

SUN WAYS

New solar tracks

Solar innovation

1. Sun-Ways is a technical device with **PCT patent** application
2. Sun-Ways allows quick installation and depose of **removable** solar power plants between the rails of a railway
3. Sun-Ways meets safety standards and **maintenance needs** of railway infrastructure

In short

01

Solar rail power plant

No change to the
landscape

Removable

02

Use on large surfaces

Quick and easy installation

Pending PCT patent
application

03

Railway requirements

Safe passage of the train

Maintenance work on the tracks
possible

Potential

1,160,000km

WORLD AVAILABLE

260,000km

POTENTIAL IN EUROPE

30,000km

POTENTIAL IN FRANCE

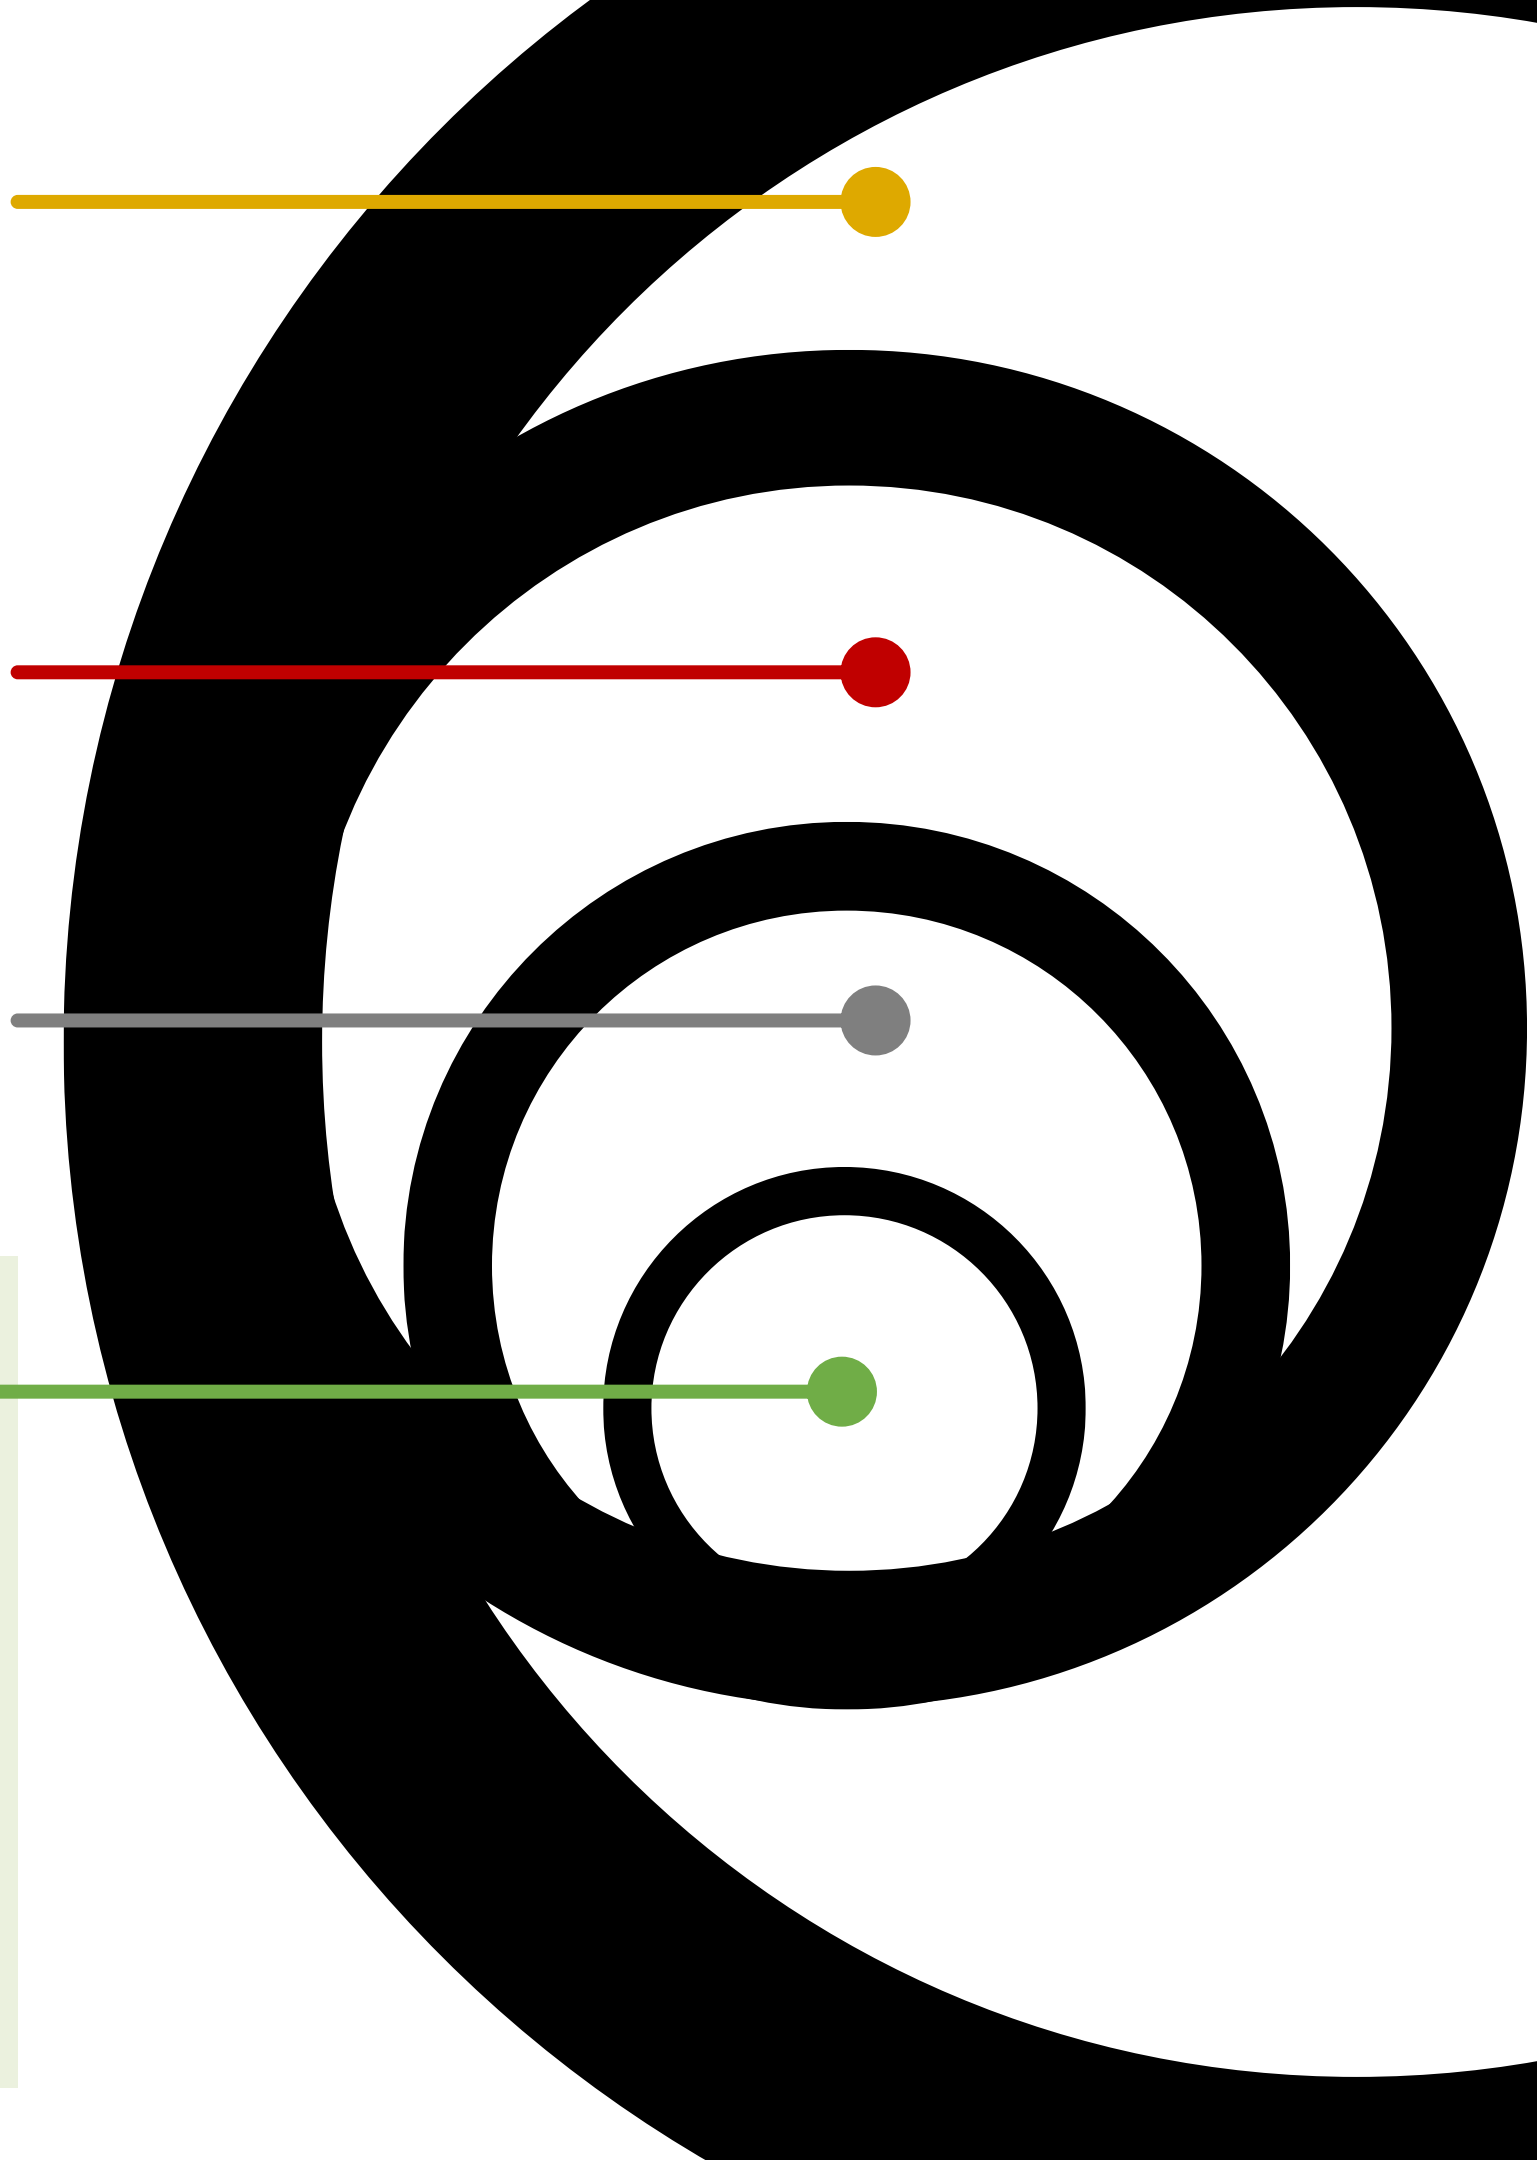

20'000km

MARKET SHARE IN 2030

