Visiodome : distant selling

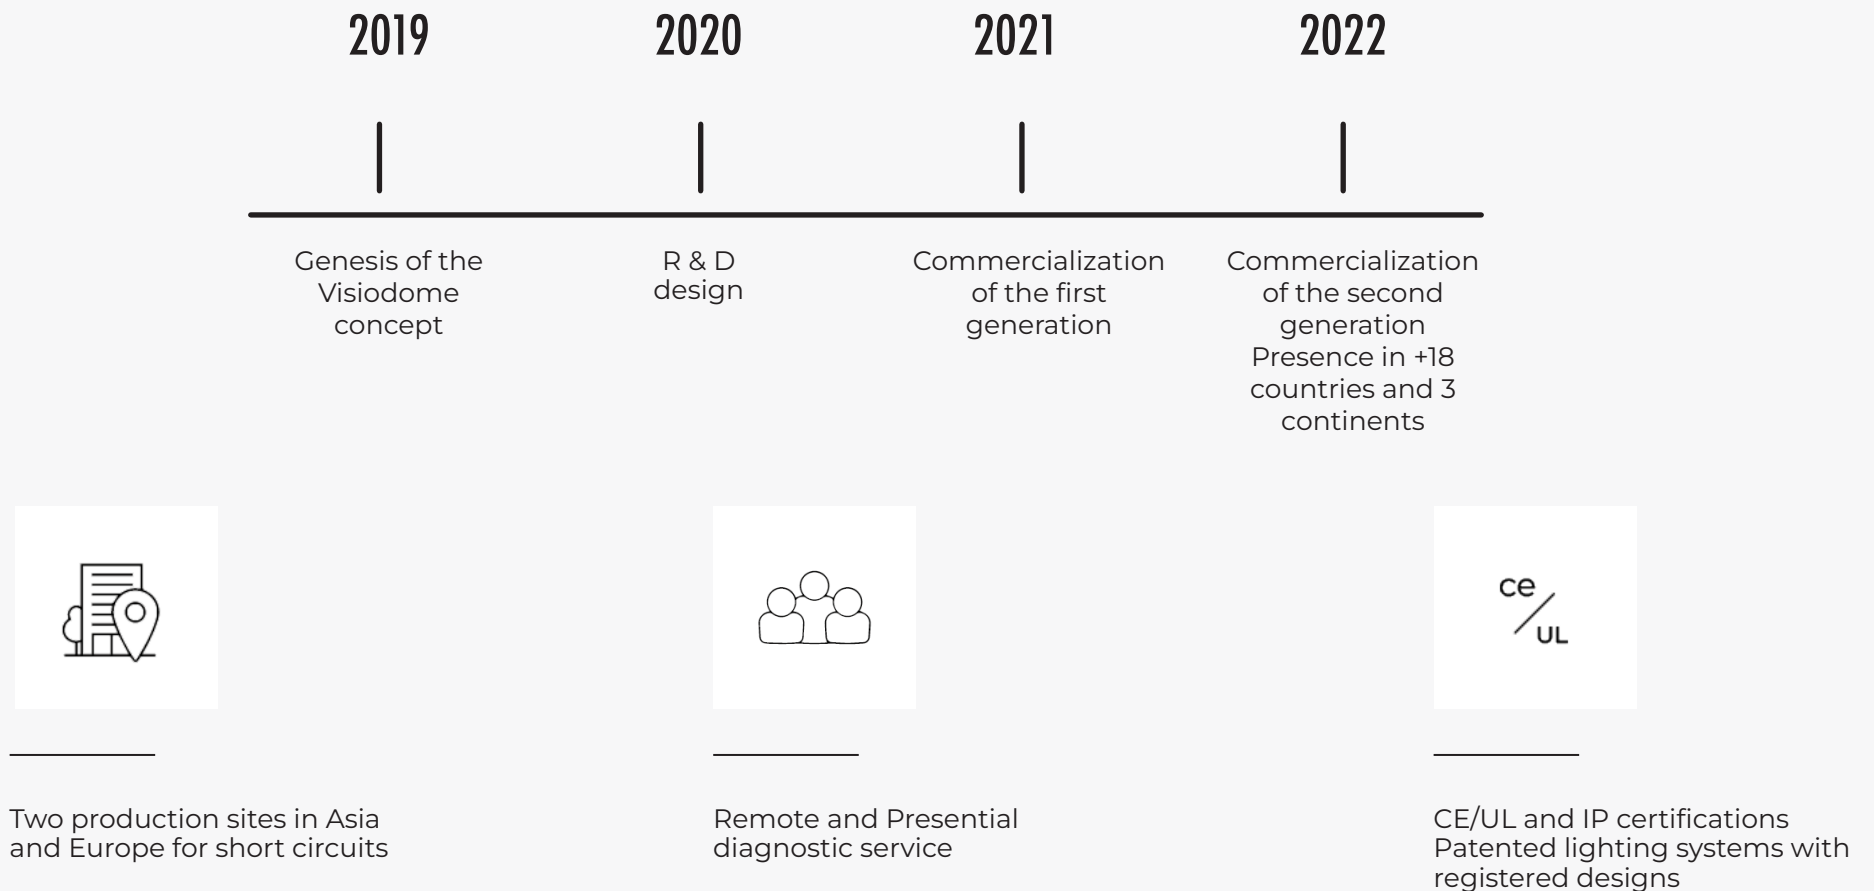

Designed in 2019, the Visiodome came in response to the emerging need in the luxury industry for new distance selling tools to optimize the in-store experience as well as at trade shows and other venues.

A mix of physical and digital experience, the Visiodome is a phygital presentation medium for :

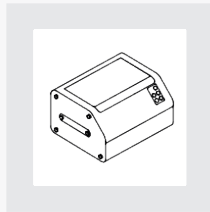

- sales teams ;
- training ;
- communication ;
- after-sales service;
- production.

Visiodome development

Technical and technological innovations in constant development

A distance selling tool

A PORTABLE VISIO-VIDEO STUDIO

A trunk easy to set up and move thanks to its leather handles.

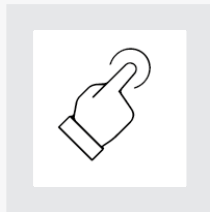

PLUG AND PLAY

A simple connection of the trunk to the tablet/laptop initiates a presentation.

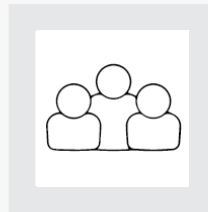

HIGH DEFINITION PRESENTATION

A triple lighting technology (Diffuse, Spots lights, Sparckle effect) and a very high performance auto-focus camera system.

