

Redefining Agriculture, Transforming lives

bio

noun

life

natural

organic

life history

prime

noun

best part of existence

adjective

triggered

armed

more informed,

more prepared

Bioprime Biologicals Product Range

Fortisea

Rapid growth booster
Aids recovery from
pesticides

Verdant/Aavirat

Growth & stress
management

7525

Flowering Initiator
Flowering Synchronization

Chiron/Fast 10

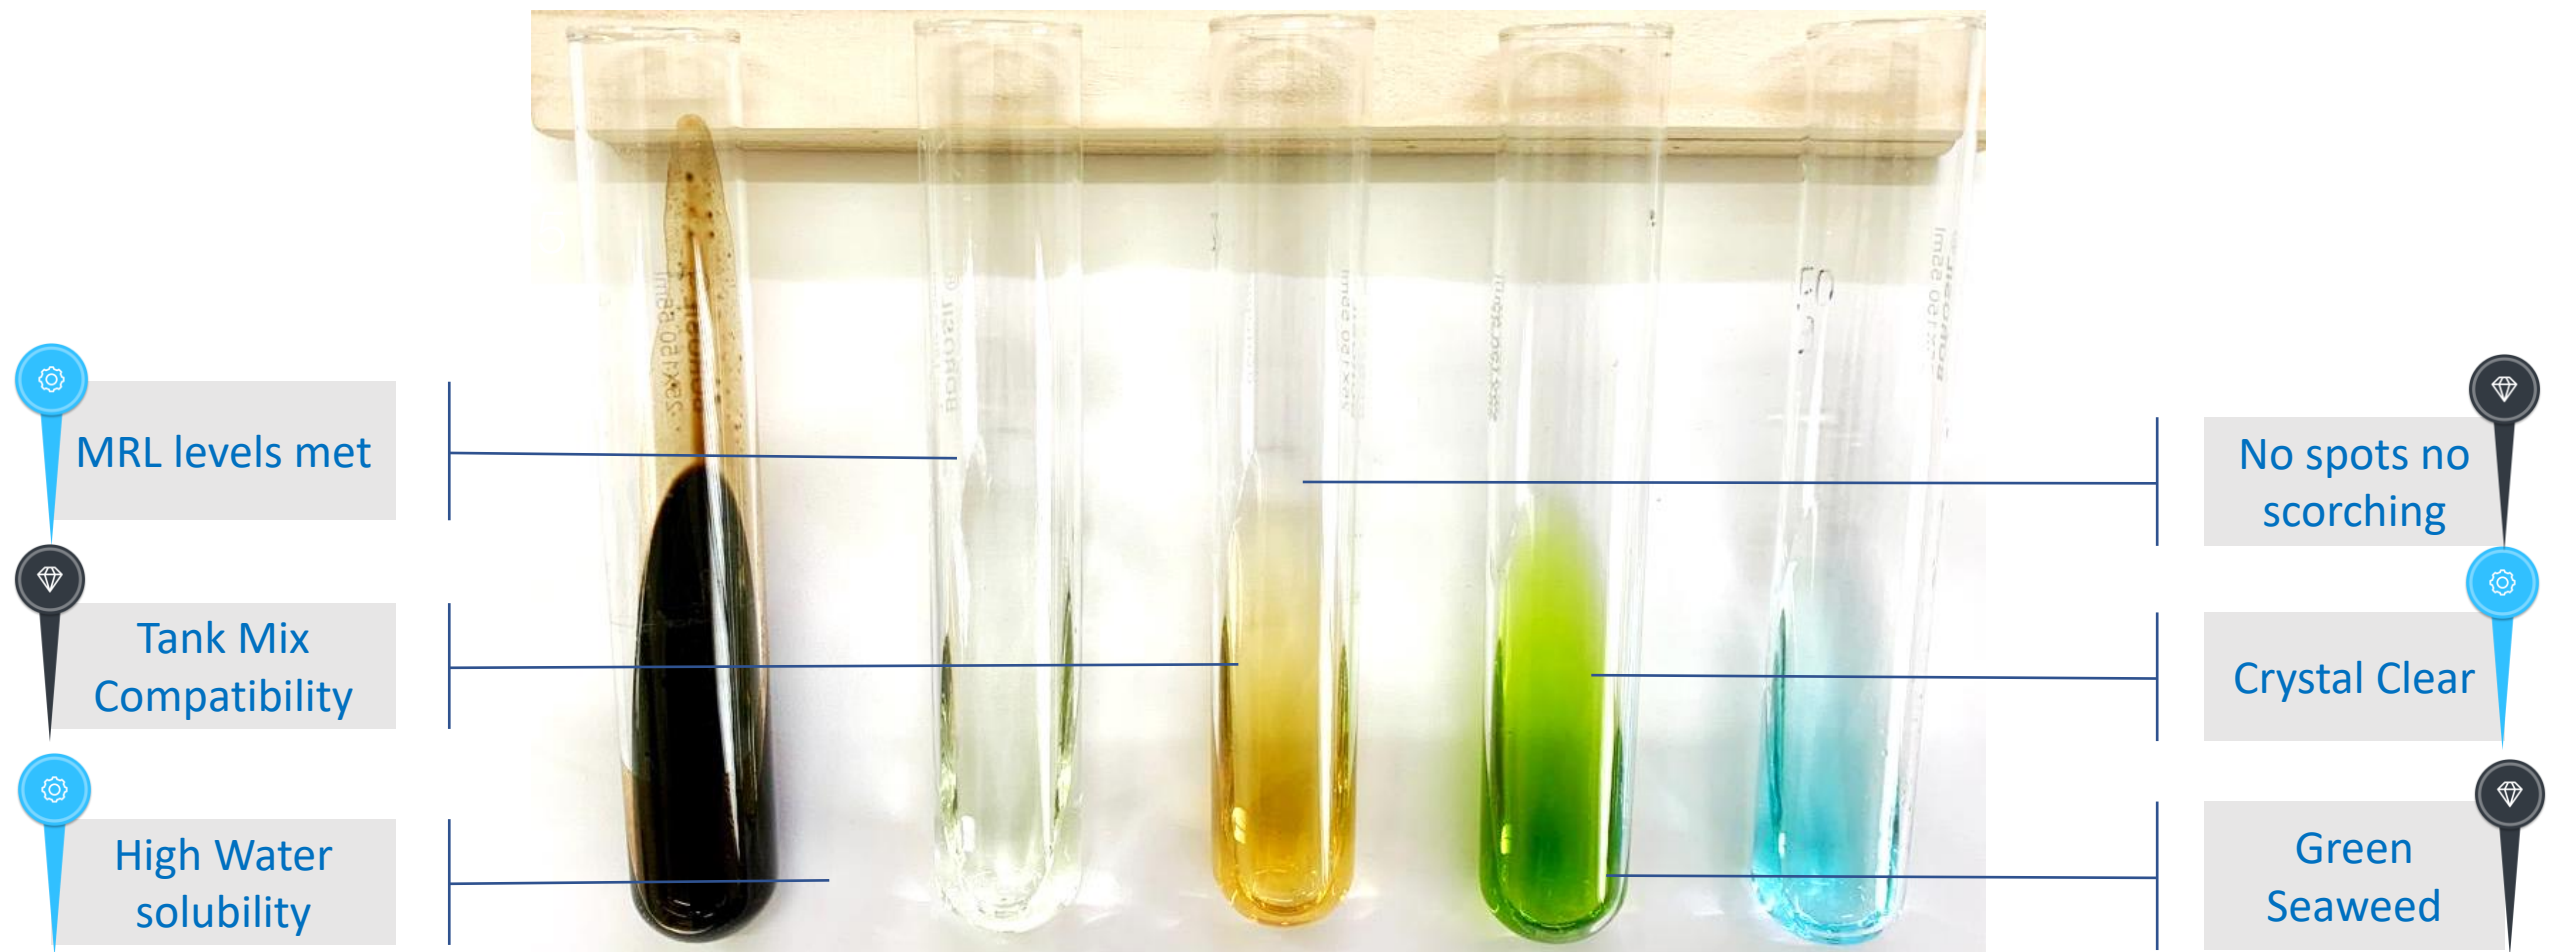

Yield enhancer
Uniformity in
size/shape/colour

CG Pro

Growth booster
granules for
broadcast