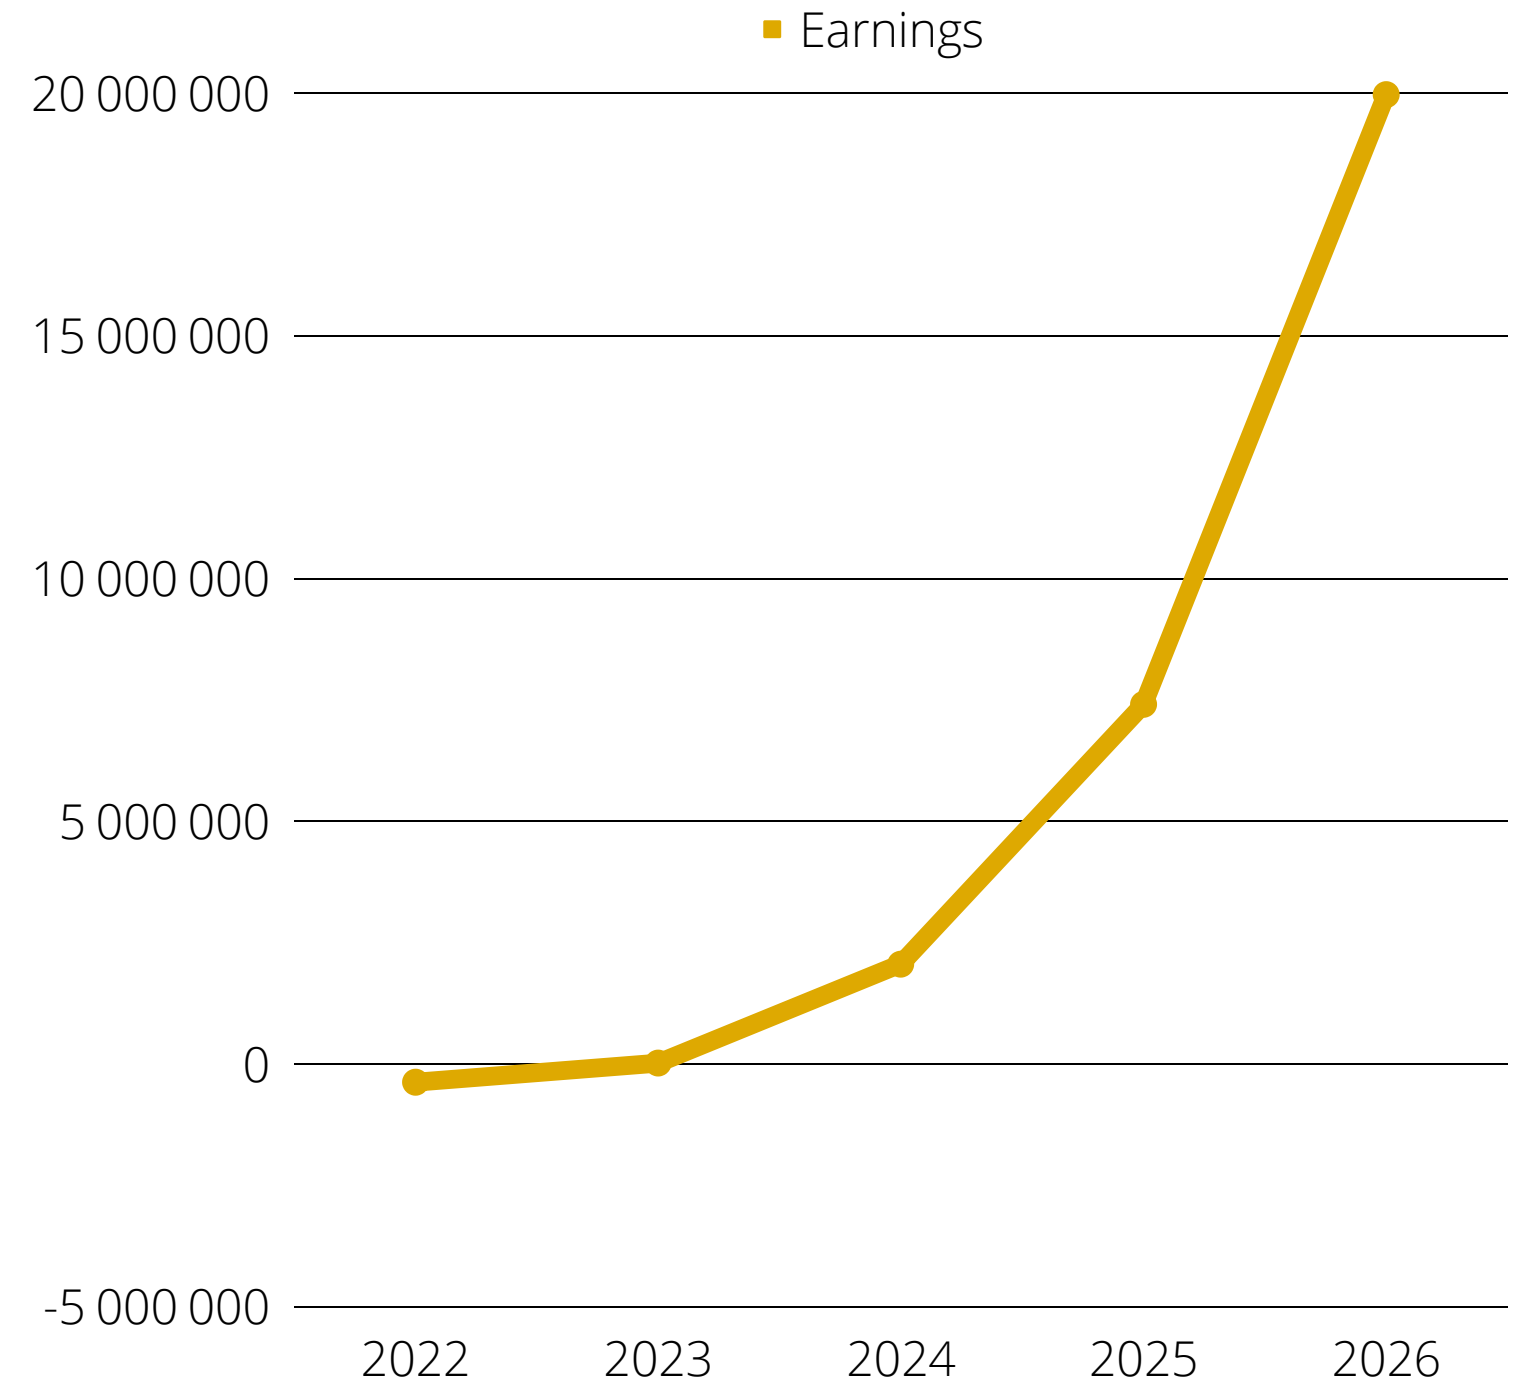

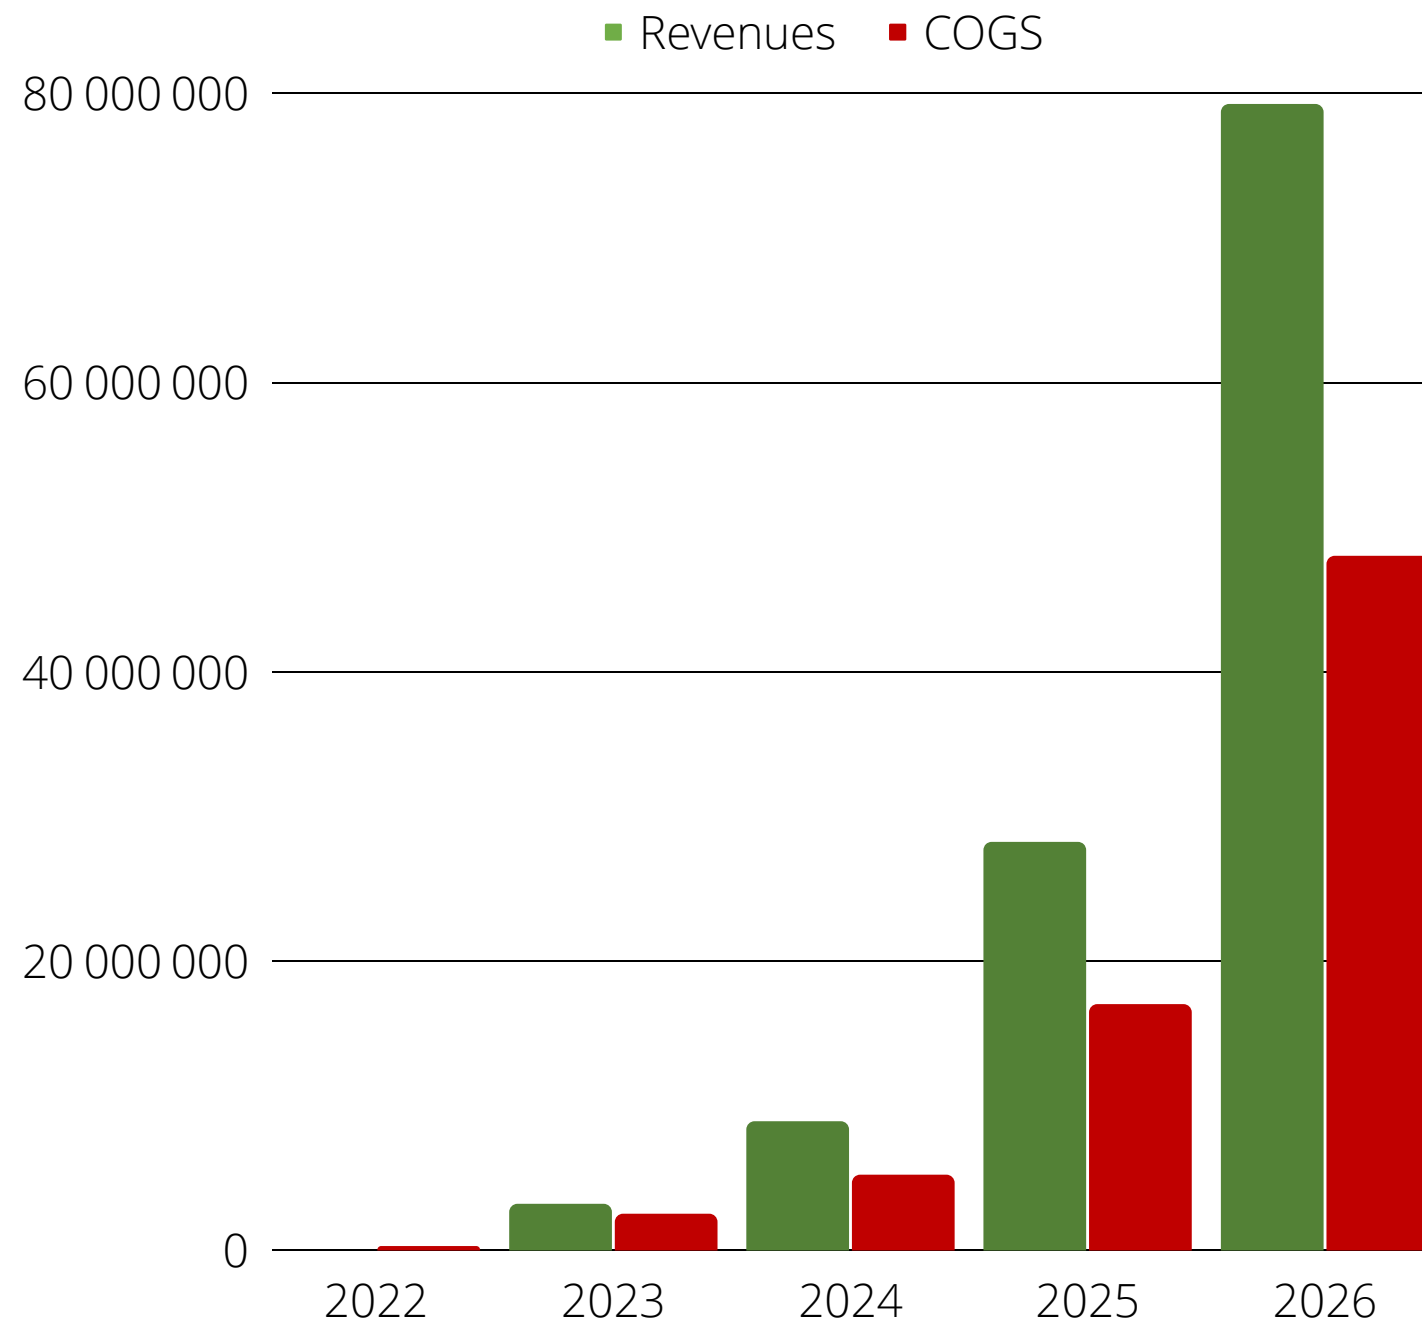

or

4 GWp installed

2'000'000'000 €
turnover

Financials
