Hybrid work is here to stay. However, keeping a distributed workforce aligned and up to date can be a challenge that requires workers to constantly switch between applications and search for the latest information. With Aptero, you can organize your events and meetups in a 3D innovative space.

Create a collaborative immersive 3D Space environment in Microsoft Teams with Aptero

- **Organise 3D events, trainings and much more**
- **Create a digital replica of your real life office**
- **Share and access files quickly**
- **Discover how 3D Spaces can organize teambuildings and events virtually**

3D Virtual spaces with Aptero for Microsoft Teams
