

## TO KEEP PLASTICS IN THE ECONOMY AND OUT OF THE ENVIRONMENT,

Recity is implementing robust technology & on-ground solutions by fostering cross-value chain collaborations in the ecosystem between brands, citizens, governments, waste workers and waste management companies.

As solutionaries, we are enabling systems tailored to various ways of creating a **circular economy of plastics through**

## OUR SOLUTIONS

### CIRCULAR CITIES

We build systemic solutions in behaviour change, waste worker professionalization and governance technology, for unlocking additional income for city waste supply chain across 12+ cities in India

### CIRCULAR PACKAGING

We provide high quality recyclates to plastic producers, sourced from oceans, hills and urban waste, with end-to-end digital traceability from consumer to recycler

### WASTE INTELLIGENCE

We are deploying a holistic suite of technology platform that caters to the needs of each member of the plastic waste supply chain including citizens, waste professionals, regulators, brand owners and waste management agencies.

**53,000 Tonnes**

of plastic prevented from entering the environment

**3 Million USD**

revenue unlocked to upgrade city infrastructure and supply chains

**10,000 Tonnes**

of carbon emissions avoided annually to minimize climate change effects

**2,000+**

waste workers professionalized for dignified livelihoods

**We create holistic impact across environment, social and governance outcomes, aligning to the SDGs and other Disclosure Frameworks**

**SUSTAINABLE DEVELOPMENT GOALS**

**We are working in 12 cities across 7 states, while collaborating with more than 50 partners to transform the plastic waste ecosystem**

Our technology is India's only government recognized and ISO 27001 compliant EPR Governance Platform implemented by Maharashtra Pollution Control Board, awarded by NITI Aayog as the top digital innovation in plastic waste management in India and identified by Asian Development Bank as top solution among 80 waste- tech solutions world-wide.

**Governments and Multilaterals**

**Brands**

**Waste Management companies**

Plastic waste in the environment is an urgent concern.

**JOIN US IN OUR GLOBAL MISSION TO CREATE CIRCULAR SYSTEMS ACROSS 500 CITIES BY 2025.**