VDCAST SOFTWARE

This universal cockpit simplifies the use of videoconferencing tools and improves the efficiency of presentations.

A FLUID COMMUNICATION

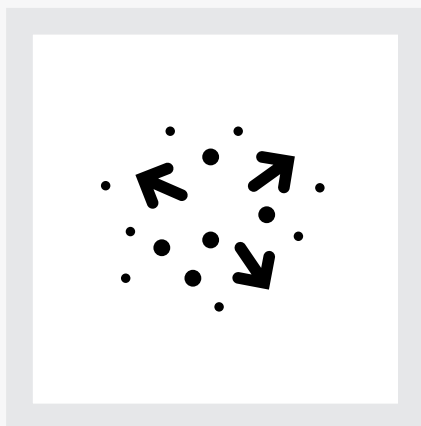

A permanent and simultaneous visual contact between your products, your interlocutors and yourself.

CUSTOMIZABLE & 100% MADE-TO-MEASURE

The possibility to match your Visiodome to your visual identity to make it always better integrated to your environments.

TRIPLITE technology : a combination of lighting

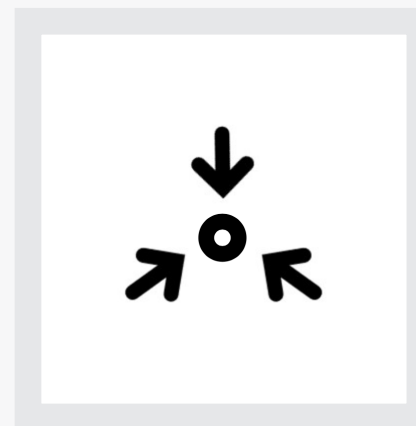

DIFFUSE

It is ideal for watches, jewelry, writing instruments and other leather pieces. The color temperature and its brightness are uniform allowing an optimal rendering of volumes.

SPARKLE EFFECT

A range of 3 color temperatures on a dimmer, particularly suitable for radiance from set pieces.

SPOTS LIGHT

Articulated, they give contrast, relief and life to complex details such as guilloché, ultra fine engraving, cloisonné, etc...

