based on your meal and your tastes

NEVER RUN OUT OF STOCK

Buy when your wine is about to run out

Albi PRO

**THE PROFESSIONAL
SOLUTION FOR THE
WORLD OF WINE**

albicchiere

DELIGHT YOUR CUSTOMERS WITH THE **PERFECT** **GLASS OF WINE**

Albicchiere creates the perfect glass of wine.
It serves it at the right temperature and
keeps it fresh as if it just popped the cork.

**PERFECT
TEMPERATURE**

Serve your wine at the perfect temperature

**PRESERVE YOUR
WINE FOR LONGER**

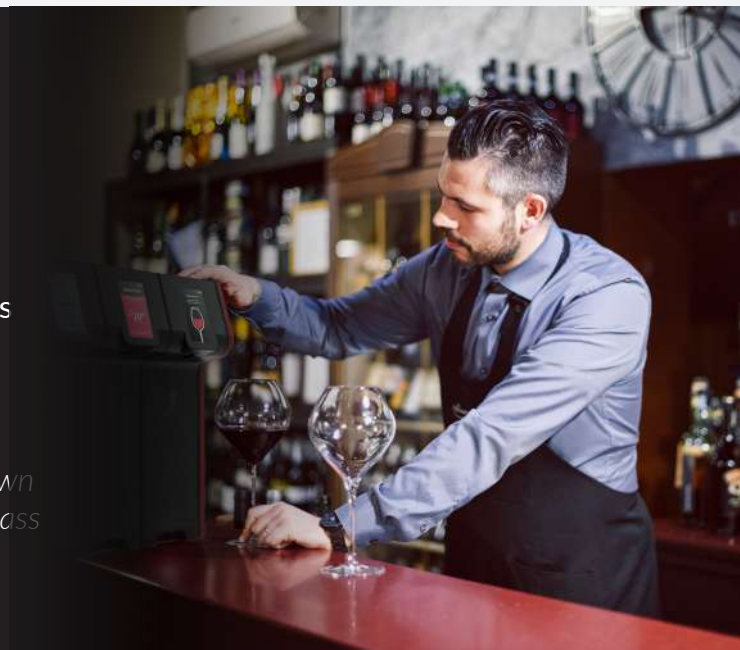

Up to 6 months from first opening

SELL WINE BY THE GLASS

**8x
MARGINS**

Wine by the glass increases your
margins by 8x compared to a
traditional bottle which only gives
you a 2.5x margins on average.

*Albi Pro is the ideal solution for selling your wine by the
glass. You can preserve your wine instead of pouring it down
the drain. You'll delight your customers with the perfect glass
of wine while increasing sales and maximizing profits.*

THE LAST GLASS WILL ALWAYS BE AS FRESH AS THE FIRST

Always ready-to-go
Easy to use: insert, pour, enjoy

Fast cooling system
5x Faster than a standard wine cellar

Change your wine in seconds
Even if you drink just one glass

No cleaning process required
Even with repeated use of different wines

Recognizes wine automatically
And brings it at the ideal temperature

Zero service cost
No needles or gas refills required

Plug and play
No need for technical assistance or specialized personnel during the first installation. It's ready to use upon delivery.

INDEPENDENT UNITS

NO SERVICE INTERRUPTIONS

Easily switch wines or dispensers without service interruptions. You can replace one machine while keeping the remaining ones running.

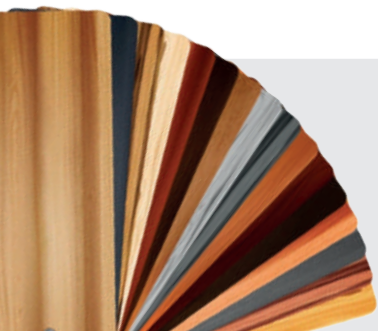

EACH UNIT HAS ITS OWN TEMPERATURE

Each dispenser is an autonomous machine with its own cooling system and settings. This means you can have different wines with different temperatures at the same time.

PERSONALIZE IT

Give your Albi Pro its own style to make it fit with your business locations or give it a unique look. The choice is yours!

THE **SMART BAGS**

THE MORE SUSTAINABLE CHOICE

LONG WINE PRESERVATION
UP TO 6 MONTHS FROM FIRST OPENING

	ALBI PRO		up to 26 weeks
	Argon Gas		up to 3 weeks
	Corked Bottle		up to 1 week
	Vacuum Pump		up to 0.5 weeks

GUARANTEED QUALITY

Blockchain technology to track your wine from the winery to your home

GREEN ALTERNATIVE

The use of Albicchiere solutions helps you to reduce CO2 emissions by 40%

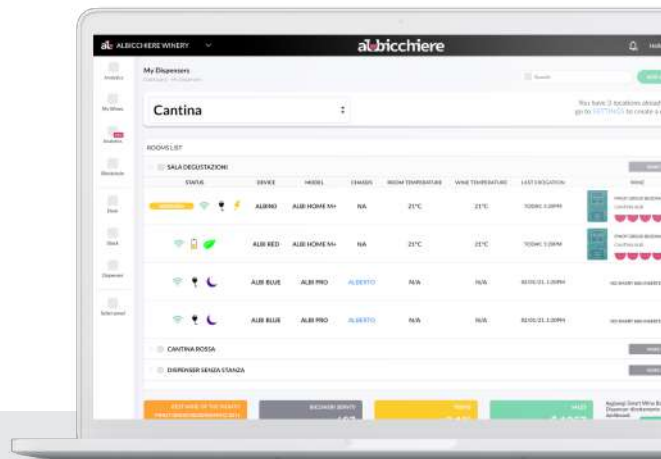

GET INSIGHTS ON YOUR PERFORMANCE

MANAGE YOUR DISPENSERS WHEREVER YOU ARE

Whether at your business location, traveling, or at home, you can always check your dispenser's status. With our user-friendly technology and your favorite device, on the web or via app, you easily control your Albi ecosystem.

SWITCH BETWEEN LOCATIONS

You can switch between your business locations and get an overview of your wine's status, together with alerts about any issues you may want to solve.

INSIGHTS SMALL DATA MARKETING

WINE PERFORMANCE

Discover how your wine is performing, how much revenue it generates through time, and what your most sold wines are. You can get an overview or go as in-depth as you wish, grouping by dispenser, location, or even single wines to get all the data you need to optimize your wine strategy.

IN-DEPTH DISPENSER ANALYSIS

Get to know everything you need about your dispenser in real-time. Dispenser status, residual quantity, log consumption, and analytical data will help you understand what works best and how to improve your wine selling strategy over time.

COMPETITIVE ADVANTAGES

The Albicchiere solution adopts a modular system that brings numerous advantages over the main competitors.

Thanks to this, it is possible to set different temperatures for each wine offered. Furthermore, in the event of maintenance or breakdowns, it will be possible to maintain operations by replacing a single unit with a backup one.

		Professional argon serving systems
Fast wine replacement	about 10 Seconds	about 1 minute
Wine temperature control	for each single wine	groups of 2 o 4
Wine label information	automatic	manual entry
No need for sanification after every change		
No Argon gas. Zero service costs		
Individual units. No service interruptions		
Plug 'n' play. No need for installation assistance