Bioprime Biologicals Product Range

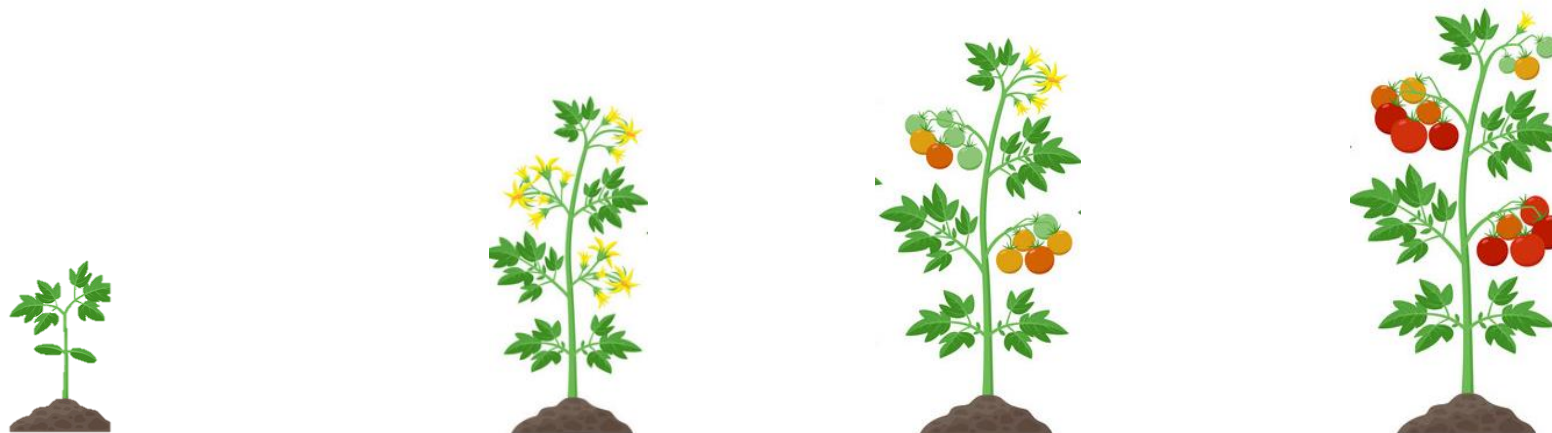

SNIPR Biologicals

Product	Composition	Differentiator
Fortisea	Polyphenols, tannins	<ul style="list-style-type: none"> Non-hormone growth promoter, 3X potent than cytokinin hormones, Boosts growth in Low light and high/low temperatures Clear transparent product Tank compatibility with agrochemicals (nutrients, insecticides, pesticides)
Chiron	Bioactive Lipids, Photosynthetic intermediates	<ul style="list-style-type: none"> Non-hormone yield promoter, Initiates flowering in difficult plants like Mango, pomegranate Improves female to male ratio Improves gradation – A,B Grade to C grade ratio Improves sugar content
Verdant	Antioxidants, Anti Transpirants, Proline, Polysaccharides	<ul style="list-style-type: none"> Anti oxidants, Anti transpirants reduce stress Improves recovery post stress Cell wall strengthening Reduces crop loss due to climate fluctuations
Non Technical product		
<i>Prime 1515</i>	<i>Humic water soluble</i>	<ul style="list-style-type: none"> <i>Very High water solubility</i> <i>Can be used for foliar application as well</i>