Visiodome : a turnkey solution

PORTABLE CASE WITH
HANDLE

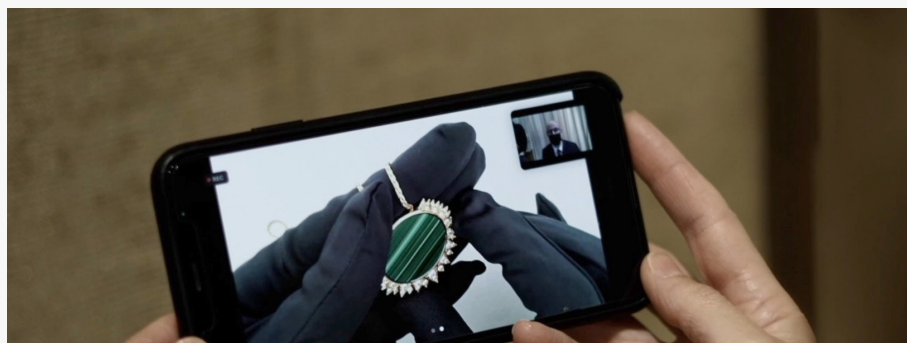

FRONT LIGHTING SUPPORT

TRIPLITE® LIGHTNING

SPARKLE EFFECT

CONTRE-JOUR

HD CAMERA

CONNECTIVITY

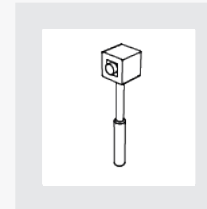

TOUCHPAD

Options to fit your needs

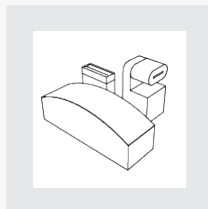

UV LIGHT

UV light for highlighting details and decorations with luminova technology®.

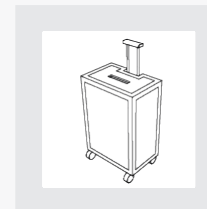

EXTERNAL CAMERA

An external camera that enables the vision of a product's bearing and the movement in space within a radius of 4m.

ACCESSORIES

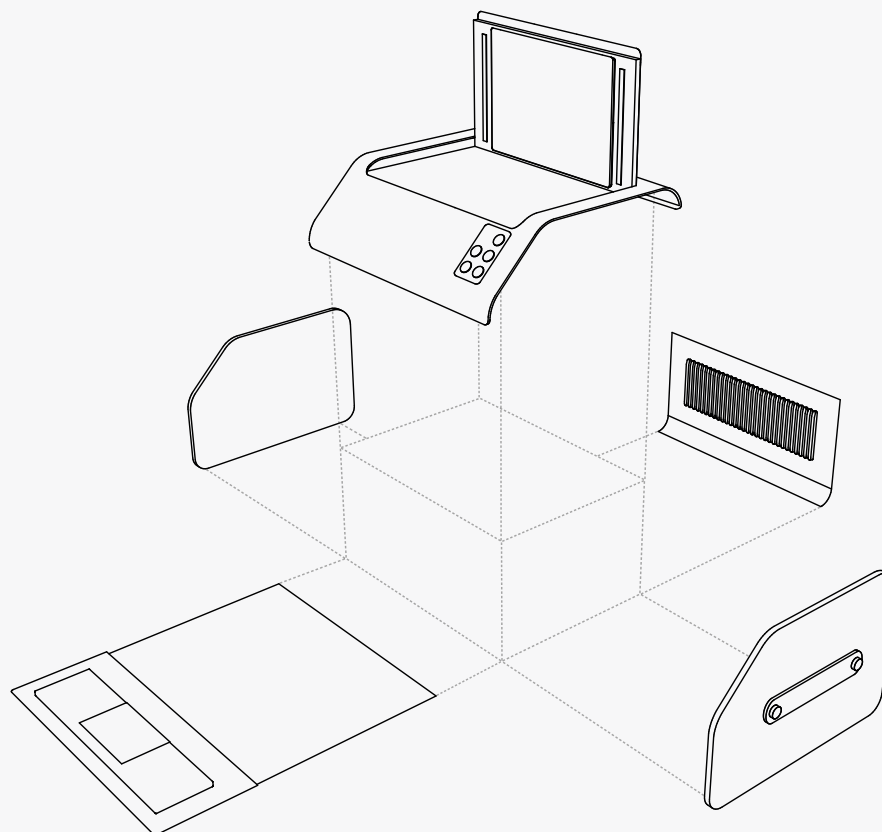

A range of accessories adapted to the Visiodome for product presentation (watch holders, jewelry, trays, gloves etc...).

TRANSPORT

A flight case on wheels adapted to all types of transport.

Customizable & 100% made-to-measure

Visiodome personalized with your logo, a leather covering adapted to your color codes and visual identity.

Visiodome is 100% customizable and can be created in a unique design, specific to your Maison.