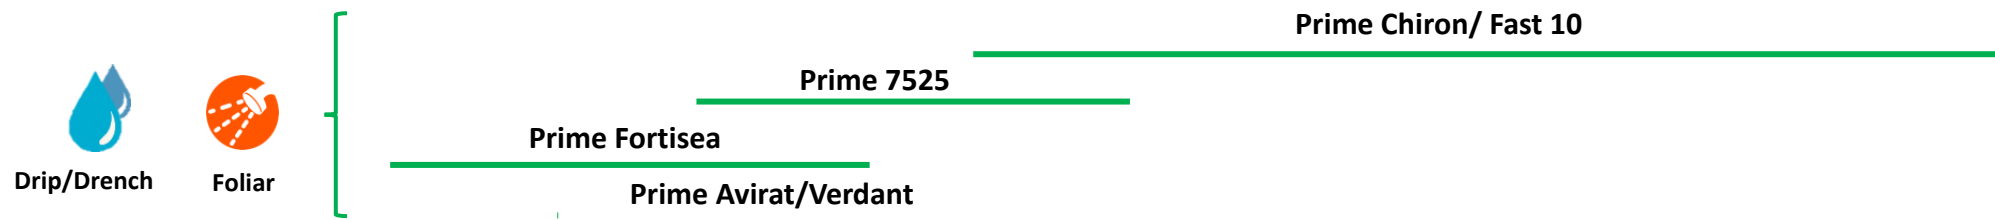

Usage Guide

Crop Stage

Vegetative Stage

Reproductive Stage

Suitable for

Chili

Tomato

Brinjal

Okra

Beans

Gourds

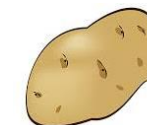

Grapes

Pomegranates

Banana

Potato

Rice/whet

Prime Fortisea is a unique formulation of *Australian bull kelp* based on proprietary *cold extraction process*.

- Contains bio active **polyphenols and tannins**
- **Crystal clear** formulation that does not leave any stains or scorching
- It enhances white root formation, increases branching.
- **3 x more potent** than PGRs
- Protects plants from temperature fluctuations
- Boosts growth in low light

Dosage – 3ml/ Liter
500ml/Acre for Vegetable
1Ltr/Acre for Orchards

DRIP & FOLIAR SPRAY

Prime 7525

Prime 7525 is an advanced complex blend of **naturally derived antioxidants**, that act as a super charger.

- **Polyphenols** that act as potent antioxidants
- It improves nutrient uptake.
- **Induces flowering**
- **Reduces flower drop** in stress
- Crystal clear formulation that does not leave any **stains or scorching**

Dosage – 3ml/ Liter
500ml/Acre for Vegetable
1Ltr/Acre for Orchards

DRIP & FOLIAR SPRAY

First in Class plant signaling molecules & photosynthetic intermediates for instant boost in quality and yield.

- **Uniform** size fruits , increase sugar content
- **Flowering initiator** in difficult crops like Mango, Pomegranate
- Enhances **female to male flower ratio**
- Reduces flower drop and fruit drop even in high temperatures
- Minimize **crop loss** in fluctuating conditions, rains, pest/disease virus attack

Dosage – 3ml/ Liter
500ml/Acre for Vegetable
1Ltr/Acre for Orchards

DRIP & FOLIAR SPRAY

Prime Verdant

Stress tolerance and mitigation through antioxidants, antitranspirants and osmolytes

- Proline and osmolytes for **stress tolerance**
- **Antioxidants, Antitranspirants** for building stress mitigation
- Rapid **Post stress recovery**
- Particularly beneficial in stress – drought/ temperature.
- Cell wall strengthening

Dosage – 3ml/ Liter
500ml/Acre for Vegetable
1Ltr/Acre for Orchards

DRIP & FOLIAR SPRAY

Stress mitigation through antioxidants, anti transpirants and active growth supplements.

- **Antioxidants** for stress mitigation
- Growth supplements to **aid recovery**
- It boosts branching and growth, enhances root development.
- Improves nutrient uptake
- Beneficial in water stress, temperature fluctuations.

Dosage – 3ml/ Liter
500ml/Acre for Vegetable
1Ltr/Acre for Orchards

DRIP & FOLIAR SPRAY

Prime CG-Pro

Bioactive consortium containing **photosynthetic intermediates** and **botanical biostimulants**.

- Triple action formula
- Stress management
- Growth booster, **photosynthesis enhancement**
- Yield booster

Dosage – 3ml/ Liter
500ml/Acre for Vegetable
1Ltr/Acre for Orchards

DRIP & FOLIAR SPRAY

**SUSTAINABLE
DEVELOPMENT**
